Ives and Cole Disagree With Federal Part of Bill

Meanwhile Democratic Minority Leaders Ask U. S. Senate Committee for Assistance—Republicans Fear State Loss

Albany, N. Y., Sept. 6 (AP)—The Democratic minority leaders of the State Legislature have called upon the U. S. Senate's Public Works Committee to approve a bill that would provide for federal development of Niagara Falls hydroelectric power.

The measure, introduced by Senator Lehman (D.-N. Y.), calls for construction of a new power project by army engineers.

In a joint statement released here yesterday, the Democratic legislative leaders, Senator Elmer F. Quinn and Assemblyman Irwin Steingut, said they had urged passage of the bill in a request sent to Senator Chavez (D.-N. M.), chairman of the public works committee.

They said that "remedial works to restore the scenic beauty of Niagara Falls and development of 1,250,000 kilowatts of power would go forward as parts of the same project under the Lehman bill."

Quinn and Steingut claimed the bill carried "safeguards for the redevelopment of Niagara Falls which are imperatively needed to protect the interest of the people."

They called upon the public works committee to turn down a counter measure introduced jointly by Senator Ives and Rep. Cole, New York Republicans.

Would Authorize State

The Ives-Cole measure would authorize New York state to proceed at once to develop the Niagara power.

Under terms of the Lehman bill, the Niagara project would be turned over to the state, when completed, if the President agreed.

Ives and Cole say they "fully agree" with the Lehman bill's "declared intent—ownership by New York state."

"But," they add, "we are sure that under the bill this purpose would be no more than a hazy hope, ultimately proving false."

Quinn and Steingut contended that "no state agency and no private utility is equipped to plan and build this project with adequate protection of the vital public interest involved in the development of these international boundary waters."

Kindergarten Rolls Show Increase

Forty-Two Per Cent Gain Taxes Facilities of Local Schools

A 42% increase in kindergarten registrations in the city is going to tax the school facilities but Superintendent of Schools A. J. Laidlaw this morning stated that all children desiring to enter kindergarten would be taken care of. Additional rooms and an increased staff may be necessary.

A survey made some time ago throughout the city indicated that there would be a sharp increase in kindergarten registration about 1951 but the increase is considerably greater than at that time was indicated.

Last year there was a registration of 304 in kindergartens on the second day of school. This year the registration was 432 on the second day, an increase of 128 and there may be more to register as families return from the summer vacation.

Registration in the elementary public schools as of Wednesday evening showed an increase of 168 over a like period last year. In the M.J.M. school the registration stood at 673, the same as last year and in the high school there were 40 less than at the same time last year. The total registration in public schools of the city as of Wednesday was 4,861, an increase of 127 over a like time last year. This figure will probably move up slightly as additional students return to the city and enter schools.

Tass' Agents Are Banned by Group

Editors Complain Soviet Body Only Unit of Propaganda

Washington, Sept. 6 (AP)—Capitol Hill newsmen have acted to deny admission to Congressional Press Galleries "at the present time" to and new representatives of the Russian New Agency, Tass.

The standing committee of correspondents, elected by their colleagues to govern the press galleries, took the action last night after hearing a complaint from the American Society of Newspaper Editors (ASNE) that Tass is "not a bona fide news service, but is primarily a propaganda and intelligence agency of the Soviet government."

The standing committee's action means that no additional applications for Tass newsmen, even to fill vacancies, will be considered for the time being.

Atom Plane Frame Now On Contract

To Carry First Airborne Atom Engine; Order Goes to Vultee Firm, Is Report

Reactor Is Clue

All Atomic Engines Are Dependent on Massive Device

Washington, Sept. 6 (AP)—The air force announced yesterday it has contracted for the frame of an airplane to carry the first airborne atomic engine.

Implicit in the terse statement was an indication that research has progressed to the point where a plane can be built with a range probably limited only by human endurance and speeds that can only be guessed at.

Only about two weeks ago the navy made a similar momentous announcement. It said it had let a contract for the hull of the first nuclear powered submarine.

The air force contract with the Consolidated Vultee Corporation gives that company primary responsibility for what engineers call an airframe—the shell of a plane without engines or instruments.

The air force already has a contract with the General Electric Company—announced last February—for development of an atomic engine for aircraft. And the Atomic Energy Commission (AEC) said in March it had awarded a contract to G.E. for "associated propulsion devices."

There was little public speculation in official sources about how soon an atomic-powered plane might be perfected. The best guess was that it would be somewhat longer than the two to three years which officials have estimated may be required to complete a nuclear powered submarine.

Power plants for both have their heart in an atomic reactor—a massive device which permits the slow, controlled release of atomic energy in the form of heat and radiation.

Three Persons Fall 15 Feet; None Is Injured Seriously

Three persons were hurled 15 feet to the ground when a second story porch collapsed at Highland Wednesday afternoon, state police reported. Troopers said the injured, none of whom were seriously hurt, were taken to Vassar Brothers Hospital in Poughkeepsie for treatment.

The only one who remained at the hospital this morning was Frank Figliolino, 45, of Clintondale. His condition was reported as "good." Troopers said he apparently suffered head injuries and lacerations, although the full extent of his injuries was not known. His son, Carmen Figliolino, 25, also of Clintondale, suffered lacerations of the face and head and bruises, and a tenant in the building, Lillian Mackey, 22, suffered injuries to the left leg and contusions about the head, state police reported.

Troopers said the Figliolino men were electricians and were working on the building at the corner of Milton and Vineyard avenues in Highland. They and Lillian Mackey were standing on the rear porch when it suddenly collapsed about 3 p. m. Wednesday, state police said.

General Visits Cleveland

Cleveland, Sept. 6 (AP)—Gen. Douglas MacArthur, the old soldier, came to Cleveland today for a 24-hour visit and a speech tonight in Public Hall to an audience expected to number 10,000. His chartered airliner came out of the rain-clouded sky at municipal airport for a landing at 11:50 a. m. The take-off in New York this morning was delayed 56 minutes by a defective engine governor.

Treasury Receipts

Washington, Sept. 6 (AP)—The position of the Treasury Sept. 4: Net budget receipts $71,377,542.15; budget expenditures $195,272,146.65; cash balance $4,616,777,531.15; customs receipts for month $2,096,267.72; budget receipts for fiscal year (July 1) $6,236,401,075.60; budget expenditures for fiscal year $10,021,101,607.74; budget deficit $3,784,700,532.14; total debt $256,516,904,301.25; increase over previous day $159,652,405.90; gold assets $21,853,317,992.61.

Chinese Hit Allies, Get Tank Help

UN Troops Break Out of Circle, Kill 400 Attackers — Marines Regain Ground

May Mean Push

Allied Officer Believes Assault Might Tell of New Drive

U. S. 8th Army Headquarters, Korea, Sept. 6 (AP)—Thousands of tank-supported Chinese today surrounded an Allied unit in a surprise attack on the western front. The Allies fought their way out in an 18-hour battle.

United Nations infantrymen and supporting airmen said they killed more than 400 of the 3,000 attacking Chinamen.

On the opposite end of the front North Korean Reds drove U. S. Marines back 400 yards on the northern edge of the punch bowl, 20 miles north of the 38th Parallel. The leathernecks counter-attacked and regained the lost ground.

Chinese attacking on the quiet western front, seven miles north of Parallel 38 were supported by eight tanks. One intelligence officer said 20 Russian-type tanks were seen in the area.

The fight began Wednesday midnight and continued into Thursday night when the UN force fought its way clear. It took out its wounded on tanks and armored vehicles.

Kill 300 to 400 Chinese

The Allies said they killed 300 to 400 Chinese. At least eight Reds were taken prisoner.

One Allied officer said the abrupt attack might be the beginning of a new offensive. An Eighth Army spokesman said it was too early to tell.

Another officer suggested it was a Red attempt to clean UN troops out of the "Trans-Imjin" area 30 miles north of Seoul in preparation for a buildup for an ultimate major Communist offensive.

The Reds attacked with two tank-supported forces of about 1,000 men each.

The British sent their Northumberland Fusiliers to try to reach the surrounded Allies. They ran into heavy Red fire and were pulled back.

Planes Pound Force

Allied planes pounded one attacking Red force fiercely.

British 25-pounder guns took the second Red outfit under fire.

Eye-witnesses said the final escape of the UN force was a "mad dash" by armored vehicles and foot troops.

The Chinese had at least eight Russian-type T-34 tanks. It was the first time the Chinese had employed tanks in Korea.

Land-based U. S. Marine fighter pilots reported they destroyed one tank and knocked out another with rockets and blazing jellied gasoline.

Three of the Red tanks moved to within 1,500 yards of the Allied positions in the area during the morning. UN artillery opened up on them and the tanks pulled

British Troubles Are Discussed By Top Officials

Ridgway Suggests New Site for Truce Talks With Reds

UN Commander Assails Communist Deceit in Manufacturing Incidents

Tokyo, Sept. 6 (AP)—Gen. Matthew B. Ridgway told the Reds in a stinging note today that if they want to end the shooting in Korea they should agree to start truce talks anew somewhere else.

The United Nations commander also brusquely told the Communists to stop their "constant deceit and treachery" in manufacturing incidents for "false and malevolent" charges against the allies.

Almost simultaneously with delivery of Ridgway's note, Chinese Communists launched a heavy, tank-supported attack on the western front. A front-line officer said it could be "a prelude to a major offensive."

The Red assault on the long inactive front was only 25 miles from Kaesong, site of the disrupted armistice negotiations.

A major Red offensive could blast the dimming hope of reviving truce talks. The Reds might ignore Ridgway's note and again try to drive UN forces out of Korea.

Up to Communists

Ridgway left it completely up to the Communists whether negotiations are resumed. But the UN commander made it clear the talks won't be at Kaesong.

Ridgway's information office said Kaesong is not a suitable site for armistice discussions because "it is within Communist lines."

A release by the information office said the situation has reached a point "where the question of the neutrality of the Kaesong zone has overshadowed the original purpose of the meetings."

The Reds broke off the talks Aug. 23 after charging the UN violated the neutrality zone. Ridgway reiterated Thursday that that charge and others that followed it, were "without the slightest basis in fact."

His proposal to set a new locale for negotiations actually changes the situation of the stalled talks only slightly.

His proposal contains a big "if."

Could Talk of Site

He said if the Reds are ready to start negotiating a cease-fire again, their liaison officers could talk about a new site. The Communists have said repeatedly they would resume negotiations only when Ridgway admitted responsibility for their long list of charges, which Ridgway called "baseless and intentionally false."

If Communist commanders—North Korean Premier Kim Il Sung and Chinese Gen. Peng Tehhuai—agreed to go ahead with negotiations now they wwould in ef-

Financial Woes Are Covered in Talks With Snyder

Washington, Sept. 6 (AP) — Britain's current financial troubles came up for top level discussion today at the beginning of a series of international conferences which will cover the whole range of the free world's problems.

Hugh Gaitskell, British chancellor of the exchequer, arranged a talk with Secretary of the Treasury Snyder. The British are having difficulties in paying mounting prices for goods they must import.

Tomorrow, preliminary U. S.-British-French talks will get under way, to be followed by a session of the Big Three foreign ministers on Monday.

Lower-echelon experts of the three governments are to meet at the State Department in an effort to agree on the main points of a postwar settlement with the West German republic.

To Review Decisions

Secretary of State Acheson, British Foreign Minister Herbert Morrison and French Foreign Minister Robert Schuman are to review whatever decisions their experts make and to tackle unsettled German issues at their conference here on East-West strategy.

Arriving in the U. S. yesterday, Gaitskell said prices of Britain's imports have gone up 40 per cent since last year. He forecast a 1951 deficit in British balance of payments with the rest of the world.

He left open whether the U. S. will be asked to waive the first annual interest payment of $76,000,000 due this year on the $3,750,000,000 loan this country extended in 1946 to help pull Britain out of a postwar economic crisis.

Gaitskell, known as a trouble-shooter in the Attlee government, said he would discuss with Snyder the whole range of British economic problems, including Britain's continuing trade with Russia and the Soviet bloc.

Britain has taken the position that the increasing cost of imports, due in large part to western rearmament, is imposing as great a burden as the British share in the build-up.

Storm Warning Given

New York, Sept. 6 (AP)—The weather bureau issued a small craft warning today for the area south of Block Island to the Virginia Capes, including Chesapeake and Delaware Bays. The bureau predicted fresh to strong southerly winds today and tonight, shifting to northwest early Friday, accompanied by scattered thundersqualls.

Patrolman Wins

New York, Sept. 6 (AP)—Patrolman Joseph McClellan today reasoned and cajoled with a middle-aged women, trying to stop her from jumping, but she kept moving closer to the edge of an East river pier. Finally, changing his tactics, McClellan told her curtly: "All right then, but that water is dirty and nasty. It's full of filth." At that, the woman gave up. She was taken to Bellevue Hospital.

Call Is Raised ★ ★ ★ *Marines to Get Some*

Washington, Sept. 6 (AP) — The Defense Department today raised its October draft call from 41,000 to 46,000 men.

The additional 3,600 men will go to the Marine Corps which has asked for 8,600 draftees in October. The remaining 36,000 will go into the army.

The department also asked for 33,700 draftees in November. The army will get 29,000 and the Marine Corps 4,700.

Work Train Makes First Trip Over New Grade Tracks

First Passenger Run Is to Come Next Week; Must Hook Up Circuits

The first wheels of a train rolled over the new bridge at the Broadway grade separation project today.

It was a work train used to bring ballast for the tracks on the bridge floor and was hauled by diesel engine 8111 operated by Engineer J. J. Haggerty with Conductor George Fatum in charge.

Trainmaster S. J. Keating said today that the first regular train of the line is expected to move over the west-bound rails on the bridge next Wednesday or Thursday. The east-bound tracks will not be ready for traffic until several days later.

Completing work on the tracks entails connecting of switches, hooking up signal circuits as well as grading and the dumping of ballast. Five dump cars are used on the train which started hauling ballast to the bridge this morning.

To Start on Sidewalk

Meanwhile, the first strip of concrete on the new street level of Broadway in the underpass area has been laid and work is scheduled to start on the sidewalk on the north side of the street next to it. Concrete was poured in the entire strip by the end of yesterday.

Digging on the west side of the crossing is progressing along with the construction of sewers and manholes in that area. Dig-

Hercules to Open Auxiliary Plant In Center of City

The Hurcules Powder Company of Port Ewen is negotiating to lease more than 5,000 square feet of floor space for an auxiliary plant in Kingston to handle defense orders, it was learned today.

The location of the plant which will employ from 50 to 100 persons is withheld on request of the management because details of the lease have not been completed and are not expected to be before next week.

Production at the Port Ewen plant has been steadily increasing since the first of the year and 1,000 employes are now working there on a 'round-the-clock production basis.

The auxiliary plant will be housed in the central part of the city and will handle a phase of defense production, the nature of which is not to be disclosed, a spokesman for the plant said. Plans for production in the new building will be completed after the space is acquired.

Gromyko Is Certain Not To Certify

Anything From Walkout to War May Be Next Move by Russia and Satellites

See Aggression

Reds Charge Draft Puts Japan in Line With U. S. for Attack

San Francisco, Sept. 6 (AP) — Russia's demand for wholesale rewriting of the British-American draft of a Japanese peace treaty was dismissed by western delegates today as being "out of order" and doomed to failure in the peace conference here.

Soviet Delegate Andrei Gromyko, defeated in his initial efforts to get Red China into the meeting and to change the conference rules to suit his own purposes, appeared certain not to sign the treaty.

He took such a battering on every move he made yesterday that some western delegates believed he might be seeking new instructions from Moscow.

Anything from a walkout to new and stronger threats of war in the Far East was considered possible for the Russians, and their Polish and Czech satellite delegations, in view of the situation which has developed here with extraordinary speed.

Sees War in East

Gromyko told the conference yesterday that what the United States and Britain are sponsoring "is not a treaty of peace but a treaty for the preparation of a new war in the Far East."

"The draft treaty," he charged, reading rapidly from his prepared speech, "creates conditions for the reestablishment of Japanese militarism, creates a danger of a new Japanese aggression."

Instead of providing for withdrawal of foreign (that is, American occupation) troops, he went on, "it insures the presence of foreign armed forces on the territory of Japan and the maintenance of foreign military bases in Japan even after the signing of a peace treaty."

"Under the pretext of self-defense of Japan," he said, "the draft provides for the participation of Japan in an aggressive military alliance with the United States.

"The draft treaty not only fails to provide for obligations that Japan should not join any coalitions directed against any of the states which participated in the war against militarist Japan, but on the contrary is clearing the path for Japan's participation in aggressive blocs in the Far East created under the aegis of the United States."

Proposes 13 Changes

Gromyko wound up his speech with a proposal of 13 major amendments to the British-American draft. These included provisions to force American troops out of Japan, bring Red China into the peacemaking, and give Formosa to Red China. Only such changes, he declared, would make the treaty acceptable to Russia.

He got isolated applause from the Communist delegates and advisers—and a loud explosion of "boos" from the spectator sections. The spectators were reprimanded by conference Vice President Percy C. Spender of Australia as Gromyko stalked to his fifth row seat.

Altogether the day was one of the roughest a Soviet delegation ever experienced in a public session of a major international meeting. In only two hours at the outset Gromyko lost the rules fight that had been expected to last all day at least. A tight set of rules limiting debate and barring changes in the treaty was adopted 48 to 3.

Aims for Saturday Signing

That was at yesterday morning's session, the first business meeting of the conference. U. S. Secretary of State Dean Acheson, elected president, immediately shifted the conference into high gear — driving toward a treaty signing ceremony scheduled Saturday.

In short order, after lunch, Ambassador John Foster Dulles, speaking for the United States, and Kenneth Younger, minister of state, speaking for Britain, extolled the proposed treaty. They

OPS Overrules Connecticut Price-Fixing Legislation

Hartford, Conn., Sept. 6 (AP) —The Office of Price Stabilization has ruled that Connecticut stores which sold liquor and cigarettes at cut rate prices between December 19 and January 25 must continue to do so despite new state price-fixing legislation.

The ruling was handed down yesterday by James E. Kelley, Connecticut district director for the OPS. The state office stressed, however, that rulings issued on a state level can be overruled by OPS headquarters in Washington.

Connecticut's new price fixing legislation for liquor and cigarettes is scheduled to become effective October 1.

The liquor law would prohibit sales below prices posted by the manufacturer or its agent. Some have contended that it could result in a price jump of as much as 50 cents on a fifth.

The cigarette law would require stores to sell them at profit of not less than four per cent.

Under Kelley's ruling, no store will be allowed to sell liquor or cigarettes at prices higher than those which prevailed during the Dec. 19-Jan. 25 pricing period.

Ridgway Suggests New Site for Truce Talks With Reds

UN Commander Assails Communist Deceit in Manufacturing Incidents

Tokyo, Sept. 6 (AP)—Gen. Matthew B. Ridgway told the Reds in a stinging note today that if they want to end the shooting in Korea they should agree to start truce talks anew somewhere else.

The United Nations commander also brusquely told the Communists to stop their "constant deceit and treachery" in manufacturing incidents for "false and malevolent" charges against the allies.

Almost simultaneously with delivery of Ridgway's note, Chinese Communists launched a heavy, tank-supported attack on the western front. A front-line officer said it could be "a prelude to a major offensive."

The Red assault on the long inactive front was only 25 miles from Kaesong, site of the disrupted armistice negotiations.

A major Red offensive could blast the dimming hope of reviving truce talks. The Reds might ignore Ridgway's note and again try to drive UN forces out of Korea.

Up to Communists

Ridgway left it completely up to the Communists whether negotiations are resumed. But the UN commander made it clear the talks won't be at Kaesong.

Ridgway's information office said Kaesong is not a suitable site for armistice discussions because "it is within Communist lines."

A release by the information office said the situation has reached a point "where the question of the neutrality of the Kaesong zone has overshadowed the original purpose of the meetings."

The Reds broke off the talks Aug. 23 after charging the UN violated the neutrality zone. Ridgway reiterated Thursday that that charge and others that followed it, were "without the slightest basis in fact."

His proposal to set a new locale for negotiations actually changes the situation of the stalled talks only slightly.

His proposal contains a big "if."

Could Talk of Site

He said if the Reds are ready to start negotiating a cease-fire again, their liaison officers could talk about a new site. The Communists have said repeatedly they would resume negotiations only when Ridgway admitted responsibility for their long list of charges, which Ridgway called "baseless and intentionally false."

If Communist commanders—North Korean Premier Kim Il Sung and Chinese Gen. Peng Tehhuai—agreed to go ahead with negotiations now they wwould in ef-

Financial Woes Are Covered in Talks With Snyder

Washington, Sept. 6 (AP)—Britain's current financial troubles came up for top level discussion today at the beginning of a series of international conferences which will cover the whole range of the free world's problems.

Hugh Gaitskell, British chancellor of the exchequer, arranged a talk with Secretary of the Treasury Snyder. The British are having difficulties in paying mounting prices for goods they must import.

Tomorrow, preliminary U. S.-British-French talks will get under way, to be followed by a session of the Big Three foreign ministers on Monday.

Lower-echelon experts of the three governments are to meet at the State Department in an effort to agree on the main points of a postwar settlement with the West German republic.

To Review Decisions

Secretary of State Acheson, British Foreign Minister Herbert Morrison and French Foreign Minister Robert Schuman are to review whatever decisions their experts make and to tackle unsettled German issues at their conference here on East-West strategy.

Arriving in the U. S. yesterday, Gaitskell said prices of Britain's imports have gone up 40 per cent since last year. He forecast a 1951 deficit in British balance of payments with the rest of the world.

He left open whether the U. S. will be asked to waive the first annual interest payment of $76,000,000 due this year on the $3,750,000,000 loan this country extended in 1946 to help pull Britain out of a postwar economic crisis.

Gaitskell, known as a troubleshooter in the Attlee government, said he would discuss with Snyder the whole range of British economic problems, including Britain's continuing trade with Russia and the Soviet bloc.

Britain has taken the position that the increasing cost of imports, due in large part to western rearmament, is imposing as great a burden as the British share in the build-up.

Storm Warning Given

New York, Sept. 6 (AP)—The weather bureau issued a small craft warning today for the area south of Block Island to the Virginia Capes, including Chesapeake and Delaware Bays. The bureau predicted fresh to strong southerly winds today and tonight, shifting to northwest early Friday, accompanied by scattered thundersqualls.

Patrolman Wins

New York, Sept. 6 (AP)—Patrolman Joseph McClellan today reasoned and cajoled with a middle-aged women, trying to stop her from jumping, but she kept moving closer to the edge of an East river pier. Finally, changing his tactics, McClellan told her curtly: "All right then, but that water is dirty and nasty. It's full of filth." At that, the woman gave up. She was taken to Bellevue Hospital.

Marines to Get Some

Washington, Sept. 6 (AP)—The Defense Department today raised its October draft call from 41,000 to 46,000 men.

The additional 3,600 men will go to the Marine Corps which has asked for 8,600 draftees in October. The remaining 36,000 will go into the army.

The department also asked for 33,700 draftees in November. The army will get 29,000 and the Marine Corps 4,700.

Work Train Makes First Trip Over New Grade Tracks

First Passenger Run Is to Come Next Week; Must Hook Up Circuits

The first wheels of a train rolled over the new bridge at the Broadway grade separation project today.

It was a work train used to bring ballast for the tracks on the bridge floor and was hauled by diesel engine 8111 operated by Engineer J. J. Haggerty with Conductor George Fatum in charge.

Trainmaster S. J. Keating said today that the first regular train of the line is expected to move over the west-bound rails on the bridge next Wednesday or Thursday. The east-bound tracks will not be ready for traffic until several days later.

Completing work on the tracks entails connecting of switches, hooking up signal circuits as well as grading and the dumping of ballast. Five dump cars are used on the train which started hauling ballast to the bridge this morning.

To Start on Sidewalk

Meanwhile, the first strip of concrete on the new street level of Broadway in the underpass area has been laid and work is scheduled to start on the sidewalk on the north side of the street next to it. Concrete was poured in the entire strip by the end of yesterday.

Digging on the west side of the crossing is progressing along with the construction of sewers and manholes in that area. Dig-

Hercules to Open Auxiliary Plant In Center of City

The Hurcules Powder Company of Port Ewen is negotiating to lease more than 5,000 square feet of floor space for an auxiliary plant in Kingston to handle defense orders, it was learned today.

The location of the plant which will employ from 50 to 100 persons is withheld on request of the management because details of the lease have not been completed and are not expected to be before next week.

Production at the Port Ewen plant has been steadily increasing since the first of the year and 1,000 employes are now working there on a 'round-the-clock production basis.

The auxiliary plant will be housed in the central part of the city and will handle a phase of defense production, the nature of which is not to be disclosed, a spokesman for the plant said. Plans for production in the new building will be completed after the space is acquired.

Gromyko Is Certain Not To Certify

Anything From Walkout to War May Be Next Move by Russia and Satellites

Reds Charge Draft Puts Japan in Line With U. S. for Attack

San Francisco, Sept. 6 (AP)—Russia's demand for wholesale rewriting of the British-American draft of a Japanese peace treaty was dismissed by western delegates today as being "out of order" and doomed to failure in the peace conference here.

Soviet Delegate Andrei Gromyko, defeated in his initial efforts to get Red China into the meeting and to change the conference rules to suit his own purposes, appeared certain not to sign the treaty.

He took such a battering on every move he made yesterday that some western delegates believed he might be seeking new instructions from Moscow.

Anything from a walkout to new and stronger threats of war in the Far East was considered possible for the Russians, and their Polish and Czech satellite delegations, in view of the situation which has developed here with extraordinary speed.

Sees War in East

Gromyko told the conference yesterday that what the United States and Britain are sponsoring "is not a treaty of peace but a treaty for the preparation of a new war in the Far East."

"The draft treaty," he charged, reading rapidly from his prepared speech, "creates conditions for the reestablishment of Japanese militarism, creates a danger of a new Japanese aggression."

Instead of providing for withdrawal of foreign (that is, American occupation) troops, he went on, "it insures the presence of foreign armed forces on the territory of Japan and the maintenance of foreign military bases in Japan even after the signing of a peace treaty."

"Under the pretext of self-defense of Japan," he said, "the draft provides for the participation of Japan in an aggressive military alliance with the United States.

"The draft treaty not only fails to provide for obligations that Japan should not join any coalitions directed against any of the states which participated in the war against militarist Japan, but on the contrary is clearing the path for Japan's participation in aggressive blocs in the Far East created under the aegis of the United States."

Proposes 13 Changes

Gromyko wound up his speech with a proposal of 13 major amendments to the British-American draft. These included provisions to force American troops out of Japan, bring Red China into the peacemaking, and give Formosa to Red China. Only such changes, he declared, would make the treaty acceptable to Russia.

He got isolated applause from the Communist delegates and advisers—and a loud explosion of "boos" from the spectator sections. The spectators were reprimanded by conference Vice President Percy C. Spender of Australia as Gromyko stalked to his fifth row seat.

Altogether the day was one of the roughest a Soviet delegation ever experienced in a public session of a major international meeting. In only two hours at the outset Gromyko lost the rules fight that had been expected to last all day at least. A tight set of rules limiting debate and barring changes in the treaty was adopted 48 to 3.

Aims for Saturday Signing

That was at yesterday morning's session, the first business meeting of the conference. U. S. Secretary of State Dean Acheson, elected president, immediately shifted the conference into high gear — driving toward a treaty signing ceremony scheduled Saturday.

OPS Overrules Connecticut Price-Fixing Legislation

Hartford, Conn., Sept. 6 (AP)—The Office of Price Stabilization has ruled that Connecticut stores which sold liquor and cigarettes at cut rate prices between December 19 and January 25 must continue to do so despite new state price-fixing legislation.

The ruling was handed down yesterday by James E. Kelley, Connecticut district director for the OPS. The state office stressed, however, that rulings issued on a state level can be overruled by OPS headquarters in Washington.

Connecticut's new price fixing legislation for liquor and cigarettes is scheduled to become effective October 1.

The liquor law would prohibit sales below prices posted by the manufacturer or its agent. Some have contended that it could result in a price jump of as much as 50 cents on a fifth.

The cigarette law would require stores to sell them at profit of not less than four per cent.

Under Kelley's ruling, no store will be allowed to sell liquor or cigarettes at prices higher than those which prevailed during the Dec. 19-Jan. 25 pricing period.

Ives and Cole Disagree With Federal Part of Bill

Meanwhile Democratic Minority Leaders Ask U. S. Senate Committee for Assistance—Republicans Fear State Loss

Albany, N. Y., Sept. 6 (AP)—The Democratic minority leaders of the State Legislature have called upon the U. S. Senate's Public Works Committee to approve a bill that would provide for federal development of Niagara Falls hydroelectric power.

The measure, introduced by Senator Lehman (D.-N. Y.), calls for construction of a new power project by army engineers.

In a joint statement released here yesterday, the Democratic legislative leaders, Senator Elmer F. Quinn and Assemblyman Irwin Steingut, said they had urged passage of the bill in a request sent to Senator Chavez (D.-N. M.), chairman of the public works committee.

They said that "remedial works to restore the scenic beauty of Niagara Falls and development of 1,250,000 kilowatts of power would go forward as parts of the same project under the Lehman bill."

Quinn and Steingut claimed the bill carried "safeguards for the redevelopment of Niagara Falls which are imperatively needed to protect the interest of the people."

They called upon the public works committee to turn down a counter measure introduced jointly by Senator Ives and Rep. Cole, New York Republicans.

Would Authorize State

The Ives-Cole measure would authorize New York state to proceed at once to develop the Niagara power.

Under terms of the Lehman bill, the Niagara project would be turned over to the state, when completed, if the President agreed.

Ives and Cole say they "fully agree" with the Lehman bill's "declared intent—ownership by New York state."

"But," they add, "we are sure that under the bill this purpose would be no more than a hazy hope, ultimately proving false."

Quinn and Steingut contended that "no state agency and no private utility is equipped to plan and build this project with adequate protection of the vital public interest involved in the development of these international boundary waters."

KindergartenRolls Show Increase

Forty-Two Per Cent Gain Taxes Facilities of Local Schools

A 42% increase in kindergarten registrations in the city is going to tax the school facilities but Superintendent of Schools A. J. Laidlaw this morning stated that all children desiring to enter kindergarten would be taken care of. Additional rooms and an increased staff may be necessary.

A survey made some time ago throughout the city indicated that there would be a sharp increase in kindergarten registration about 1951 but the increase is considerably greater than at that time was indicated.

Last year there was a registration of 304 in kindergartens on the second day of school. This year the registration was 432 on the second day, an increase of 128 and there may be more to register as families return from the summer vacation.

Registration in the elementary public schools as of Wednesday evening showed an increase of 168 over a like period last year. In the M.J.M. school the registration stood at 673, the same as last year and in the high school there were 40 less than at the same time last year. The total registration in public schools of the city as of Wednesday was 4,861, an increase of 127 over a like time last year. This figure will probably move up slightly as additional students return to the city and enter schools.

The standing committee's action means that no additional applications for Tass newsmen, even to fill vacancies, will be considered for the time being.

Atom Plane Frame Now OnContract

To Carry First Airborne Atom Engine; Order Goes to Vultee Firm, Is Report

Reactor Is Clue

All Atomic Engines Are Dependent on Massive Device

Washington, Sept. 6 (AP)—The air force announced yesterday it has contracted for the frame of an airplane to carry the first airborne atomic engine.

Implicit in the terse statement was an indication that research has progressed to the point where a plane can be built with a range probably limited only by human endurance and speeds that can only be guessed at.

Only about two weeks ago the navy made a similar momentous announcement. It said it had let a contract for the hull of the first nuclear powered submarine.

The air force contract with the Consolidated Vultee Corporation gives that company primary responsibility for what engineers call an airframe—the shell of a plane without engines or instruments.

The air force already has a contract with the General Electric Company—announced last February—for development of an atomic engine for aircraft. And the Atomic Energy Commission (AEC) said in March it had awarded a contract to G.E. for "associated propulsion devices."

There was little public speculation in official sources about how soon an atomic-powered plane might be perfected. The best guess was that it would be somewhat longer than the two to three years which officials have estimated may be required to complete a nuclear powered submarine.

Releases Power Slowly

Power plants for both have their heart in an atomic reactor—a massive device which permits the slow, controlled release of atomic energy in the form of heat and radiation.

This heat probably would be converted into propulsive power for a plane by gas or mercury vapor turbines. Some turbine en-

Three Persons Fall 15 Feet; None Is Injured Seriously

Three persons were hurled 15 feet to the ground when a second story porch collapsed at Highland Wednesday afternoon, state police reported. Troopers said the injured, none of whom were seriously hurt, were taken to Vassar Brothers Hospital in Poughkeepsie for treatment.

The only one who remained at the hospital this morning was Frank Figliolino, 45, of Clintondale. His condition was reported as "good." Troopers said he apparently suffered head injuries and lacerations, although the full extent of his injuries was not known. His son, Carmen Figliolino, 25, also of Clintondale, suffered lacerations of the face and head and bruises, and a tenant in the building, Lillian Mackey, 22, suffered injuries to the left leg and contusions about the head, state police reported.

Troopers said the Figliolino men were electricians and were working on the building at the corner of Milton and Vineyard avenues in Highland. They and Lillian Mackey were standing on the rear porch when it suddenly collapsed about 3 p. m. Wednesday, state police said.

West Delegates Turn Down Soviet Demand on Treaty

Chinese Hit Allies, Get Tank Help

UN Troops Break Out of Circle, Kill 400 Attackers — Marines Regain Ground

May Mean Push

Allied Officer Believes Assault Might Tell of New Drive

U. S. 8th Army Headquarters, Korea, Sept. 6 (AP)—Thousands of tank-supported Chinese today surrounded an Allied unit in a surprise attack on the western front. The Allies fought their way out in an 18-hour battle.

United Nations infantrymen and supporting airmen said they killed more than 400 of the 3,000 attacking Chinamen.

On the opposite end of the front North Korean Reds drove U. S. Marines back 400 yards on the northern edge of the punch bowl, 20 miles north of the 38th Parallel. The leathernecks counter-attacked and regained the lost ground.

Chinese attacking on the quiet western front, seven miles north of Parallel 38 were supported by eight tanks. One intelligence officer said 20 Russian-type tanks were seen in the area.

The fight began Wednesday midnight and continued into Thursday night when the UN force fought its way clear. It took out its wounded on tanks and armored vehicles.

Kill 300 to 400 Chinese

The Allies said they killed 300 to 400 Chinese. At least eight Reds were taken prisoner.

One Allied officer said the abrupt attack might be the beginning of a new offensive. An Eighth Army spokesman said it was too early to tell.

Another officer suggested it was a Red attempt to clean UN troops out of the "Trans-Imjin" area 30 miles north of Seoul in preparation for a buildup for an ultimate major Communist offensive.

The Reds attacked with two tank-supported forces of about 1,000 men each.

The British sent their Northumberland Fusiliers to try to reach the surrounded Allies. They ran into heavy Red fire and were pulled back.

Allied planes pounded one attacking Red force fiercely.

British 25-pounder guns took the second Red outfit under fire.

That was at yesterday morning's session, the first business meeting of the conference. U. S. Secretary of State Dean Acheson, elected president, immediately shifted the conference into high gear — driving toward a treaty signing ceremony scheduled Saturday.

In short order, after lunch, Ambassador John Foster Dulles, speaking for the United States, and Kenneth Younger, minister of state, speaking for Britain, extolled the proposed treaty. They

It Wasn't Interesting to Everyone

While the Sept. 5 Japanee peace treaty conference kept millions glued to their radio and television receivers at least four persons in the balcony of the San Francisco Opera House, conference site, fell asleep during the afternoon session. In sharp contrast is the intense interest shown by a U.S. Army officer in center. (AP Wirephoto).

OPS Overrules Connecticut Price-Fixing Legislation

Hartford, Conn., Sept. 6 (AP) —The Office of Price Stabilization has ruled that Connecticut stores which sold liquor and cigarettes at cut rate prices between December 19 and January 25 must continue to do so despite new state price-fixing legislation.

The ruling was handed down yesterday by James E. Kelley, Connecticut district director for the OPS. The state office stressed, however, that rulings issued on a state level can be overruled by OPS headquarters in Washington.

Connecticut's new price fixing legislation for liquor and cigarettes is scheduled to become effective October 1.

The liquor law would prohibit sales below prices posted by the manufacturer or its agent. Some have contended that it could result in a price jump of as much as 50 cents on a fifth.

The cigarette law would require stores to sell them at profit of not less than four per cent.

Under Kelley's ruling, no store will be allowed to sell liquor or cigarettes at prices higher than those which prevailed during the Dec. 19-Jan. 25 pricing period.

Social Security Law Provisions

George J. Johnson, manager of the Kingston Social Security Office, submits the following article on the provisions of the new Social Securtiy Law:

The Self-Employed Are Now Working Under Social Security

For a number of years field representatives of the Social Security Administration have been asked by small businessmen when they were going to be covered by the social security law. Many of them complained that while their employes had protection for their old age and payments to their survivors in case of death, they themselves had nothing, even though their business paid a part of the tax. Congress was aware of this problem and in August of last year when the Social Secuity Act was amended, coverage under the old-age and survivors insurance program was extended to approximately five million self-employed persons. This extension of coverage became effective January 1, 1951.

At the present time there is little a self-employed individual should do in connection with the law. One matter he should take care of at his earliest convenience is to obtain a social security account-number card. He cannot use the identification number which has been assigned him for his business. If he has worked in the past where an account-number card was needed, he will use the same number when it comes time to report his self-employment. If he has lost his card, or if he never had an account-number card, he should apply at the nearest office of the Social Security Administration. The address of this office may be obtained from the telephone directory or from the local postmaster.

Once an individual has his social security card, he has nothing further to do until he files his income tax return for the year 1951. This return is due on or before March 15, 1952. There will be a separate schedule on the return where an individual will report his self-employment income—if such income is more than $400 a year. All of a person's income may not be considered in computing his net earnings from self-employment because investment income, for example, or capital gains, do not exactly represent the individual's own productive effort and therefore are excluded in determining his self-employment earnings. The income tax form itself with its separate schedule for self-employment will explain clearly what items should be included and what should not.

The self-employment schedule will require a separate social security tax. For the next few years the tax rate will be 2¼ per cent of income. Any earnings in excess of $3600 a year, however, are not considered for social security tax purposes.

Since the amendments to the Social Security Act extended coverage on a voluntary basis to non-profit institutions and to employes of local government, some self-employed persons have erroneously got the impression the coverage for them is voluntary. This is entirely false. Coverage for the self-employed is compulsory for any individual who has net earnings of $400 or more in a taxable year.

For further information contact the Social Security Administration field office located in the Central Post Office Building, Broadway, Kingston, N. Y.

Methodists Ban Dances

Singapore (AP)—Ballroom dancing is out for members of the Malayan Methodist Youth Fellowship Council. It declared such entertainment will have no place in the social programs of any of its 50 chapters in the Singapore and the Federation of Malaya. The Council ruled the time is "not ripe yet" to sponsor ballroom dancing because of its association with cabarets. It said, however, there could be folk dancing.

Malaya Casualty Report

Kuala Lumpur (AP) — British army units fighting Communist terrorists in Malaya have lost 318 men killed since the state of emergency was proclaimed on June 1, 1948. Another 465 have been wounded. One British soldier is missing.

Moran-Spencerian Will Open Monday

Monday, September 10, will be the opening date for the fall term of The Moran-Spencerian School of Business, situated in the Freeman Building, 237 Fair street. Registration for all courses is now in progress.

The overwhelming demand for trained office personnel is not limited to this area alone, according to Joseph J. Morgan, principal of the school. Everywhere throughout the nation placement agencies report that demand for office workers greatly exceeds the supply. The situation becomes more acute as the government's defense program continues to expand.

This year's graduates have already joined the ranks of Moran-Spencerian alumni, many of whom throughout the years have developed into executives in modern business and professional organizations. It is an interesting fact that this school's record combines 97 years of training and employment service. Personal placement service has always been an important factor in the students' ultimate success.

Students entering the accountancy division this term will enjoy the advantages of a new, up-to-the-minute course. Mr. Morgan explained that a completely revised edition of the school's basic accounting course will be used for the first time this fall.

Excellent results have been achieved with the new simplified edition of Gregg shorthand, introduced in 1949. Already, Moran-Spencerian students, trained in this system, are applying it successfully in important business positions.

In civil service examinations, local, state, and federal, held within recent months, candidates trained at the Moran-Spencerian School have passed with high ratings.

Worried Weavers

New York (AP) — Underneath your Oriental rug may be the story of a rug weaver's worries. Charles Sahagian, president of the Oriental Rug Importers' Association, says Iranian rug weavers are men of many moods, and, "When things go right, the weave on the bottom side of the rug is regular. When they're worried, the weaving becomes uneven. The irregularity never affects the quality of the rug, but it certainly reflects the frame of mind."

Social Security Law Provisions

George J. Johnson, manager of the Kingston Social Security Office, submits the following article on the provisions of the new Social Securtiy Law:

The Self-Employed Are Now Working Under Social Security

For a number of years field representatives of the Social Security Administration have been asked by small businessmen when they were going to be covered by the social security law. Many of them complained that while their employes had protection for their old age and payments to their survivors in case of death, they themselves had nothing, even though their business paid a part of the tax. Congress was aware of this problem and in August of last year when the Social Secuity Act was amended, coverage under the old-age and survivors insurance program was extended to approximately five million self-employed persons. This extension of coverage became effective January 1, 1951.

At the present time there is little a self-employed individual should do in connection with the law. One matter he should take care of at his earliest convenience is to obtain a social security account-number card. He cannot use the identification number which has been assigned him for his business. If he has worked in the past where an account-number card was needed, he will use the same number when it comes time to report his self-employment. If he has lost his card, or if he never had an account-number card, he should apply at the nearest office of the Social Security Administration. The address of this office may be obtained from the telephone directory or from the local postmaster.

Once an individual has his social security card, he has nothing further to do until he files his income tax return for the year 1951. This return is due on or before March 15, 1952. There will be a separate schedule on the return where an individual will report his self-employment income—if such income is more than $400 a year. All of a person's income may not be considered in computing his net earnings from self-employment because investment income, for example, or capital gains, do not exactly represent the individual's own productive effort and therefore are excluded in determining his self-employment earnings. The income tax form itself with its separate schedule for self-employment will explain clearly what items should be included and what should not.

The self-employment schedule will require a separate social security tax. For the next few years the tax rate will be 2¼ per cent of income. Any earnings in excess of $3600 a year, however, are not considered for social security tax purposes.

Since the amendments to the Social Security Act extended coverage on a voluntary basis to non-profit institutions and to employes of local government, some self-employed persons have erroneously got the impression the coverage for them is voluntary. This is entirely false. Coverage for the self-employed is compulsory for any individual who has net earnings of $400 or more in a taxable year.

For further information contact the Social Security Administration field office located in the Central Post Office Building, Broadway, Kingston, N. Y.

Methodists Ban Dances

Singapore (AP)—Ballroom dancing is out for members of the Malayan Methodist Youth Fellowship Council. It declared such entertainment will have no place in the social programs of any of its 50 chapters in the Singapore and the Federation of Malaya. The Council ruled the time is "not ripe yet" to sponsor ballroom dancing because of its association with cabarets. It said, however, there could be folk dancing.

Kuala Lumpur (AP) — British army units fighting Communist terrorists in Malaya have lost 318 men killed since the state of emergency was proclaimed on June 1, 1948. Another 465 have been wounded. One British soldier is missing.

Moran-Spencerian Will Open Monday

Monday, September 10, will be the opening date for the fall term of The Moran-Spencerian School of Business, situated in the Freeman Building, 237 Fair street. Registration for all courses is now in progress.

The overwhelming demand for trained office personnel is not limited to this area alone, according to Joseph J. Morgan, principal of the school. Everywhere throughout the nation placement agencies report that demand for office workers greatly exceeds the supply. The situation becomes more acute as the government's defense program continues to expand.

This year's graduates have already joined the ranks of Moran-Spencerian alumni, many of whom throughout the years have developed into executives in modern business and professional organizations. It is an interesting fact that this school's record combines 97 years of training and employment service. Personal placement service has always been an important factor in the students' ultimate success.

Students entering the accountancy division this term will enjoy the advantages of a new, up-to-the-minute course. Mr. Morgan explained that a completely revised edition of the school's basic accounting course will be used for the first time this fall.

Excellent results have been achieved with the new simplified edition of Gregg shorthand, introduced in 1949. Already, Moran-Spencerian students, trained in this system, are applying it successfully in important business positions.

In civil service examinations, local, state, and federal, held within recent months, candidates trained at the Moran-Spencerian School have passed with high ratings.

Worried Weavers

New York (AP) — Underneath your Oriental rug may be the story of a rug weaver's worries. Charles Sahagian, president of the Oriental Rug Importers' Association, says Iranian rug weavers are men of many moods, and, "When things go right, the weave on the bottom side of the rug is regular. When they're worried, the weaving becomes uneven. The irregularity never affects the quality of the rug, but it certainly reflects the frame of mind."

REDS TAKE ADVANTAGE OF LAWS

When the federal government seized seven reported Communists in Hawaii on charges of conspiring to teach violent overthrow of the U. S. government, bail of $75,000 each was demanded for them.

But Federal Judge Delbert Metzger cut the figure to $5,000, adding the comment that "bail was never intended as a punishment before trial."

The request for high bail evidently was dictated by the fact that several top Communist leaders, including four already convicted of conspiring to advocate overthrow of the government, have recently jumped bail and gone into hiding. Federal officials hoped either to keep these new suspects in jail pending trial, or to make the forfeit of bail tremendously expensive.

Senator O'Mahoney of Wyoming assailed Metzger for his action, and predicted he would get scant consideration for re-appointment when his term expires September 28. (Territorial judges, unlike those on the mainland, do not get lifetime appointments.)

But it is clear that Metzger acted in accord with the law as he saw it. There is no evidence he was motivated by any undue consideration for the alleged Communist conspirators.

Possibly the law is at fault. Under the Smith Act which led to the prosecution of the original 11 top Communists and has now brought the arrest of many others, the Communist Party as a whole cannot be condemned as a conspirator. Each individual's scheming must be established separately.

Thus, until otherwise proved, a Communist is in the eyes of U. S. law merely a member of a legitimate political party. As such he is entitled to all rights and privileges protecting every U. S. citizen in the expression of his political views.

Yet the trial of the original 11 Reds, plus a voluminous historical record of communism, makes it clear that Communist Party members are by the fact of their membership agents of a foreign government, namely, the Soviet Union.

They have no legitimate political purpose. Their only aim is the goal dictated by Moscow: overthrow of democratic government everywhere. Iron party discipline sooner or later rules out the soft-heads captivated by the Kremlin's "socialist objectives."

If Communist Party members are actually Russian agents in some degree or other, why shouldn't American law recognize it? Why shouldn't they be denied the privileges of citizenship which they would outlaw the moment they gained power?

Then judges like Metzger wouldn't have any great trouble deciding between the law as they understand it and the Communist menace as it is.

A statute labeling all party members automatically as Russians agents would have its drawbacks. The Reds would go to extremes to conceal membership. In the effort to ferret them out, many innocents could be hurt. But that would call for no better safeguard of our civil liberties than we need right now.

LUXURY LIMOUSINE

A list of the furnishings of a limousine being prepared for delivery to Juan Peron, dictator of Argentina, may cause many people to envy the great of the world for the luxury in which they can live. The automobile will cost $11,000 and will be equipped with refrigeration, air-conditioning, folding tables, telephones a fully equipped bar and, for the persons in the back seat, a television set. Surely such conveniences are enough to cause envy.

But another item listed as special for the elaborate automobile is one which most people are glad they can do without. It is bullet-proof glass. Those who ride behind shields from bullets know a sort of uneasiness which must dim a little of the luster of their luxury.

TEMPER CONTROL

The easiest thing in the world for some people to lose is their temper. It can prove to be an expensive loss. It can cost friends, social approval and, when an individual loses his temper on matters of business, a great deal of money.

The Chinese have a custom which they observe in arguments. They are entitled to argue with logic and with persuasiveness on almost any subject. But the first person to lose his temper is judged loser of the debate since they believe that his flare-up indicates that he no longer has any rational arguments to support his point of view. This is very rational reasoning.

'These Days'

By GEORGE E. SOKOLSKY

BRITISH FAILURES

British policy has always been based on keeping Europe sufficiently weak so that England would never be dominated. It has been a policy of shifting alliances so that no one European power would ever become so strong that it could dominate the entire continent.

In Asia, Great Britain in 1902 signed the Anglo-Japanese alliance which gave Japan almost four decades of greatness. But by 1922, Japan was already too big for Great Britain and the alliance was broken off on the pretext that the United States objected to it.

Winston Churchill once described this policy with unadulterated cynicism:

"For four hundred years the foreign policy of England has been to oppose the strongest, most aggressive, most dominating power on the continent, and particularly to prevent the low countries falling into the hands of such a power. . . . Therefore, we should not be afraid of being accused of being pro-French or anti-German. If the circumstances were reversed, we could equally be pro-German and anti-French. It is a law of public policy which we are following, and not a mere expedient dictated by accidental circumstances, or likes and dislikes, or any other sentiment. . . ."

As matters now stand, a dominant power does exist in Europe, Soviet Russia, and the British can do nothing about it. Having in two wars made the historic error of eliminating Germany and weakening France, Great Britain has left Europe open to Russian conquest. Similarly in Asia, the elimination of Japan from the ranks of the first-rate powers opened the way for Russia and a Russian-controlled China to dominate that continent.

From the strictly British standpoint, World War I and World War II were fatal historic errors. Both destroyed the balances of power and led to the Slavic-Mongolian overlordship.

Such countries as India and Iran and the Arab states have to view the fall of British power objectively and with due consideration for their own interests. For Iran, association with Great Britain, particularly since 1907 (Anglo-Russian entente), used to mean protection against Russian imperialism. The absorption of the Khanates of Khiva and Bukhara into the Czarist realm in 1873 brought Persia (now called Iran) closer to the Russian boundary.

However, today Great Britain is unable to protect any part of Iran from Russian imperialism. Such a task would fall upon the United States by means of a United Nations resolution. The relations between the United States and Iran, since 1945, have been disappointing to Iran, which expected more than the State Department was willing to do. Furthermore, Iran desired that relationships between Iran and the United States should be direct and not be, in any manner, associated with British policy or British interests.

The situation which has currently developed in Iran is only on the surface related to oil. More profoundly, it is a product of a popular antagonism of Great Britain. Of course, Soviet Russia has cultivated the opposition, utilizing the underground Tudeh Party for this purpose—but the antagonism had to be there to be cultivated.

The Indian situation is more complex and is aggravated by the socialism of Nehru, as well as by his mercantile nature. Nehru has had relations with communism at least since 1929, but apart from that he fears the absorption of India either by Soviet Russia or Soviet China.

India cannot defend herself, nor can Great Britain defend India. Should such defense be necessary, it would again fall to the United States to do it in response to a United Nations resolution.

Such countries as Iran and India do not believe that American public opinion will tolerate the use of American troops all over the world. They fear that should it come to a showdown, they will be left holding the bag. In the good-old imperialistic days, they knew exactly what Imperial Britain would do under certain circumstances. In the present "one world" era, led by the United States, they do not know what can be done or will be done by anyone except Soviet Russia.

British leadership had value because it was always based on practical considerations. It was knowledgeable that if a price were paid, the British would respond. With Great Britain no longer an empire and unable to defend even its own islands, much less its outposts, the future of countries on the Russian periphery is perilous. It would require keen statesmanship, with promises scrupulously kept, to restore them to our side.

SCHOOL HEARING TESTS SHOULD BE MADE

It is encouraging to see how much our school boards, school trustees, directors of education and voluntary organizations are doing towards having eyes of children examined so that deficiencies of sight can be corrected as early as possible. A child who cannot see the blackboard is handicapped in his school work. But it is hard to understand why the same thought and care is not given to the hearing of children. A child who cannot hear the teacher is losing even more than one who cannot see the blackboard.

In Hearing Foundation we read of the tremendous cost to the community of not having regular hearing tests in our schools. A youngster who cannot hear distinctly is bound to get behind in his classwork. Studies made in a city of a population of 500,000 revealed that children with hearing trouble were repeating their grades, at a per capita cost of $117, four times as often as normal hearing children. Also, hearing loss can cause speech and voice defects. Speech is an imitation of what is heard. When the hearing loss is in the high frequencies, the consonants are not heard and after awhile omitted in speech. This produces a slurring effect.

If hearing tests are not made in the schools teachers, and also parents, can watch for tell-tale signs of hearing loss in children: inattentiveness (not immediately obeying orders or following instructions); leaning forward or sideways trying to hear; speech and voice peculiarities; excessive fatigue (from tenseness of body and mind as they try to hear) and school difficulties.

Much help can be given to partially deaf children by means of modern hearing aids; these aids are as far ahead of the old-time hearing horns as the modern washing machine is ahead of the old-time washtub. In the past ten years maintenance of hearing aids has been reduced to 1 cent an hour, their power increased from 100 to 1,000 times; their size reduced to 1/5 of previous size.

Properly fitted hearing aids help the hard of hearing to become a part of the community life.

DREW PEARSON ON The WASHINGTON MERRY-GO-ROUND

(Ed. Note—While Drew Pearson is on a brief vacation, the Washington Merry-Go-Round is being written by several distinguished guest columnists. Today's being by Guy George Gabrielson, chairman of the Republican National Committee. William Boyle, Jr., chairman of the Democratic National Committee, was also invited to do a guest column.)

Washington—A number of letters to the Republican National Committee have commented on a magazine editorial entitled, "Here Is a Voter Who Wonders if the GOP Really Wants Him." The editorial was written by Dr. Glen G. Eye of the University of Wisconsin. He said he wanted to be a Republican, but "nothing happened" when he approached known party leaders with an offer to ring doorbells and make a five-dollar contribution.

Dr. Eye said this caused him to wonder whether our party is interested only in large contributors. He added that Republicans might win a general election "by accepting a few million of us one-to-five-dollar prospects," but warned that the rising cost of living under Democrat administrations would soon make it difficult for him to contribute even one dollar.

Some of the letters on this editorial reported experiences similar to Dr. Eye's. Others thought the editorial was an unwarranted reflection upon tens of thousands of diligent, industrious Republican workers throughout the country, and suggested that if Dr. Eye really wanted to be a Republican, he could easily have found a way. The magazine declined to publish an editorial prepared to correct some of Dr. Eye's impressions.

Well, Dr. Eye has been asked to go to work. His neighbor, Edwin O. Bosten, is the new Dane county (Wis.) Republican chairman. He has invited Dr. Eye to take charge of their precinct, and reminded him in an open letter that "our Dane county Republican organization is financed principally by the $1 contributions of a steadily mounting number of your fellow citizens — men and women in all walks of life who share your conviction that our nation must return to sound moral, economic and political principles if our country and our American way of life is to survive."

I hope and anticipate that as a new Republican worker, Dr. Eye will be effective. We need and welcome all the Eyes—Mr. Mrs. or Miss—that we can enroll in the coming campaign. It does not make any difference whether they have been inactive Republicans, Democrats or independents. We need their services and we need their contributions — from one dollar to the $5,000 permitted by the Hatch Act.

Our records show that last year, 75 per cent of the contributions to the national committee ranged from $1 to $99. In Massachusetts, for example, the Republican party raised $525,000 from 35,505 contributors, or an average of $14.80 per contributor. The Democrats, in contrast, raised $572,000 from 1,395 contributors, or an average of $410 per contributor. That indicates pretty well which party gets the large contributions despite the falsehoods persistently circulated by the Trumancrats.

But even more urgently than contributions, large and small, we need doorbell ringers. Elections are never won by strategists in ivory towers, but by the pavement-pounding efforts of volunteer workers. A survey when I became chairman two years ago showed that 37,000 of our precincts, or 20 per cent of the total, were unmanned by Republican workers. Through our schools of politics and field activities, we have had some success in correcting that situation. We hope to put into the next campaign the hardest-hitting Republican organization of all time. To do it, we need the help of everyone who believes the time is past due to have an honest, efficient and competent national administration.

In New England, for example, one state Republican organization has a goal of 50,000 workers to call on 10 families each. In the Middle West, a state Republican chairman has been instilling new blood into his organization, and of 43 new county chairmen, 35 are under 40 years of age. The results were apparent last fall when 22 of these counties turned out heavier Republican votes than in the 1948 presidential election.

In criss-crossing the country many times, I have found that the vast majority of Republican officers at all levels—local, state and national—are sincere, conscientious and hard-working. Of course there are exceptions, and Dr. Eye may have encountered some. Any party organization which met five successive defeats in national elections is bound to have some rust on the machinery which needs chipping off.

That is our purpose and our determination. This is the year we are building the Republican party, as one of inclusion rather than exclusion, as one which welcomes recruits whatever their previous political allegiance. The times are too critical, and the stakes too great in 1952, to permit any other course.

His First Job

Gen. John J. Pershing's first assignment after his graduation from West Point was to be military instructor at the University of Nebraska.

Twenty and Ten Years Ago

Sept. 6, 1931—Two new varieties of pheasants were released in the county.

Claude W. Avery completed 30 years of service as steward of the Kingston Club.

John Corcoran, Jr., of Hunter street, rescued a girl from drowning at Rosendale.

Willis D. Kelsey, of Clinton avenue, and Miss Esther H. Zehnich, of North Front street, were married.

Miss Ruth E. Dressel, of St. James street, and Harold Peck, of Lucas avenue, were married at Poughkeepsie.

Sept. 6, 1941—Chales Turner, of New Paltz, was elected president of the Ulster County Volunteer Firemen's Association at its Woodstock convention.

Dr. L. E. Sanford, local health officer, reported schools opened in the city with no serious threats of communicable diseases.

John H. McManus, of Johnston avenue, former chief of New York city's Board of Water Supply, Bureau of Claims, died at the Orthmann Sanitarium.

The Freeman thermometer recorded a high noon temperature of 82 and an overnight low of 65 degrees.

A barn, chicken house and other buildings on the DeForest Bishop farm near Stone Ridge were levelled by fire.

New Texas Cave

Amarillo, Tex. (AP)—Palo Duro state park has a new cave—largest yet found in thet park. It was discovered recently by accident. The entrance apparently had not been uncovered long. Probably rains washed away enough earth to reveal the opening. The entrance is 10 feet high and eight feet wide. Just inside the entrance is a room estimated to be 50 feet high and 50 feet wide. A portion of the back wall was seen about about 20 feet from the entrance. Probability of finding rattlesnakes kept the discovery party from further immediate exploration.

Good Old Days

When Andrew Jackson was president more than 120 years ago, there was no government debt and federal taxes were few and far between. During this period, beefsteak sold for as low as 4 cents at Delmonico's in New York.

The World's Greatest Buffalo Hunter, Sam Purshell

Sam Purshell had been ordered by the Dominion government of Canada to kill the 3000 bison kept at the park. Pushell had shot about 18,000 buffalo in the 15 years he has been employed to kill off surplus animals in Wainright and other parks.

Teapot Dome Scandal Proof That Unpartisan Prosecution Appreciated by Voters

By DAVID LAWRENCE

Washington, Sept. 6 — "Two wrongs don't make a right" is an old and accepted bit of ethics, and yet some of the leaders of the Democratic party are rejecting it nowadays as they try to substitute another idea. It is that to do wrong is defensible, politically at least, if the other party at some time or other has committed the same wrong.

Thus the recent outcry of the country against scandals in the Truman administration in the matter of wrong influence in getting RFC loans or in connection with defense contracts is greeted with the argument that the Republican administration in the '20's had a Teapot Dome scandal in which cabinet members were involved.

There is one important difference, however, in the attitude of President Truman, Democrat, today and that of President Coolidge, Republican, in 1923. When the Congress began uncovering some facts concerning the oil scandals, Mr. Coolidge didn't make a private inquiry and clear anybody or anything. He felt that to do so would be looked upon by the country as an ex-parte or one-sided proceeding. So he bypassed his own attorney general, even though that official was none other than Harlan F. Stone, later to become Chief Justice of the United States. Mr. Coolidge announced that he would appoint the two ablest lawyers he could get to investigate and prosecute the scandals. He selected former Senator Atlee Pomerene of Ohio, Democrat, and Owen J. Roberts, Republican, who later became an associate justice of the Supreme Court.

This bipartisan team of special assistants to the attorney general was given full authority, and did the prosecuting. They put a Republican member of the cabinet in jail and relentlessly prosecuted others involved in the scandals.

What was the effect politically?

Well, Mr. Coolidge was elected President of the United States in 1924 notwithstanding the scandal in his predecessor's regime and the worst blemish on Republican party rule that the country had seen in many a decade. The Teapot Dome scandals were not an important campaign issue in 1924 because a Republican President had dealt with the wrongdoing in a vigorous and unpartisan way.

The scandals of the Truman administration need not become a campaign issue, either. But to date the Democratic administration has seemed to be covering up the wrongdoers and, as long as that continues, it will be the Republican who will benefit on the stump. It will do no good for the Democrats to argue that the Republicans were bad, too—for the Republicans can point proudly to a Republican president who cleaned his own house.

Thme tendency to offer as an excuse that the other fellow does wrong, too, is rather widespread today both inside and outside the government. For instance, when the cheating was exposed at West Point, many persons in public life immediately said the cadets shouldn't have been dismissed, for, after all, cheating in exams was done by lots of other student in lots of other colleges.

Wrongdoing of various kinds in government happens under all administrations. The degree of misconduct varies. Under the Democratic administration, there have been prosecutions of government employees who have embezzled funds. Representative May, Democrat, chairman of the House Military Affairs Committee, and Representative Parnell Thomas, Republican, chairman of the House Un-American Activities Committee, have been indicted and convicted, the former for frauds in connection with war contracts and the latter for compelling an employee to rebate a portion of the salary for office work. These are commendable parts of the record of prosecution but, somehow or other, when the breath of scandal touches high personages in the Democratic party, there hasn't been the same relentless attitude — in fact, the charges have been brushed off as just the "Red Herring" of political combat.

There's an old slogan in American politics. It transcends in its effectiveness "peace and prosperity" and all the other achievements of any administration. It is brief and to the point. It wins elections in federal, state and city campaigns. It is: "turn the rascals out."

Unless the Truman administration convicts or absolutely clears, through impartial inquiry, those who have been charged with wrongdoing, that slogan will be heard often in the 1952 campaign.

AS PEGLER SEES IT

By WESTBROOK PEGLER

New York, Sept. 5—In addition to 13 references to Margaret Bourke-White in the earlier records of the House Committee on Un-American Activities, numerous other contacts of the same kind have been noted since 1944 when the historic volume, Index IX, went to press. Those 13 citations in the official report of the committee quoted from documents put out by some of the most flagrant Communist fronts in the country. Therein Miss Bourke-White and her former husband, Erskine Caldwell, a writer of pessimistic books about the American scene, were listed as "sponsors" or otherwise mentioned as sympathizers.

This woman is a photographer who has persistently emphasized some of the worst sore spots of our country. She enjoyed the courteous favor of the Soviet dictators on a sojourn in Russia during the war and she herself is authority for the statement that she has been a photographer for Life Magazine since 1936.

In this capacity she was allowed to make a flight in the most secret and most formidable American bomber, the B-47, which may be the best weapon in the arsenal of occidental civilization in the showdown with the Russian and Asiatic terror.

Is this woman the only photographer who could be found to do this job for China-Boy Henry Luce, the Fui-pi-yu of the Park avenue political cult which finds such easy access to his magazines, Time, Life and Fortune? Is Margaret Bourke-White even the best photographer who could have been found for the assignment? And would it not have been possible to find another to do the job as well who was innocent of any association like those which abound in this woman's political record?

China-Boy's vagaries are never explained, although speculation is always more or less rife. Notwithstanding the pictorial policy of Life, which inspired an editorial writer of the Chicago Tribune to call it the Peeping Tom of American journalism, Fui-pi-yu never hesitates to lecture his public on decency.

And, among those who have fought the Communist treason at considerable risk and pain for years, including the years since 1936 when Miss Bourke-White joined the staff of his Peeping Tom paper, Fui-pi-yu is known as the most prominent and most influential anti-anti.

In this respect he might be said to run a dead heat with Harold Ross, the editor of the New Yorker, except that the New Yorker is no longer influential. Its deceitful praises of Frank Sinatra, Alger Hiss and the team of Draper-and-Adler presently were discredited by the conduct of these editorial proteges of the New Yorker, and a strange dreariness set in, as endless "profiles" of dull, meaningless people droned on.

An anti-anti is one who never or seldom fights the Communist traitors but overlooks few occasions and even manufactures pretexts to belittle the patriotic results achieved by those who do fight them.

It would not be good journalism to deny that Luce nevertheless exerts an important degree of influence especially in the country at large. His papers are accepted without appropriate suspicion by intelligent citizens in the most thoroughly American regions of the country. Some of them, even now, may find it hard to believe that Life would send "on a practise mission to a secret advanced air base" a woman who was listed in documents obtained by the House committee in connection with many notorious fronts.

Miss Bourke-White and a reporter for China-Boy's magazine "were the only civilians ever to do so," said one of his ads for this brazen exploit. "They were in places so closely guarded their passes were constantly being checked by armed guards. This kind of thoroughness, this actual immersion in the subject, explains why Life's word-and-picture report will give its millions of readers an understanding of the strategic air command that they could get in no other way."

That probably is true. But it is true also that nothing in Time, Life or Fortune will inform the readers of the background of Margaret Bourke-White or tip them to the mysterious reason why Time has repeatedly extolled Drew Pearson as a great journal-

REDS TAKE ADVANTAGE OF LAWS

When the federal government seized seven reported Communists in Hawaii on charges of conspiring to teach violent overthrow of the U. S. government, bail of $75,000 each was demanded for them.

But Federal Judge Delbert Metzger cut the figure to $5,000, adding the comment that "bail was never intended as a punishment before trial."

The request for high bail evidently was dictated by the fact that several top Communist leaders, including four already convicted of conspiring to advocate overthrow of the government, have recently jumped bail and gone into hiding. Federal officials hoped either to keep these new suspects in jail pending trial, or to make the forfeit of bail tremendously expensive.

Senator O'Mahoney of Wyoming assailed Metzger for his action, and predicted he would get scant consideration for re-appointment when his term expires September 28. (Territorial judges, unlike those on the mainland, do not get lifetime appointments.)

But it is clear that Metzger acted in accord with the law as he saw it. There is no evidence he was motivated by any undue consideration for the alleged Communist conspirators.

Possibly the law is at fault. Under the Smith Act which led to the prosecution of the original 11 top Communists and has now brought the arrest of many others, the Communist Party as a whole cannot be condemned as a conspirator. Each individual's scheming must be established separately.

Thus, until otherwise proved, a Communist is in the eyes of U. S. law merely a member of a legitimate political party. As such he is entitled to all rights and privileges protecting every U. S. citizen in the expression of his political views.

Yet the trial of the original 11 Reds, plus a voluminous historical record of communism, makes it clear that Communist Party members are by the fact of their membership agents of a foreign government, namely, the Soviet Union.

They have no legitimate political purpose. Their only aim is the goal dictated by Moscow: overthrow of democratic government everywhere. Iron party discipline sooner or later rules out the soft-heads captivated by the Kremlin's "socialist objectives."

If Communist Party members are actually Russian agents in some degree or other, why shouldn't American law recognize it? Why shouldn't they be denied the privileges of citizenship which they would outlaw the moment they gained power?

Then judges like Metzger wouldn't have any great trouble deciding between the law as they understand it and the Communist menace as it is.

A statute labeling all party members automatically as Russians agents would have its drawbacks. The Reds would go to extremes to conceal membership. In the effort to ferret them out, many innocents could be hurt. But that would call for no better safeguard of our civil liberties than we need right now.

LUXURY LIMOUSINE

A list of the furnishings of a limousine being prepared for delivery to Juan Peron, dictator of Argentina, may cause many people to envy the great of the world for the luxury in which they can live. The automobile will cost $11,000 and will be equipped with refrigeration, air-conditioning, folding tables, telephones a fully equipped bar and, for the persons in the back seat, a television set. Surely such conveniences are enough to cause envy.

But another item listed as special for the elaborate automobile is one which most people are glad they can do without. It is bullet-proof glass. Those who ride behind shields from bullets know a sort of uneasiness which must dim a little of the luster of their luxury.

TEMPER CONTROL

The easiest thing in the world for some people to lose is their temper. It can prove to be an expensive loss. It can cost friends, social approval and, when an individual loses his temper on matters of business, a great deal of money.

The Chinese have a custom which they observe in arguments. They are entitled to argue with logic and with persuasiveness on almost any subject. But the first person to lose his temper is judged loser of the debate since they believe that his flare-up indicates that he no longer has any rational arguments to support his point of view. This is very rational reasoning.

'These Days'

By GEORGE E. SOKOLSKY

BRITISH FAILURES

British policy has always been based on keeping Europe sufficiently weak so that England would never be dominated. It has been a policy of shifting alliances so that no one European power would ever become so strong that it could dominate the entire continent.

In Asia, Great Britain in 1902 signed the Anglo-Japanese alliance which gave Japan almost four decades of greatness. But by 1922, Japan was already too big for Great Britain and the alliance was broken off on the pretext that the United States objected to it.

Winston Churchill once described this policy with unadulterated cynicism:

"For four hundred years the foreign policy of England has been to oppose the strongest, most aggressive, most dominating power on the continent, and particularly to prevent the low countries falling into the hands of such a power. . . . Therefore, we should not be afraid of being accused of being pro-French or anti-German. If the circumstances were reversed, we could equally be pro-German and anti-French. It is a law of public policy which we are following, and not a mere expedient dictated by accidental circumstances, or likes and dislikes, or any other sentiment. . . ."

As matters now stand, a dominant power does exist in Europe, Soviet Russia, and the British can do nothing about it. Having in two wars made the historic error of eliminating Germany and weakening France, Great Britain has left Europe open to Russian conquest. Similarly in Asia, the elimination of Japan from the ranks of the first-rate powers opened the way for Russia and a Russian-controlled China to dominate that continent.

From the strictly British standpoint, World War I and World War II were fatal historic errors. Both destroyed the balances of power and led to the Slavic-Mongolian overlordship.

Such countries as India and Iran and the Arab states have to view the fall of British power objectively and with due consideration for their own interests. For Iran, association with Great Britain, particularly since 1907 (Anglo-Russian entente), used to mean protection against Russian imperialism. The absorption of the Khanates of Khiva and Bukhara into the Czarist realm in 1873 brought Persia (now called Iran) closer to the Russian boundary.

However, today Great Britain is unable to protect any part of Iran from Russian imperialism. Such a task would fall upon the United States by means of a United Nations resolution. The relations between the United States and Iran, since 1945, have been disappointing to Iran, which expected more than the State Department was willing to do. Furthermore, Iran desired that relationships between Iran and the United States should be direct and not be, in any manner, associated with British policy or British interests.

The situation which has currently developed in Iran is only on the surface related to oil. More profoundly, it is a product of a popular antagonism of Great Britain. Of course, Soviet Russia has cultivated the opposition, utilizing the underground Tudeh Party for this purpose—but the antagonism had to be there to be cultivated.

The Indian situation is more complex and is aggravated by the socialism of Nehru, as well as by his mercantile nature. Nehru has had relations with communism at least since 1929, but apart from that he fears the absorption of India either by Soviet Russia or Soviet China.

India cannot defend herself, nor can Great Britain defend India. Should such defense be necessary, it would again fall to the United States to do it in response to a United Nations resolution.

Such countries as Iran and India do not believe that American public opinion will tolerate the use of American troops all over the world. They fear that should it come to a showdown, they will be left holding the bag. In the good-old imperialistic days, they knew exactly what Imperial Britain would do under certain circumstances. In the present "one world" era, led by the United States, they do not know what can be done or will be done by anyone except Soviet Russia.

British leadership had value because it was always based on practical considerations. It was knowledgeable that if a price were paid, the British would respond. With Great Britain no longer an empire and unable to defend even its own islands, much less its outposts, the future of countries on the Russian periphery is perilous. It would require keen statesmanship, with promises scrupulously kept, to restore them to our side.

SCHOOL HEARING TESTS SHOULD BE MADE

It is encouraging to see how much our school boards, school trustees, directors of education and voluntary organizations are doing towards having eyes of children examined so that deficiencies of sight can be corrected as early as possible. A child who cannot see the blackboard is handicapped in his school work. But it is hard to understand why the same thought and care is not given to the hearing of children. A child who cannot hear the teacher is losing even more than one who cannot see the blackboard.

In Hearing Foundation we read of the tremendous cost to the community of not having regular hearing tests in our schools. A youngster who cannot hear distinctly is bound to get behind in his classwork. Studies made in a city of a population of 500,000 revealed that children with hearing trouble were repeating their grades, at a per capita cost of $117, four times as often as normal hearing children. Also, hearing loss can cause speech and voice defects. Speech is an imitation of what is heard. When the hearing loss is in the high frequencies, the consonants are not heard and after awhile omitted in speech. This produces a slurring effect.

If hearing tests are not made in the schools teachers, and also parents, can watch for tell-tale signs of hearing loss in children: inattentiveness (not immediately obeying orders or following instructions); leaning forward or sideways trying to hear; speech and voice peculiarities; excessive fatigue (from tenseness of body and mind as they try to hear) and school difficulties.

Much help can be given to partially deaf children by means of modern hearing aids; these aids are as far ahead of the old-time hearing horns as the modern washing machine is ahead of the old-time washtub. In the past ten years maintenance of hearing aids has been reduced to 1 cent an hour, their power increased from 100 to 1,000 times; their size reduced to 1/5 of previous size.

Properly fitted hearing aids help the hard of hearing to become a part of the community life.

In criss-crossing the country many times, I have found that the vast majority of Republican officers at all levels—local, state and national—are sincere, conscientious and hard-working. Of course there are exceptions, and Dr. Eye may have encountered some. Any party organization which met five successive defeats in national elections is bound to have some rust on the machinery which needs chipping off.

That is our purpose and our determination. This is the year we are building the Republican party, as one of inclusion rather than exclusion, as one which welcomes recruits whatever their previous political allegiance. The times are too critical, and the stakes too great in 1952, to permit any other course.

His First Job

Gen. John J. Pershing's first assignment after his graduation from West Point was to be military instructor at the University of Nebraska.

Twenty and Ten Years Ago

Sept. 6, 1931—Two new varieties of pheasants were released in the county.

Claude W. Avery completed 30 years of service as steward of the Kingston Club.

John Corcoran, Jr., of Hunter street, rescued a girl from drowning at Rosendale.

Willis D. Kelsey, of Clinton avenue, and Miss Esther H. Zehnich, of North Front street, were married.

Miss Ruth E. Dressel, of St. James street, and Harold Peck, of Lucas avenue, were married at Poughkeepsie.

Sept. 6, 1941—Chales Turner, of New Paltz, was elected president of the Ulster County Volunteer Firemen's Association at its Woodstock convention.

Dr. L. E. Sanford, local health officer, reported schools opened in the city with no serious threats of communicable diseases.

John H. McManus, of Johnston avenue, former chief of New York city's Board of Water Supply, Bureau of Claims, died at the Orthmann Sanitarium.

The Freeman thermometer recorded a high noon temperature of 82 and an overnight low of 65 degrees.

A barn, chicken house and other buildings on the DeForest Bishop farm near Stone Ridge were levelled by fire.

New Texas Cave

Amarillo, Tex. (AP)—Palo Duro state park has a new cave—largest yet found in thet park. It was discovered recently by accident. The entrance apparently had not been uncovered long. Probably rains washed away enough earth to reveal the opening. The entrance is 10 feet high and eight feet wide. Just inside the entrance is a room estimated to be 50 feet high and 50 feet wide. A portion of the back wall was seen about about 20 feet from the entrance. Probability of finding rattlesnakes kept the discovery party from further immediate exploration.

Good Old Days

When Andrew Jackson was president more than 120 years ago, there was no government debt and federal taxes were few and far between. During this period, beefsteak sold for as low as 4 cents at Delmonico's in New York.

The World's Greatest Buffalo Hunter, Sam Purshell

Sam Purshell had been ordered by the Dominion government of Canada to kill the 3000 bison kept at the park. Pushell had shot about 18,000 buffalo in the 15 years he has been employed to kill off surplus animals in Wainright and other parks.

Teapot Dome Scandal Proof That Unpartisan Prosecution Appreciated by Voters

By DAVID LAWRENCE

Washington, Sept. 6 — "Two wrongs don't make a right" is an old and accepted bit of ethics, and yet some of the leaders of the Democratic party are rejecting it nowadays as they try to substitute another idea. It is that to do wrong is defensible, politically at least, if the other party at some time or other has committed the same wrong.

Thus the recent outcry of the country against scandals in the Truman administration in the matter of wrong influence in getting RFC loans or in connection with defense contracts is greeted with the argument that the Republican administration in the '20's had a Teapot Dome scandal in which cabinet members were involved.

There is one important difference, however, in the attitude of President Truman, Democrat, today and that of President Coolidge, Republican, in 1923. When the Congress began uncovering some facts concerning the oil scandals, Mr. Coolidge didn't make a private inquiry and clear anybody or anything. He felt that to do so would be looked upon by the country as an ex-parte or one-sided proceeding. So he bypassed his own attorney general, even though that official was none other than Harlan F. Stone, later to become Chief Justice of the United States. Mr. Coolidge announced that he would appoint the two ablest lawyers he could get to investigate and prosecute the scandals. He selected former Senator Atlee Pomerene of Ohio, Democrat, and Owen J. Roberts, Republican, who later became an associate justice of the Supreme Court.

This bipartisan team of special assistants to the attorney general was given full authority, and did the prosecuting. They put a Republican member of the cabinet in jail and relentlessly prosecuted others involved in the scandals.

What was the effect politically?

Well, Mr. Coolidge was elected President of the United States in 1924 notwithstanding the scandal in his predecessor's regime and the worst blemish on Republican party rule that the country had seen in many a decade. The Teapot Dome scandals were not an important campaign issue in 1924 because a Republican President had dealt with the wrongdoing in a vigorous and unpartisan way.

The scandals of the Truman administration need not become a campaign issue, either. But to date the Democratic administration has seemed to be covering up the wrongdoers and, as long as that continues, it will be the Republican who will benefit on the stump. It will do no good for the Democrats to argue that the Republicans were bad, too—for the Republicans can point proudly to a Republican president who cleaned his own house.

Thme tendency to offer as an excuse that the other fellow does wrong, too, is rather widespread today both inside and outside the government. For instance, when the cheating was exposed at West Point, many persons in public life immediately said the cadets shouldn't have been dismissed, for, after all, cheating in exams was done by lots of other student in lots of other colleges.

Wrongdoing of various kinds in government happens under all administrations. The degree of misconduct varies. Under the Democratic administration, there have been prosecutions of government employees who have embezzled funds. Representative May, Democrat, chairman of the House Military Affairs Committee, and Representative Parnell Thomas, Republican, chairman of the House Un-American Activities Committee, have been indicted and convicted, the former for frauds in connection with war contracts and the latter for compelling an employee to rebate a portion of the salary for office work. These are commendable parts of the record of prosecution but, somehow or other, when the breath of scandal touches high personages in the Democratic party, there hasn't been the same relentless attitude — in fact, the charges have been brushed off as just the "Red Herring" of political combat.

There's an old slogan in American politics. It transcends in its effectiveness "peace and prosperity" and all the other achievements of any administration. It is brief and to the point. It wins elections in federal, state and city campaigns. It is: "turn the rascals out."

Unless the Truman administration convicts or absolutely clears, through impartial inquiry, those who have been charged with wrongdoing, that slogan will be heard often in the 1952 campaign.

AS PEGLER SEES IT

By WESTBROOK PEGLER

New York, Sept. 5—In addition to 13 references to Margaret Bourke-White in the earlier records of the House Committee on Un-American Activities, numerous other contacts of the same kind have been noted since 1944 when the historic volume, Index IX, went to press. Those 13 citations in the official report of the committee quoted from documents put out by some of the most flagrant Communist fronts in the country. Therein Miss Bourke-White and her former husband, Erskine Caldwell, a writer of pessimistic books about the American scene, were listed as "sponsors" or otherwise mentioned as sympathizers.

This woman is a photographer who has persistently emphasized some of the worst sore spots of our country. She enjoyed the courteous favor of the Soviet dictators on a sojourn in Russia during the war and she herself is authority for the statement that she has been a photographer for Life Magazine since 1936.

In this capacity she was allowed to make a flight in the most secret and most formidable American bomber, the B-47, which may be the best weapon in the arsenal of occidental civilization in the showdown with the Russian and Asiatic terror.

Is this woman the only photographer who could be found to do this job for China-Boy Henry Luce, the Fui-pi-yu of the Park avenue political cult which finds such easy access to his magazines, Time, Life and Fortune? Is Margaret Bourke-White even the best photographer who could have been found for the assignment? And would it not have been possible to find another to do the job as well who was innocent of any association like those which abound in this woman's political record?

China-Boy's vagaries are never explained, although speculation is always more or less rife. Notwithstanding the pictorial policy of Life, which inspired an editorial writer of the Chicago Tribune to call it the Peeping Tom of American journalism, Fui-pi-yu never hesitates to lecture his public on decency.

And, among those who have fought the Communist treason at considerable risk and pain for years, including the years since 1936 when Miss Bourke-White joined the staff of his Peeping Tom paper, Fui-pi-yu is known as the most prominent and most influential anti-anti.

In this respect he might be said to run a dead heat with Harold Ross, the editor of the New Yorker, except that the New Yorker is no longer influential. Its deceitful praises of Frank Sinatra, Alger Hiss and the team of Draper-and-Adler presently were discredited by the conduct of these editorial proteges of the New Yorker, and a strange dreariness set in, as endless "profiles" of dull, meaningless people droned on.

An anti-anti is one who never or seldom fights the Communist traitors but overlooks few occasions and even manufactures pretexts to belittle the patriotic results achieved by those who do fight them.

It would not be good journalism to deny that Luce nevertheless exerts an important degree of influence especially in the country at large. His papers are accepted without appropriate suspicion by intelligent citizens in the most thoroughly American regions of the country. Some of them, even now, may find it hard to believe that Life would send "on a practise mission to a secret advanced air base" a woman who was listed in documents obtained by the House committee in connection with many notorious fronts.

Miss Bourke-White and a reporter for China-Boy's magazine "were the only civilians ever to do so," said one of his ads for this brazen exploit. "They were in places so closely guarded their passes were constantly being checked by armed guards. This kind of thoroughness, this actual immersion in the subject, explains why Life's word-and-picture report will give its millions of readers an understanding of the strategic air command that they could get in no other way."

That probably is true. But it is true also that nothing in Time, Life or Fortune will inform the readers of the background of Margaret Bourke-White or tip them to the mysterious reason why Time has repeatedly extolled Drew Pearson as a great journal-

REDS TAKE ADVANTAGE OF LAWS

When the federal government seized seven reported Communists in Hawaii on charges of conspiring to teach violent overthrow of the U. S. government, bail of $75,000 each was demanded for them.

But Federal Judge Delbert Metzger cut the figure to $5,000, adding the comment that "bail was never intended as a punishment before trial."

The request for high bail evidently was dictated by the fact that several top Communist leaders, including four already convicted of conspiring to advocate overthrow of the government, have recently jumped bail and gone into hiding. Federal officials hoped either to keep these new suspects in jail pending trial, or to make the forfeit of bail tremendously expensive.

Senator O'Mahoney of Wyoming assailed Metzger for his action, and predicted he would get scant consideration for re-appointment when his term expires September 28. (Territorial judges, unlike those on the mainland, do not get lifetime appointments.)

But it is clear that Metzger acted in accord with the law as he saw it. There is no evidence he was motivated by any undue consideration for the alleged Communist conspirators.

Possibly the law is at fault. Under the Smith Act which led to the prosecution of the original 11 top Communists and has now brought the arrest of many others, the Communist Party as a whole cannot be condemned as a conspirator. Each individual's scheming must be established separately.

Thus, until otherwise proved, a Communist is in the eyes of U. S. law merely a member of a legitimate political party. As such he is entitled to all rights and privileges protecting every U. S. citizen in the expression of his political views.

Yet the trial of the original 11 Reds, plus a voluminous historical record of communism, makes it clear that Communist Party members are by the fact of their membership agents of a foreign government, namely, the Soviet Union.

They have no legitimate political purpose. Their only aim is the goal dictated by Moscow: overthrow of democratic government everywhere. Iron party discipline sooner or later rules out the soft-heads captivated by the Kremlin's "socialist objectives."

If Communist Party members are actually Russian agents in some degree or other, why shouldn't American law recognize it? Why shouldn't they be denied the privileges of citizenship which they would outlaw the moment they gained power?

Then judges like Metzger wouldn't have any great trouble deciding between the law as they understand it and the Communist menace as it is.

A statute labeling all party members automatically as Russians agents would have its drawbacks. The Reds would go to extremes to conceal membership. In the effort to ferret them out, many innocents could be hurt. But that would call for no better safeguard of our civil liberties than we need rig'it now.

LUXURY LIMOUSINE

A list of the furnishings of a limousine being prepared for delivery to Juan Peron, dictator of Argentina, may cause many people to envy the great of the world for the luxury in which they can live. The automobile will cost $11,000 and will be equipped with refrigeration, air-conditioning, folding tables, telephones a fully equipped bar and, for the persons in the back seat, a television set. Surely such conveniences are enough to cause envy.

But another item listed as special for the elaborate automobile is one which most people are glad they can do without. It is bullet-proof glass. Those who ride behind shields from bullets know a sort of uneasiness which must dim a little of the luster of their luxury.

TEMPER CONTROL

The easiest thing in the world for some people to lose is their temper. It can prove to be an expensive loss. It can cost friends, social approval and, when an individual loses his temper on matters of business, a great deal of money.

The Chinese have a custom which they observe in arguments. They are entitled to argue with logic and with persuasiveness on almost any subject. But the first person to lose his temper is judged loser of the debate since they believe that his flare-up indicates that he no longer has any rational arguments to support his point of view. This is very rational reasoning.

'These Days'

By GEORGE E. SOKOLSKY

BRITISH FAILURES

British policy has always been based on keeping Europe sufficiently weak so that England would never be dominated. It has been a policy of shifting alliances so that no one European power would ever become so strong that it could dominate the entire continent.

In Asia, Great Britain in 1902 signed the Anglo-Japanese alliance which gave Japan almost four decades of greatness. But by 1922, Japan was already too big for Great Britain and the alliance was broken off on the pretext that the United States objected to it.

Winston Churchill once described this policy with unadulterated cynicism:

"For four hundred years the foreign policy of England has been to oppose the strongest, most aggressive, most dominating power on the continent, and particularly to prevent the low countries falling into the hands of such a power. . . . Therefore, we should not be afraid of being accused of being pro-French or anti-German. If the circumstances were reversed, we could equally be pro-German and anti-French. It is a law of public policy which we are following, and not a mere expedient dictated by accidental circumstances, or likes and dislikes, or any other sentiment. . . ."

As matters now stand, a dominant power does exist in Europe, Soviet Russia, and the British can do nothing about it. Having in two wars made the historic error of eliminating Germany and weakening France, Great Britain has left Europe open to Russian conquest. Similarly in Asia, the elimination of Japan from the ranks of the first-rate powers opened the way for Russia and a Russian-controlled China to dominate that continent.

From the strictly British standpoint, World War I and World War II were fatal historic errors. Both destroyed the balances of power and led to the Slavic-Mongolian overlordship.

Such countries as India and Iran and the Arab states have to view the fall of British power objectively and with due consideration for their own interests. For Iran, association with Great Britain, particularly since 1907 (Anglo-Russian entente), used to mean protection against Russian imperialism. The absorption of the Khanates of Khiva and Bukhara into the Czarist realm in 1873 brought Persia (now called Iran) closer to the Russian boundary.

However, today Great Britain is unable to protect any part of Iran from Russian imperialism. Such a task would fall upon the United States by means of a United Nations resolution. The relations between the United States and Iran, since 1945, have been disappointing to Iran, which expected more than the State Department was willing to do. Furthermore, Iran desired that relationships between Iran and the United States should be direct and not be, in any manner, associated with British policy or British interests.

The situation which has currently developed in Iran is only on the surface related to oil. More profoundly, it is a product of a popular antagonism of Great Britain. Of course, Soviet Russia has cultivated the opposition, utilizing the underground Tudeh Party for this purpose—but the antagonism had to be there to be cultivated.

The Indian situation is more complex and is aggravated by the socialism of Nehru, as well as by his mercantile nature. Nehru has had relations with communism at least since 1929, but apart from that he fears the absorption of India either by Soviet Russia or Soviet China.

India cannot defend herself, nor can Great Britain defend India. Should such defense be necessary, it would again fall to the United States to do it in response to a United Nations resolution.

Such countries as Iran and India do not believe that American public opinion will tolerate the use of American troops all over the world. They fear that should it come to a showdown, they will be left holding the bag. In the good-old imperialistic days, they knew exactly what Imperial Britain would do under certain circumstances. In the present "one world" era, led by the United States, they do not know what can be done or will be done by anyone except Soviet Russia.

British leadership had value because it was always based on practical considerations. It was knowledgeable that if a price were paid, the British would respond. With Great Britain no longer an empire and unable to defend even its own islands, much less its outposts, the future of countries on the Russian periphery is perilous. It would require keen statesmanship, with promises scrupulously kept, to restore them to our side.

SCHOOL HEARING TESTS SHOULD BE MADE

It is encouraging to see how much our school boards, school trustees, directors of education and voluntary organizations are doing towards having eyes of children examined so that deficiencies of sight can be corrected as early as possible. A child who cannot see the blackboard is handicapped in his school work. But it is hard to understand why the same thought and care is not given to the hearing of children. A child who cannot hear the teacher is losing even more than one who cannot see the blackboard.

In Hearing Foundation we read of the tremendous cost to the community of not having regular hearing tests in our schools. A youngster who cannot hear distinctly is bound to get behind in his classwork. Studies made in a city of a population of 500,000 revealed that children with hearing trouble were repeating their grades, at a per capita cost of $117, four times as often as normal hearing children. Also, hearing loss can cause speech and voice defects. Speech is an imitation of what is heard. When the hearing loss is in the high frequencies, the consonants are not heard and after awhile omitted in speech. This produces a slurring effect.

If hearing tests are not made in the schools teachers, and also parents, can watch for tell-tale signs of hearing loss in children: inattentiveness (not immediately obeying orders or following instructions); leaning forward or sideways trying to hear; speech and voice peculiarities; excessive fatigue (from tenseness of body and mind as they try to hear) and school difficulties.

Much help can be given to partially deaf children by means of modern hearing aids; these aids are as far ahead of the old-time hearing horns as the modern washing machine is ahead of the old-time washtub. In the past ten years maintenance of hearing aids has been reduced to 1 cent an hour, their power increased from 100 to 1,000 times; their size reduced to 1/5 of previous size.

Properly fitted hearing aids help the hard of hearing to become a part of the community life.

DREW PEARSON ON The WASHINGTON MERRY-GO-ROUND

(Ed. Note—While Drew Pearson is on a brief vacation, the Washington Merry-Go-Round is being written by several distinguished guest columnists. Today's being by Guy George Gabrielson, chairman of the Republican National Committee. William Boyle, Jr., chairman of the Democratic National Committee, was also invited to do a guest column.)

Washington—A number of letters to the Republican National Committee have commented on a magazine editorial entitled, "Here Is a Voter Who Wonders if the GOP Really Wants Him." The editorial was written by Dr. Glen G. Eye of the University of Wisconsin. He said he wanted to be a Republican, but "nothing happened" when he approached known party leaders with an offer to ring doorbells and make a five-dollar contribution.

Dr. Eye said this caused him to wonder whether our party is interested only in large contributors. He added that Republicans might win a general election "by accepting a few million of us one-to-five-dollar prospects," but warned that the rising cost of living under Democrat administrations would soon make it difficult for him to contribute even one dollar.

Some of the letters on this editorial reported experiences similar to Dr. Eye's. Others thought the editorial was an unwarranted reflection upon tens of thousands of diligent, industrious Republican workers throughout the country, and suggested that if Dr. Eye really wanted to be a Republican, he could easily have found a way. The magazine declined to publish an editorial prepared to correct some of Dr. Eye's impressions.

Well, Dr. Eye has been asked to go to work. His neighbor, Edwin O. Bosten, is the new Dane county (Wis.) Republican chairman. He has invited Dr. Eye to take charge of their precinct, and reminded him in an open letter that "our Dane county Republican organization is financed principally by the $1 contributions of a steadily mounting number of your fellow citizens — men and women in all walks of life who share your conviction that our nation must return to sound moral, economic and political principles if our country and our American way of life is to survive."

I hope and anticipate that as a new Republican worker, Dr. Eye will be effective. We need and welcome all the Eyes—Mr. Mrs. or Miss—that we can enroll in the coming campaign. It does not make any difference whether they have been inactive Republicans, Democrats or independents. We need their services and we need their contributions — from one dollar to the $5,000 permitted by the Hatch Act.

Our records show that last year, 75 per cent of the contributions to the national committee ranged from $1 to $99. In Massachusetts, for example, the Republican party raised $525,000 from 35,505 contributors, or an average of $14.80 per contributor. The Democrats, in contrast, raised $572,000 from 1,395 contributors, or an average of $410 per contributor. That indicates pretty well which party gets the large contributions despite the falsehoods persistently circulated by the Trumancrats.

But even more urgently than contributions, large and small, we need doorbell ringers. Elections are never won by strategists in ivory towers, but by the pavement-pounding efforts of volunteer workers. A survey when I became chairman two years ago showed that 37,000 of our precincts, or 20 per cent of the total, were unmanned by Republican workers. Through our schools of politics and field activities, we have had some success in correcting that situation. We hope to put into the next campaign the hardest-hitting Republican organization of all time. To do it, we need the help of everyone who believes the time is past due to have an honest, efficient and competent national administration.

In New England, for example, one state Republican organization has a goal of 50,000 workers to call on 10 families each. In the Middle West, a state Republican chairman has been instilling new blood into his organization, and of 43 new county chairmen, 35 are under 40 years of age. The results were apparent last fall when 22 of these counties turned out heavier Republican votes than in the 1948 presidential election.

In criss-crossing the country many times, I have found that the vast majority of Republican officers at all levels—local, state and national—are sincere, conscientious and hard-working. Of course there are exceptions, and Dr. Eye may have encountered some. Any party organization which met five successive defeats in national elections is bound to have some rust on the machinery which needs chipping off.

That is our purpose and our determination. This is the year we are building the Republican party, as one of inclusion rather than exclusion, as one which welcomes recruits whatever their previous political allegiance. The times are too critical, and the stakes too great in 1952, to permit any other course.

Wrongdoing of various kinds in government happens under all administrations. The degree of misconduct varies. Under the Democratic administration, there have been prosecutions of government employees who have embezzled funds. Representative May, Democrat, chairman of the House Military Affairs Committee, and Representative Parnell Thomas, Republican, chairman of the House Un-American Activities Committee, have been indicted and convicted, the former for frauds in connection with war contracts and the latter for compelling an employee to rebate a portion of the salary for office work. These are commendable parts of the record of prosecution but, somehow or other, when the breath of scandal touches high personages in the Democratic party, there hasn't been the same relentless attitude — in fact, the charges have been brushed off as just the "Red Herring" of political combat

There's an old slogan in American politics. It transcends in its effectiveness "peace and prosperity" and all the other achievements of any administration. It is brief and to the point. It wins elections in federal, state and city campaigns. It is: "turn the rascals out."

Unless the Truman administration convicts or absolutely clears, through impartial inquiry, those who have been charged with wrongdoing, that slogan will be heard often in the 1952 campaign.

AS PEGLER SEES IT

By WESTBROOK PEGLER

New York, Sept. 5—In addition to 13 references to Margaret Bourke-White in the earlier records of the House Committee on Un-American Activities, numerous other contacts of the same kind have been noted since 1944 when the historic volume, Index IX, went to press. Those 13 citations in the official report of the committee quoted from documents put out by some of the most flagrant Communist fronts in the country. Therein Miss Bourke-White and her former husband. Erskine Caldwell, a writer of pessimistic books about the American scene, were listed as "sponsors" or otherwise mentioned as sympathizers.

This woman is a photographer who has persistently emphasized some of the worst sore spots of our country. She enjoyed the courteous favor of the Soviet dictators on a sojourn in Russia during the war and she herself is authority for the statement that she has been a photographer for Life Magazine since 1936.

In this capacity she was allowed to make a flight in the most secret and most formidable American bomber, the B-47, which may be the best weapon in the arsenal of occidental civilization in the showdown with the Russian and Asiatic terror.

Is this woman the only photographer who could be found to do this job for China-Boy Henry Luce, the Fui-pi-yu of the Park avenue political cult which finds such easy access to his magazines, Time, Life and Fortune? Is Margaret Bourke-White even the best photographer who could have been found for the assignment? And would it not have been possible to find another to do the job as well who was innocent of any association like those which abound in this woman's political record?

China-Boy's vagaries are never explained, although speculation is always more or less rife. Notwithstanding the pictorial policy of Life, which inspired an editorial writer of the Chicago Tribune to call it the Peeping Tom of American journalism, Fui-pi-yu never hesitates to lecture his public on decency.

And, among those who have fought the Communist treason at considerable risk and pain for years, including the years since 1936 when Miss Bourke-White joined the staff of his Peeping Tom paper, Fui-pi-yu is known as the most prominent and most influential anti-anti.

In this respect he might be said to run a dead heat with Harold Ross, the editor of the New Yorker, except that the New Yorker is no longer influential. Its deceitful praises of Frank Sinatra, Alger Hiss and the team of Draper-and-Adler presently were discredited by the conduct of these editorial proteges of the New Yorker, and a strange dreariness set in, as endless "profiles" of dull, meaningless people droned on.

An anti-anti is one who never or seldom fights the Communist traitors but overlooks few occasions and even manufactures pretexts to belittle the patriotic results achieved by those who do fight them.

It would not be good journalism to deny that Luce nevertheless exerts an important degree of influence especially in the country at large. His papers are accepted without appropriate suspicion by intelligent citizens in the most thoroughly American regions of the country. Some of them, even now, may find it hard to believe that Life would send "on a practise mission to a secret advanced air base" a woman who was listed in documents obtained by the House committee in connection with many notorious fronts.

Miss Bourke-White and a reporter for China-Boy's magazine "were the only civilians ever to do so," said one of his ads for this brazen exploit. "They were in places so closely guarded their passes were constantly being checked by armed guards. This kind of thoroughness, this actual immersion in the subject, explains why Life's word-and-picture report will give its millions of readers an understanding of the strategic air command that they could get in no other way."

That probably is true. But it is true also that nothing in Time, Life or Fortune will inform the readers of the background of Margaret Bourke-White or tip them to the mysterious reason why Time has repeatedly extolled Drew Pearson as a great journal-

Hand Is Key to Proper Play

By OSWALD JACOBY
Written for NEA Service

In my last column I discussed the advisability of melding early from your hand if you need only 50 points when the opponents need 120 points for the initial meld. I don't recommend an early meld on every type of hand even in this favorable situation.

For example, suppose you hold:
Joker A Q-Q 10-10-10 7-7 6-5-2

You have just drawn, and you must decide whether or not to meld. Nobody could really kill you for melding the joker with a pair of tens, but this would not be your best course of action.

With three pairs you are in excellent shape to fight for the discard pile. Why weaken your chance against opponents who are fighting at a disadvantage? The best play, in my opinion, is to discard one of the tens.

This may persuade your right-hand opponent to throw a ten to you fairly soon. However, even if the trap play doesn't work, this discard leaves more room in your hand to accumulate other pairs. A third argument in its favor is that if the ten turns out to be a safe discard you may want to discard other tens in the hope that your side can win the pack before the opponents can do so.

The general principle is very simple. When you have as many as three pairs in your hand, and when you have no difficulty in making the count, you have a fine chance to win the discard pile. With such hands, play for the pack.

The reverse is true when you have only one set of matched cards in your hand. This gives you very little chance to win the pack. With such hands you must either play for a fast out or you must try to help your partner.

For example, you may hold four or five kings and some wild cards. That gives you a play for out, so you meld early and try to meld out as quickly as possible.

If you have nothing valuable at all, no pairs and not even any real concentration, such as four of a kind, you must play defensively. Your only hope is that your partner has a good hand, and you must watch his discards like a hawk so as to be ready to help him when the times comes.

Corporation Gets Court Injunction On Radar Device

Albuquerque, N. M., Sept. 6 (AP)—A radar corporation has asked for a court order to seize an airliner radar device from its inventor.

The inventor, who is missing, was described as "a temperamental scientist."

Yesterday U. S. District Judge Carl A. Hatch granted an injunction which forbids Donald K. Allison, the inventor, to disclose secrets of his device or dispose of the demonstrator model.

Allison says the device would prevent such airline crashes as that Aug. 24 of a United Airlines plane which killed 50 persons on a hillside outside Oakland, Calif.

The corporation president, Miss Aline H. Rhonie, 41, asked for the injunction, contending that her company—the Allison Radar Corporation—agreed last November to pay the inventor $33,750 after delivery of his model and specifications, plus a three per cent royalty on the sale of each unit.

The pretty brunette holds a commercial pilot's license and was a wartime ferry pilot.

Allison had told Miss Rhonie the device would enable a plane flying at 10,000 feet to see mountains 80 miles away, spot a thunderstorm up to 40 miles distant, or sight other aircraft in flight up to seven miles away.

Santiago, Chile is named for Saint James.

Michalek Is Cleared

Vermillion, S. D., Sept. 6 (AP)—Dr. Louis Michalek, bespectacled young medical researcher, today stood cleared of blame in the deaths of two "human guinea pigs" at the University of South Dakota. A coroner's jury reported yesterday, "we find there is no evidence of culpable or intentional negligence. Therefore we conclude that the deaths were not felonious." Dr. Michalek, 28, earlier admitted he had injected methadon by mistake during an experiment in which he meant to test demoral, another sedative, as a pain killer. Two laboratory employes, Jack Clifford and Mrs. Ardys Pearson, died 24 hours after receiving the injections.

GARDINER

Gardiner, Sept. 5 — Mr. and Mrs. Robert Stametedes and family of Long Island spent a few days of last week with Mr. Stametedes' brother-in-law and sister, Mr. and Mrs. George Majestic.

Mr. and Mrs. A. Stauffensger and Mrs. McCabe of Stamford, Conn., were Thursday guests of Mr. and Mrs. Ramon Crusellas.

Ransom Freer, Jr. and sons, Billy and Kenny spent Sunday in New York and attended the Brooklyn Dodger and New York Giant game at the Polo Grounds.

Mr. and Mrs. Thomas Murphy spent Sunday with relatives in Brookfield, Conn.

Mrs. Walter Gladding and her son-in-law and daughter, Mr. and Mrs. Alfred Pretroy of Richmond Hill, L. I., spent the week-end with Mrs. Gladding's brother, John Ostrander.

Mr. and Mrs. Lewis Jayne and grandson, Lewis Montanye and their guests, Mr. and Mrs. John Carroccio and daughter, Carol, were dinner guests of Mr. and Mrs. George Jayne of New Paltz last Thursday night.

Mr. and Mrs. Robert Richards and family of Washington, D. C., were the week-end guests of Mr. Richards' uncle, Harry Lunt.

Mr. and Mrs. Edwin Gurkin of Pittsburgh, Pa., were the week-end guests of Mrs. Gurkin's parents, Mr. and Mrs. Stephen Harlow.

Mr. and Mrs. James George and Eleanor Conklin are spending a three week vacation with their son-in-law and daughter, Major and Mrs. John Tallman of Huntsville, Ala.

The Rev. David C. Weidner of Kingston will be in charge of the preaching services at the Reformed Church during the three weeks absence of the pastor, the Rev. John Van Strien. Sunday school will be resumed at 10 a. m. on Sunday.

The summer festival on the Reformed Church lawn last Friday night was reported to be a success.

The Rev. and Mrs. John Van Strien and son, David, are enjoying a vacation at their cottage at Falmouth, Cape Cod.

The Gardiner Fire Department was called to the Dr. Ross home Sunday for a chimney blaze which was quickly extinguished.

The firemen's carnival scheduled Saturday night has been postponed to Friday, Sept. 7, on the grounds in front of the fire house.

Hand Is Key to Proper Play

By OSWALD JACOBY
Written for NEA Service

In my last column I discussed the advisability of melding early from your hand if you need only 50 points when the opponents need 120 points for the initial meld. I don't recommend an early meld on every type of hand even in this favorable situation.

For example, suppose you hold: Joker A Q-Q 10-10-10 7-7 6-5-2

You have just drawn, and you must decide whether or not to meld. Nobody could really kill you for melding the joker with a pair of tens, but this would not be your best course of action.

With three pairs you are in excellent shape to fight for the discard pile. Why weaken your chance against opponents who are fighting at a disadvantage? The best play, in my opinion, is to discard one of the tens.

This may persuade your right-hand opponent to throw a ten to you fairly soon. However, even if the trap play doesn't work, this discard leaves more room in your hand to accumulate other pairs. A third argument in its favor is that if the ten turns out to be a safe discard you may want to discard other tens in the hope that your side can win the pack before the opponents can do so.

The general principle is very simple. When you have as many as three pairs in your hand, and when you have no difficulty in making the count, you have a fine chance to win the discard pile. With such hands, play for the pack.

The reverse is true when you have only one set of matched cards in your hand. This gives you very little chance to win the pack. With such hands you must either play for a fast out or you must try to help your partner.

For example, you may hold four or five kings and some wild cards. That gives you a play for out, so you meld early and try to meld out as quickly as possible.

If you have nothing valuable at all, no pairs and not even any real concentration, such as four of a kind, you must play defensively. Your only hope is that your partner has a good hand, and you must watch his discards like a hawk so as to be ready to help him when the times comes.

Corporation Gets Court Injunction On Radar Device

Albuquerque, N. M., Sept. 6 (AP) —A radar corporation has asked for a court order to seize an airliner radar device from its inventor.

The inventor, who is missing, was described as "a temperamental scientist."

Yesterday U. S. District Judge Carl A. Hatch granted an injunction which forbids Donald K. Allison, the inventor, to disclose secrets of his device or dispose of the demonstrator model.

Allison says the device would prevent such airline crashes as that Aug. 24 of a United Airlines plane which killed 50 persons on a hillside outside Oakland, Calif.

The corporation president, Miss Aline H. Rhonie, 41, asked for the injunction, contending that her company—the Allison Radar Corporation—agreed last November to pay the inventor $33,750 after delivery of his model and specifications, plus a three per cent royalty on the sale of each unit.

The pretty brunette holds a commercial pilot's license and was a wartime ferry pilot.

Allison had told Miss Rhonie the device would enable a plane flying at 10,000 feet to see mountains 80 miles away, spot a thunderstorm up to 40 miles distant, or sight other aircraft in flight up to seven miles away.

Santiago, Chile is named for Saint James.

Michalek Is Cleared

Vermillion, S. D., Sept. 6 (AP)—Dr. Louis Michalek, bespectacled young medical researcher, today stood cleared of blame in the deaths of two "human guinea pigs" at the University of South Dakota. A coroner's jury reported yesterday, "we find there is no evidence of culpable or intentional negligence. Therefore we conclude that the deaths were not felonious." Dr. Michalek, 28, earlier admitted he had injected methadon by mistake during an experiment in which he meant to test demoral, another sedative, as a pain killer. Two laboratory employes, Jack Clifford and Mrs. Ardys Pearson, died 24 hours after receiving the injections.

Weekly Food Review

(By The Associated Press)

Retail prices of top grade eggs continued to edge higher but otherwise the first week of autumn brought few general price changes in food stores.

Meat market sources reported a mild upswing in demand for better quality cuts of beef and veal. They said cooler weather in many areas probably whetted consumer appetites for meat. However, this pickup was not immediately reflected in higher prices, even on those items still below ceilings.

Changes in prices of fresh fruits and vegetables were about equally divided between advances and declines, and few were changed enough to make much difference to the family's food budget.

Large top grade eggs were up two to four cents a dozen, following the normal seasonal pattern as production of bigger eggs by aging hens declines. Pullet eggs are becoming more plentiful and their prices have advanced less.

Price Goes Up

Lamb and mutton at the wholesale level rose $2 a hundred pounds, as authorized by the Office of Price Stabilization. Retail ceiling adjustments as a result of this wholesale markup are expected to be issued in about two weeks.

Dollars-and-cents ceilings on pork cuts at wholesale are due by the end of this week and these also will be followed by a regulation covering retail prices of pork chops, hams and the like. Just how much change these regulations will make in consumer prices depends on the type cut, the shipping zone of the seller—and the demand situation in the local market.

Lamb is scarce and has been ever since the end of World War 2. Pork, on the other hand, is relatively plentiful and its price in the live market is declining seasonally. Pork supplies are expected to amount to an average of 74 pounds per capita this year—up five pounds from last year.

Chickens, Turkeys Abundant

Chickens and turkeys also are abundant. Broilers and fryers are featured this week by the Agriculture Department as most-plentiful foods for thrifty buying. Broiler output alone is predicted at more than 750,000,000 birds this year, or 20 per cent over 1950. And for several weeks store chains have been promoting turkeys at special prices as a substitute for high-priced meat.

In most produce markets this week, canteloupes and other melons advanced in price as their season tapered off. Tomatoes turned higher as supplies diminished and cooler weather in growing areas improved their quality. Also higher: Cabbage, carrots, fresh peas, peppers, potatoes and peaches.

Lower in most places were cauliflower, western celery, lettuce, onions, sweet potatoes, apples, plums, figs and prunes.

The business research organization, Dun & Bradstreet, reported that its food index showed wholesale food prices this week made their sharpest drop since early July—to hit the lowest average level so far this year. The index at $6.82 compared with $6.89 last week and $6.65 a year ago, and was at the lowest point since last December 19. The index represents the total wholesale cost of one pound each of 31 foods in general use.

A spokesman for a large food association told the San Francisco sales managers Club this week that the food industry now is taking less out of the consumer's dollar for their net profit than ever before.

Pointing to the record of 89 representative manufacturers who produce the type of product which make up the family grocery basket, Paul S. Willis, president of the Grocery Manufacturers of America, said their average net profit in 1939 was 4.6 cents on the dollar. In 1950, these same manufacturers averaged a net return of 3 cents, he said.

"The average net profit on sales for retail food distributors is somewhere between one and two cents and this also is a decline from other years," Willis said.

UNION CENTER

Union Center, Sept 5—Mr. and Mrs. J. Clark and Mrs. M. Silge of Florida are spending a few weeks with Mr. and Mrs. William Sucht.

Mr. and Mrs. Fred Wadsworth of Schenectady and Miss Ethel Wadsworth of Rochester called on Mr. and Mrs. G. Berger Sunday afternoon.

Miss J. Delley of Montreal, Canada, was a recent visitor at the home of Mr. and Mrs. William Sucht.

Residents of School District 4 who are interested in forming a Worker's Club for the benefit of the school will meet Monday, Sept. 10, at 8 p. m. at the Union Center School house.

The next meeting of the Ladies' Aid Society will be held Thursday, Sept. 13, at 8 p. m. Mrs. Adelaide Dargie and Mrs. Ethel Thoden will be hostesses.

Church services are held on the second and fourth Sunday of the month at 7:30 p. m. with the Rev. Robert Baines in charge.

Central Hudson Seeks Increased Electric Rate

The Central Hudson Gas & Electric Corporation on Wednesday September 5 submitted to the New York State Public Service Commission an increased electric rate schedule that would go into effect November 26.

The propsed rates would amount to an average increase of 12½ per cent, although it would vary with individual customers. A residential customer who now pays $2 a month would, under the increase, pay $2.17. A customer who pays $6 a month would pay $6.80, it was explained.

Ernest R. Acker, president of Central Hudson, in commenting on the proposed increase, said: "We have held the line with our present rates as long as it was possible. The mounting cost of labor, taxes and everything we buy to carry on our business has made an increase necessary. If our customers are to continue to receive good service and the company is to remain financially sound an increase in rates is essential."

Acker pointed out that the increase, if approved by the P.S.C. would not materially affect Central Hudson residential customers until next year because of the present two-month payment system. He also noted that approximately half of the increase would be paid to the Federal government in taxes.

Weekly Food Review

(By The Associated Press)

Retail prices of top grade eggs continued to edge higher but otherwise the first week of autumn brought few general price changes in food stores.

Meat market sources reported a mild upswing in demand for better quality cuts of beef and veal. They said cooler weather in many areas probably whetted consumer appetites for meat. However, this pickup was not immediately reflected in higher prices, even on those items still below ceilings.

Changes in prices of fresh fruits and vegetables were about equally divided between advances and declines, and few were changed enough to make much difference to the family's food budget.

Large top grade eggs were up two to four cents a dozen, following the normal seasonal pattern as production of bigger eggs by aging hens declines. Pullet eggs are becoming more plentiful and their prices have advanced less.

Price Goes Up

Lamb and mutton at the wholesale level rose $2 a hundred pounds, as authorized by the Office of Price Stabilization. Retail ceiling adjustments as a result of this wholesale markup are expected to be issued in about two weeks.

Dollars-and-cents ceilings on pork cuts at wholesale are due by the end of this week and these also will be followed by a regulation covering retail prices of pork chops, hams and the like. Just how much change these regulations will make in consumer prices depends on the type cut, the shipping zone of the seller—and the demand situation in the local market.

Lamb is scarce and has been ever since the end of World War 2. Pork, on the other hand, is relatively plentiful and its price in the live market is declining seasonally. Pork supplies are expected to amount to an average of 74 pounds per capita this year—up five pounds from last year.

Chickens, Turkeys Abundant

Chickens and turkeys also are abundant. Broilers and fryers are featured this week by the Agriculture Department as most-plentiful foods for thrifty buying. Broiler output alone is predicted at more than 750,000,000 birds this year, or 20 per cent over 1950. And for several weeks store chains have been promoting turkeys at special prices as a substitute for high-priced meat.

In most produce markets this week, canteloupes and other melons advanced in price as their season tapered off. Tomatoes turned higher as supplies diminished and cooler weather in growing areas improved their quality. Also higher: Cabbage, carrots, fresh peas, peppers, potatoes and peaches.

Lower in most places were cauliflower, western celery, lettuce, onions, sweet potatoes, apples, plums, figs and prunes.

The business research organization, Dun & Bradstreet, reported that its food index showed wholesale food prices this week made their sharpest drop since early July—to hit the lowest average level so far this year. The index at $6.82 compared with $6.89 last week and $6.65 a year ago, and was at the lowest point since last December 19. The index represents the total wholesale cost of one pound each of 31 foods in general use.

A spokesman for a large food association told the San Francisco sales managers Club this week that the food industry now is taking less out of the consumer's dollar for their net profit than ever before.

Pointing to the record of 89 representative manufacturers who produce the type of product which make up the family grocery basket, Paul S. Willis, president of the Grocery Manufacturers of America, said their average net profit in 1939 was 4.6 cents on the dollar. In 1950, these same manufacturers averaged a net return of 3 cents, he said.

"The average net profit on sales for retail food distributors is somewhere between one and two cents and this also is a decline from other years," Willis said.

UNION CENTER

Union Center, Sept 5—Mr. and Mrs. J. Clark and Mrs. M. Silge of Florida are spending a few weeks with Mr. and Mrs. William Sucht.

Mr. and Mrs. Fred Wadsworth of Schenectady and Miss Ethel Wadsworth of Rochester called on Mr. and Mrs. G. Berger Sunday afternoon.

Miss J. Delley of Montreal, Canada, was a recent visitor at the home of Mr. and Mrs. William Sucht.

Residents of School District 4 who are interested in forming a Worker's Club for the benefit of the school will meet Monday, Sept. 10, at 8 p. m. at the Union Center School house.

The next meeting of the Ladies' Aid Society will be held Thursday, Sept. 13, at 8 p. m. Mrs. Adelaide Dargie and Mrs. Ethel Thoden will be hostesses.

Church services are held on the second and fourth Sunday of the month at 7:30 p. m. with the Rev. Robert Baines in charge.

Central Hudson Seeks Increased Electric Rate

The Central Hudson Gas & Electric Corporation on Wednesday September 5 submitted to the New York State Public Service Commission an increased electric rate schedule that would go into effect November 26.

The propsed rates would amount to an average increase of 12½ per cent, although it would vary with individual customers. A residential customer who now pays $2 a month would, under the increase, pay $2.17. A customer who pays $6 a month would pay $6.80, it was explained.

Ernest R. Acker, president of Central Hudson, in commenting on the proposed increase, said: "We have held the line with our present rates as long as it was possible. The mounting cost of labor, taxes and everything we buy to carry on our business has made an increase necessary. If our customers are to continue to receive good service and the company is to remain financially sound an increase in rates is essential."

Acker pointed out that the increase, if approved by the P.S.C. would not materially affect Central Hudson residential customers until next year because of the present two-month payment system. He also noted that approximately half of the increase would be paid to the Federal government in taxes.

Irving Is Contradicted

New York, Sept. 6 (AP) — Maj. Gen. Frederick A. Irving, superintendent at West Point, was contradicted today in his assertion that the academy cheating scandal was an organized conspiracy that started with a small ring of cadets. "There was no ring or conspiracy," Robert Daru declared at a new conference. Daru is counsel to the committe on justice of the New York Criminal and Civil Courts Bar Association which is unofficially investigating the expulsion of some four score cadets for cheating on examinations. "The only trouble at West Point is that they are not big enough to admit a horrible mistake," continued Daru.

Flood Threat Eases

Kansas City, Sept. 6 (AP) — A flood threat to metropolitan Kansas City's industrial districts eased today as rains diminished and the rampaging Kansas river dropped steadily upstream. The industrial areas remained on the alert, however. They are still recovering from a July flood that caused an estimated $2,500,000,000 damage in Missouri and Kansas. President Truman, spending a brief visit in his home state after attending the Japanese peace treaty conference in San Francisco, planned to tour the flood-harrassed districts late today.

Face PGA Action

Albany, N. Y., Sept. 6 (AP)—If Sammy Snead and Jimmy Demaret play a scheduled "casual" match at Kiamesha Lake Saturday they will face disciplinary action by the tournament committee of the Professional Golfers of America Association, Howard Capps, PGA tournament director, said today. Snead and Demaret had been scheduled to play an exhibition against Craig Wood and Tommy Armour tomorrow on the Concord Hotel course at Kiamesha Lake, in the Catskills. But two other pros were substituted, Parker said, because Snead and Demaret had been threatened with court action if they took part.

Florida, California, Louisiana and Texas, in that order, have the longest U. S. seacoasts.

Irving Is Contradicted

New York, Sept. 6 (AP)—Maj. Gen. Frederick A. Irving, superintendent at West Point, was contradicted today in his assertion that the academy cheating scandal was an organized conspiracy that started with a small ring of cadets. "There was no ring or conspiracy," Robert Daru declared at a new conference. Daru is counsel to the committe on justice of the New York Criminal and Civil Courts Bar Association which is unofficially investigating the expulsion of some four score cadets for cheating on examinations. "The only trouble at West Point is that they are not big enough to admit a horrible mistake," continued Daru.

Flood Threat Eases

Kansas City, Sept. 6 (AP)—A flood threat to metropolitan Kansas City's industrial districts eased today as rains diminished and the rampaging Kansas river dropped steadily upstream. The industrial areas remained on the alert, however. They are still recovering from a July flood that caused an estimated $2,500,000,000 damage in Missouri and Kansas. President Truman, spending a brief visit in his home state after attending the Japanese peace treaty conference in San Francisco, planned to tour the flood-harrassed districts late today.

Other kindergarten teachers are Barbara Turfler Bonney, a graduate of the local college and New York University and Mrs John Hastings, a graduate of Wheelock College, in Boston, Mass.

Mr. and Mrs. David Corwin have returned from a vacation spent at Asbury Park and Atlantic City, N. J.

Richard C. Rhoades is spending a 10-day vacation in Florida.

Mr. and Mrs. Henry D. DuBois and children, William and Mary, spent Wednesday and Thursday of last week as guests of Mr. and Mrs. C. Raymond Humphries of North Wales, Pa., and Otto Schmidt, a former resident of New Paltz.

Mr. and Mrs. H. Woodin have returned from a plane trip to San Francisco.

Mrs. Samuel Dayton, Mrs. Herman E. DuBois and Mrs. Pearl Haak have returned from a vacation at Ocean Grove and Asbury Park, N. J.

Mrs. L. J. DuBois and Miss Helena M. Olds of New Paltz were winners in the various exhibits of people taking part at the Ulster County Fair held at Forsyth Park in Kingston. Mrs. DuBois furnished quilts and Miss Olds flowers, for which three awards were presented. The two Tucker girls of Gardiner also won blue ribbons in the animal section.

Fernal DuBois of Grahamsville was a recent caller at the home of Mr. and Mrs. Wilbur J. Van Wyck at New Hurley.

Mrs. Alvin Coy was a recent visitor of relatives in New Paltz.

Mr. and Mrs. George Weed of Stamford, Conn., spent Tuesday with Mr. and Mrs. E. B. Minard in Clintondale. The Weeds have been vacationing for the past two months at Arkville in the Catskills. Mr. and Mrs. Minard also were guests last Sunday at Arkville.

Face PGA Action

Albany, N. Y., Sept. 6 (AP)—If Sammy Snead and Jimmy Demaret play a scheduled "casual" match at Kiamesha Lake Saturday they will face disciplinary action by the tournament committee of the Professional Golfers of America Association, Howard Capps, PGA tournament director, said today. Snead and Demaret had been scheduled to play an exhibition against Craig Wood and Tommy Armour tomorrow on the Concord Hotel course at Kiamesha Lake, in the Catskills. But two other pros were substituted. Parker said, because Snead and Demaret had been threatened with court action if they took part.

Florida, California, Louisiana and Texas, in that order, have the longest U. S. seacoasts.

Gameness Is Praised

Portsmouth, N. H., Sept. 6 (AP)—Doctors at Portsmouth Hospital say Danny Morin, 13, is one of the gamest youngsters they have ever seen. A polio victim since he was an infant, Danny has undergone five major operations. Yesterday surgeons removed his right leg. The only request he had as he left his father for the operating room was: "Say, Dad, can I have my name in the paper?" You can, Danny. Here it is.

More than 800,000 ingot tons of stainless steel were produced in the United States in 1950, an all-time peak.

10 Needed for Jury

Cooperstown, N. Y., Sept., 6 (AP)—Eight more jurors and two alternates are needed for the trial of Matthew L. Armer, 32-year-old ex-convict accused of the rifle-slaying of a state police corporal. Four jurors were selected from the 118 prospective jurors examined in the first two days of the trial. Three were picked yesterday. Armer is accused of shooting Cpl. Arthur M. Diffendale, 33, on the outskirts of Onconta June 14. Armer was arrested June 24 near his home in Nassau, Rensselaer county.

Pastor Resigns

REV. & MRS. HARRY DONLEY

The Rev. Harry M. Donley, who has been pastor of the Full Gospel Tabernacle of the Assemblies of God, corner of Fair and Franklin streets, for two and a half years, will preach his farewell sermon Friday at 7:45 p. m. at the church. All are invited to attend.

The Rev. Mr. Donley has resigned his charge at the local church to enter missionary work in India.

An extensive tour of churches of the Assemblies of God throughout the United States is planned by the local pastor and his wife. They expect to sail for India early next spring.

The Rev. Mr. Donley came to Kingston from Davistown, Pa., after completing studies at the Metropolitan Bible Institute in Suffern.

A farewell party for the pastor and his wife was held last Saturday night at the home of Mr. and Mrs. Wilbert Vandemark, 32 Oak street, with about 55 guests attending.

Replacing the Rev. Mr. Donley as pastor of the local church will be the Rev. Robert Vinson, of Schenectady. The usual services will be conducted.

Shipping Shortage

Winnipeg (AP)—Shortage of shipping space is delaying departure of many immigrants from Britain to Canada, according to M. Bowley, superintendent of British emigration for the Canadian National Railways. He said here that some who applied last May will not be able to leave until late in the year.

Wire salad baskets are useful; just put the washed salad greens in the basket and shake away any water clinging to the leaves.

WALLKILL

Wallkill, Sept. 5 (AP)—George Eckert, Harry W. Morehouse, and Joseph W. Morris attended the Dodger-Giant game at the Polo Grounds Sunday.

Mr. and Mrs. Samuel Lawson and Mr. and Mrs. Louis Argan-bright enjoyed a day in New York Sunday.

Mr. and Mrs. Joseph Morris and sons were guests Saturday night of Mr. Morris' sister and brother-in-law, Mr. and Mrs. George Eckert and his father, George Gledhill of Walden.

Mrs. George Sohn was a Sunday guest at the home of her sister and brother-in-law, Mr. and Mrs. Emmet Conklin.

Mrs. George Sohn and Mrs. Lulu Masten were callers Friday of Mrs. James McLinden.

Chauncey A. Morehouse, director of athletics at Perkiomen school at Pennsburgh, Pa., is home for a three-week vacation with his parents, Mr. and Mrs. Harry W. Morehouse.

The Rev. Richard F. Hine officiated at the Reformed Church service Sunday.

Regular rehearsals of the Reformed Church will begin Thursday at 7:30 p. m. Mrs. Hubert Hendrie will be the director.

School will resume at the Wallkill Central School Monday, Sept. 10. Registration of new pupils will be held at the school four days after Labor Day, Sept. 4, to 7 from 9 a. m. to 3 p. m. Children who have not attended schools and who were born before Dec. 1, 1946, will be eligible to enter kindergarten at Plattekill Modena or Wallkill. Those entering school for the first time should bring birth certificates and those pupils transferring to the Wallkill School should bring transfers or copies of last year's report cards. Pupils attending the first grade at Wallkill will have classes at the Main street building which was formerly the home of the Walkill National Bank.

New teachers in the elementary grades include two 1951 graduates of the New Paltz State Teachers College, Miss Jeannette Eason of Ulster Park who will teach a combination of fifth and sixth grades at Wallkill and Ralph LeFever, of New Paltz, who will teach the fifth grade. A 1951 graduate of Plattsburg State Teachers College, Miss Shirley Hankinson of Kingston will teach a fourth grade section. Miss Sarah Quick, a member of the faculty since 1939, has returned from a year's leave of absence for study in Europe, will resume her position as kindergarten teacher. Mrs. Barbara Turfler Bonney, a graduate of the New Paltz State Teachers College and New York University, also will have a kindergarten class. Mrs. Joan Hastings, a graduate of Wheelock College in Boston, Mass., who will have the Plattekill-Modena kindergarten class, formerly taught at Latham.

The annual census for children from birth to 18 years of age living in the school district will be made today by members of the faculty as part of their preschool activities.

Gameness Is Praised

Portsmouth, N. H., Sept. 6 (AP) —Doctors at Portsmouth Hospital say Danny Morin, 13, is one of the gamest youngsters they have ever seen. A polio victim since he was an infant, Danny has undergone five major operations. Yesterday surgeons removed his right leg. The only request he had as he left his father for the operating room was: "Say, Dad, can I have my name in the paper?" You can, Danny. Here it is.

More than 800,000 ingot tons of stainless steel were produced in the United States in 1950, an all-time peak.

10 Needed for Jury

Cooperstown, N. Y., Sept., 6 (AP) —Eight more jurors and two alternates are needed for the trial of Matthew L. Armer, 32-year-old ex-convict accused of the rifle-slaying of a state police corporal. Four jurors were selected from the 118 prospective jurors examined in the first two days of the trial. Three were picked yesterday. Armer is accused of shooting Cpl. Arthur M. Diffendale, 33, on the outskirts of Onconta June 14. Armer was arrested June 24 near his home in Nassau, Rensselaer county.

Pastor Resigns

REV. & MRS. HARRY DONLEY

The Rev. Harry M. Donley, who has been pastor of the Full Gospel Tabernacle of the Assemblies of God, corner of Fair and Franklin streets, for two and a half years, will preach his farewell sermon Friday at 7:45 p. m. at the church. All are invited to attend.

The Rev. Mr. Donley has resigned his charge at the local church to enter missionary work in India.

An extensive tour of churches of the Assemblies of God throughout the United States is planned by the local pastor and his wife. They expect to sail for India early next spring.

The Rev. Mr. Donley came to Kingston from Davistown, Pa., after completing studies at the Metropolitan Bible Institute in Suffern.

A farewell party for the pastor and his wife was held last Saturday night at the home of Mr. and Mrs. Wilbert Vandemark, 32 Oak street, with about 55 guests attending.

Replacing the Rev. Mr. Donley as pastor of the local church will be the Rev. Robert Vinson, of Schenectady. The usual services will be conducted.

Shipping Shortage

Winnipeg (AP)—Shortage of shipping space is delaying departure of many immigrants from Britain to Canada, according to M. Bowley, superintendent of British emigration for the Canadian National Railways. He said here that some who applied last May will not be able to leave until late in the year.

Wire salad baskets are useful; just put the washed salad greens in the basket and shake away any water clinging to the leaves.

WALLKILL

Wallkill, Sept. 5 (AP) — George Eckert, Harry W. Morehouse, and Joseph W. Morris attended the Dodger-Giant game at the Polo Grounds Sunday.

Mr. and Mrs. Samuel Lawson and Mr. and Mrs. Louis Argan-bright enjoyed a day in New York Sunday.

Mr. and Mrs. Joseph Morris and sons were guests Saturday night of Mr. Morris' sister and brother-in-law, Mr. and Mrs. George Eckert and his father, George Gledhill of Walden.

Mrs. George Sohn was a Sunday guest at the home of her sister and brother-in-law, Mr. and Mrs. Emmet Conklin.

Mrs. George Sohn and Mrs. Lulu Masten were callers Friday of Mrs. James McLinden.

Chauncey A. Morehouse, director of athletics at Perkiomen school at Pennsburgh, Pa., is home for a three-week vacation with his parents, Mr. and Mrs. Harry W. Morehouse.

The Rev. Richard F. Hine officiated at the Reformed Church service Sunday.

Regular rehearsals of the Reformed Church will begin Thursday at 7:30 p. m. Mrs. Hubert Hendrie will be the director.

School will resume at the Wallkill Central School Monday, Sept. 10. Registration of new pupils will be held at the school four days after Labor Day, Sept. 4, to 7 from 9 a. m. to 3 p. m. Children who have not attended schools and who were born before Dec. 1, 1946, will be eligible to enter kindergarten at Plattekill Modena or Wallkill. Those entering school for the first time should bring birth certificates and those pupils transferring to the Wallkill School should bring transfers or copies of last year's report cards. Pupils attending the first grade at Wallkill will have classes at the Main street building which was formerly the home of the Wallkill National Bank.

New teachers in the elementary grades include two 1951 graduates of the New Paltz State Teachers College, Miss Jeannette Eason of Ulster Park who will teach a combination of fifth and sixth grades at Wallkill and Ralph LeFever, of New Paltz, who will teach the fifth grade. A 1951 graduate of Plattsburg State Teachers College, Miss Shirley Hankinson of Kingston will teach a fourth grade section. Miss Sarah Quick, a member of the faculty since 1939, has returned from a year's leave of absence for study in Europe, will resume her position as kindergarten teacher. Mrs. Barbara Turfler Bonney, a graduate of the New Paltz State Teachers College and New York University, also will have a kindergarten class. Mrs. Joan Hastings, a graduate of Wheelock College in Boston, Mass., who will have the Plattekill-Modena kindergarten class, formerly taught at Latham.

The annual census for children from birth to 18 years of age living in the school district will be made today by members of the faculty as part of their preschool activities.

As Pegler Sees It

ist of the Washington scene. They have never warned their readers, as was stated by Senator McCarthy on the Senate floor that this mendacious tool of their ulterior benevolence employed one staff man who was a Communist and another who had worked in the office of the Daily Worker, the Communist citadel in New York.

Time's laudation did not warn the readers as McCarthy told the Senate that the conduct of one of Pearson's men caused the State Department to lock up with unusual care "magic" information that might be useful to Soviet Russia. Nor will Fui-pi-yu's publications give warning that Pearson, by stealth, deceived the readers by demanding army commissions for Communists without revealing that they were Communists.

This is not the total of Pearson's stealthy work, which he has recently been trying to live down by floating toy circus balloons across the Iron Curtain to carry incitations to rebellion to enslaved millions.

But all of this and more was easily accessible to Time, when, for the private motives of China-Boy Luce, it published fantastic fiction that Pearson was a journalist of honor and standing in the profession.

The air force has the basic responsibility for security and secrecy in its own command. Yet, some general obviously took the responsibility of endorsing Margaret Bourke-White for a visit to scenes so confidential that even the cooks carry carbines, with permission to take pictures to her heart's content.

Good Taste Today

by Emily Post

(Author of "Etiquette," "Children Are People," etc.)

FATHER SITS WHERE?

A stepmother writes: "My husband is giving his daughter away at her wedding. His first wife is giving the wedding (he is a silent contributor) and she will be sitting in the first pew of course. No mention has been made as to where my husband sits or where I will be seated. He thinks he should take his place next to me after giving the bride away and not next to the bride's mother. But if I'm seated at the back of the church somewhere won't it be very conspicuous for him to have to trudge back through the church to sit with me. What is customary in such a situation?

Since the bride's mother will be seated in the first pew, you should not be seated nearer than the third or perhaps the fourth pew. You husband will, of course, join you after giving his daughter in marriage.

Paying With Your Personality

Dear Mrs. Post: In one of your recent answers I felt you were unnecessarily and possibly even harmfully lenient with people who don't make the effort to return their invitations. You said many people are unable to return invitations in any way except by contributing their own personality and charm. Surely I think people should be encouraged to feel some responsibility. A cup of tea, a coke, a trip to the movies—one of these is within the scope of all people.

Answer: Certainly you do return an invitation if you can, but there are many occasions when people are unable to do more than make a cup of tea, nevertheless they pay fully with their own personality.

Golden Wedding

Dear Mrs. Post: At a family dinner in honor of my parents' 50th wedding anniversary, should all the family and friends be assembled at the long table in a private dining room of a hotel ahead of time and then the "bride and groom" make their entrance? What is customary?

Answer: There is no established "custom" and I think your suggestion very good.

gines also use the super-heated gas jet after it has passed through the turbine, to give the engine additional forward thrust.

The heat produced by a small quantity of uranium-235 is tremendous. Scientists have estimated that a pound of uranium-235 would provide the same energy as 6,000,000 gallons of gasoline.

But this great heat and its accompanying radiation provide what is believed to be the biggest obstacle to an atomic-powered airplane. The big problem is to provide adequate shielding from the deadly radiation for crew members.

Lead Is Best Shield

Lead is the best known shield against radiation, and a plane weighted down with too much lead would sacrifice the speed and altitude advantages to be gained through atomic power.

There have recently been guarded hints that progress to whip the problem has been made.

Engineers now believe it will be possible to construct an atomic engine and the needed shielding to weigh not more than 100 tons —about the weight of the power plants and fuel supply of the latest all jet B-36.

As for the design of the new plane's shell—which the air force said will be developed at Consolidated's plant at Fort Worth, Texas—several shapes have been suggested.

All are designed to keep the crew quarters and operating areas well removed from the lethal radiation and intense heat of the power plant.

Ridgway Suggests

fect be admitting their charges were false.

Ridgeway's note indicated he doubted the Communists really want peace.

Ridgway's proposal of a new site stirred speculation that if one is chosen it would be somewhere outside of Korea. There was no hint here that talks might be shifted to Europe as suggested to President Truman by U. S. Senators Aiken (R.-Vt.) and Young (R.-N. D.).

Speculation here centered on a hospital ship—Ridgway originally proposed the talks be held on the Danish hospital ship Jutlandia—Hong Kong, Macao, and Seoul, capital of South Korea which is occupied by UN forces.

'Fixer' Surrenders

New York, Sept. 6 (AP)—An alleged big time basketball "fixer" who had been sought from coast to coast since July 24 surrendered to the district attorney today. Jack West, 40, described as a "big time bookmaker" by District Attorney Frank S. Hogan, walked into Hogan's office with his lawyer. West was indicted in July charged with offering a $10,000 bribe to a Bradley University player, to throw a 1950 championship game with City College.

West Delegates

said it opened a new era in the history of Japan and bolstered prospects for peace in the Pacific.

Gromyko built much of his slashing attack on the treaty on two points: First, that Red China had no part in drafting it; second, that it amounted to an "aggressive military alliance with the United States."

Cites Responsibility

Clearly indicating that Russia would not sign, he declared that nations which do sign without the participation of Red China, India and Burma "take upon themselves a heavy responsibility of the aftermath of such an illegal act."

At another point he said Russia had come to the conference "to voice publicly the truth about the American-British draft and to oppose it with demands" for a treaty of the kind Russia thinks should be prepared.

When he ceme to the end of his speech and began his amendments he was interrupted by Spender. The Australian reminded him that amendments to the draft before the conference were out of order. Gromyko said he was explaining his country's position, and went on speaking.

As he concluded, messengers appeared on the conference floor with texts of his proposals and distributed them to the other delegates. He urged that the proposals be studied by their governments.

The Americans, promptly took a view, also shared by many other delegates, that while Gromyko's amendments were in the hands of the delegations they were not before the conference as a whole. Therefore they did not have to be acted upon. They could not be entirely ignored, however, for it seemed certain that when the representatives of Poland and Czechoslovakia speak they will stormily uphold Gromyko's position.

Would Limit Japanese

American officials said there was nothing new in what Gromyko proposed except specific figures he submitted for limitation of Japan's armed forces. He would limit the Japanese army to 150,000 men and 200 tanks; the navy to 25,000 men and 75,000 tons of shipping; the air force to 20,000 men, 200 short-range combat aircraft and 150 non-combat planes.

Such limits are directly contrary to the American-British position that the treaty should fix no limits on Japan's armed forces because future requirements of Japan's defenses cannot now be determined.

Dulles in his speech had detailed American plans for signing a direct pact with Japan providing for continued maintenance of American forces in that country to assure its security. This was made necessary, he said, by the threat of Communist aggression, the dangers of which have been heightened by the war in Korea.

90 Days to Move Troops

Gromyko's amendments would (1) compel the withdrawal of all American troops from Japan 90 days after the treaty went into force, (2) prevent any military alliance by Japan "against any power" which fought against Japan in World War 2, and (3) require demilitarization of certain Japanese coastal areas.

Russia also would get a veto over the treaty along with other great powers.

The Soviet amendments would (1) take the Ryukyu and Bonin Islands from United States administration and give them to Japan, (2) legally secure Russia's own hold on the Kurile Islands and South Sakhalin and (3) provide for reparations from Japan to nations which Japanese forces occupied in the war.

The reparations clause was obviously designed to appeal to Asian countries, like the Philippines and Indonesia which have expressed dissatisfaction with the reparations provisions of the American-British treaty draft.

Can't Influence Parley

But there was no thought among western delegates that Gromyko actually would influence the course of the conference either with his reparations inducements or his warnings about a "new war" in the Far East.

Neither did a charge he made that the conference was subject to American "dictation" appear to have won him any support. American and British officials privately expressed confidence that the treaty would be signed in spite of anything he has so far done, by at least 47 nations, plus Japan. Of the 52 nations represented, including the three Communist countries, only the signature of Indonesia still appears in serious doubt.

Flores' Funeral Held

New York, Sept. 6 (AP)—The man who knocked him out and a fellow boxer who barely escaped a similar death today attended the funeral of 20-year-old George Flores, who died of brain injuries after a Madison Square Garden bout. "I hope they keep all the promises they made to the widow and family," said Carmine Vingo, a young heavyweight boxer who hovered between life and death two years ago after suffering a brain injury following a Garden fight. "I wish he could have been as lucky as I was." Flores left a widow and one-month-old son. Roger Donoghue, Flores' conqueror in the fatal welterweight match, sat tight-lipped through a 15-minute service at the funeral home, before the cortege left for Mount Olivet Cemetery, Queens.

May Talk Fluoridation

The Kingston Board of Water Commissioners, scheduled to meet tonight, is expected to discuss a proposal to fluoridate the local water system. The state has released this city from its role as the control community in an important fluoridation test as Newburgh water was fluoridated, and Kingston may now have added to its water the substance which is known to be effective in lessening dental caries.

SPIRIT OF SAN FRANCISCO—Gaily-dressed Nisei children, in colorful costumes from Japan, wave both U. S. and Japanese flags as they welcome Japanese Prime Minister Shigeru Yoshida to the San Francisco peace treaty conference.

Nolan Is Nominated

White Plains, N. Y., Sept. 6 (AP)—Republicans in the Ninth Judicial District yesterday nominated State Supreme Court Justice Gerald Nolan for reelection. They also nominated Samuel W. Eager, a Middletown lawyer, for a second judicial opening in the district, which includes the counties of Westchester, Dutchess, Orange, Rockland and Putnam. The Republican nomination in the area is tantamount to election. However, the Democrats are expected to nominate a candidate in opposition to Eager tomorrow.

fect be admitting their charges were false.

Ridgeway's note indicated he doubted the Communists really want peace.

Ridgway's proposal of a new site stirred speculation that if one is chosen it would be somewhere outside of Korea. There was no hint here that talks might be shifted to Europe as suggested to President Truman by U. S. Senators Aiken (R.-Vt.) and Young (R.-N. D.).

Speculation here centered on a hospital ship—Ridgway originally proposed the talks be held on the Danish hospital ship Jutlandia—Hong Kong, Macao, and Seoul, capital of South Korea which is occupied by UN forces.

'Fixer' Surrenders

New York, Sept. 6 (AP)—An alleged big time basketball "fixer" who had been sought from coast to coast since July 24 surrendered to the district attorney today. Jack West, 40, described as a "big time bookmaker" by District Attorney Frank S. Hogan, walked into Hogan's office with his lawyer. West was indicted in July charged with offering a $10,000 bribe to a Bradley University player, to throw a 1950 championship game with City College.

West Delegates

said it opened a new era in the history of Japan and bolstered prospects for peace in the Pacific.

Gromyko built much of his slashing attack on the treaty on two points: First, that Red China had no part in drafting it; second, that it amounted to an "aggressive military alliance with the United States."

Cites Responsibility

Clearly indicating that Russia would not sign, he declared that nations which do sign without the participation of Red China, India and Burma "take upon themselves a heavy responsibility of the aftermath of such an illegal act."

At another point he said Russia had come to the conference "to voice publicly the truth about the American-British draft and to oppose it with demands" for a treaty of the kind Russia thinks should be prepared.

When he ceme to the end of his speech and began his amendments he was interrupted by Spender. The Australian reminded him that amendments to the draft before the conference were out of order. Gromyko said he was explaining his country's position, and went on speaking.

As he concluded, messengers appeared on the conference floor with texts of his proposals and distributed them to the other delegates. He urged that the proposals be studied by their governments.

The Americans, promptly took a view, also shared by many other delegates, that while Gromyko's amendments were in the hands of the delegations they were not before the conference as a whole. Therefore they did not have to be acted upon. They could not be entirely ignored, however, for it seemed certain that when the representatives of Poland and Czechoslovakia speak they will stormily uphold Gromyko's position.

Would Limit Japanese

American officials said there was nothing new in what Gromyko proposed except specific figures he submitted for limitation of Japan's armed forces. He would limit the Japanese army to 150,000 men and 200 tanks; the navy to 25,000 men and 75,000 tons of shipping; the air force to 20,000 men, 200 short-range combat aircraft and 150 non-combat planes.

Such limits are directly contrary to the American-British position that the treaty should fix no limits on Japan's armed forces because future requirements of Japan's defenses cannot now be determined.

Dulles in his speech had detailed American plans for signing a direct pact with Japan providing for continued maintenance of American forces in that country to assure its security. This was made necessary, he said, by the threat of Communist aggression, the dangers of which have been heightened by the war in Korea.

90 Days to Move Troops

Gromyko's amendments would (1) compel the withdrawal of all American troops from Japan 90 days after the treaty went into force, (2) prevent any military alliance by Japan "against any power" which fought against Japan in World War 2, and (3) require demilitarization of certain Japanese coastal areas.

Russia also would get a veto over the treaty along with other great powers.

The Soviet amendments would (1) take the Ryukyu and Bonin Islands from United States administration and give them to Japan, (2) legally secure Russia's own hold on the Kurile Islands and South Sakhalin and (3) provide for reparations from Japan to nations which Japanese forces occupied in the war.

The reparations clause was obviously designed to appeal to Asian countries, like the Philippines and Indonesia which have expressed dissatisfaction with the reparations provisions of the American-British treaty draft.

Can't Influence Parley

But there was no thought among western delegates that Gromyko actually would influence the course of the conference either with his reparations inducements or his warnings about a "new war" in the Far East.

Neither did a charge he made that the conference was subject to American "dictation" appear to have won him any support. American and British officials privately expressed confidence that the treaty would be signed in spite of anything he has so far done, by at least 47 nations, plus Japan. Of the 52 nations represented, including the three Communist countries, only the signature of Indonesia still appears in serious doubt.

Flores' Funeral Held

New York, Sept. 6 (AP)—The man who knocked him out and a fellow boxer who barely escaped a similar death today attended the funeral of 20-year-old George Flores, who died of brain injuries after a Madison Square Garden bout. "I hope they keep all the promises they made to the widow and family," said Carmine Vingo, a young heavyweight boxer who hovered between life and death two years ago after suffering a brain injury following a Garden fight. "I wish he could have been as lucky as I was." Flores left a widow and one-month-old son. Roger Donoghue, Flores' conqueror in the fatal welterweight match, sat tight-lipped through a 15-minute service at the funeral home, before the cortege left for Mount Olivet Cemetery, Queens.

May Talk Fluoridation

The Kingston Board of Water Commissioners, scheduled to meet tonight, is expected to discuss a proposal to fluoridate the local water system. The state has released this city from its role as the control community in an important fluoridation test as Newburgh water was fluoridated, and Kingston may now have added to its water the substance which is known to be effective in lessening dental caries.

Nolan Is Nominated

White Plains, N. Y., Sept. 6 (AP)—Republicans in the Ninth Judicial District yesterday nominated State Supreme Court Justice Gerald Nolan for reelection. They also nominated Samuel W. Eager, a Middletown lawyer, for a second judicial opening in the district, which includes the counties of Westchester, Dutchess, Orange, Rockland and Putnam. The Republican nomination in the area is tantamount to election. However, the Democrats are expected to nominate a candidate in opposition to Eager tomorrow.

Just looked through the "Albany Tercentenary 1624-1924" book given me recently. It has 184 pages. Front cover very decorative with Indians on beach and white folks landing under which is written, "Historical Narrative, Souvenir," about "Albany, America's oldest city." Well, we have the oldest official public building in the United States, right here in Kingston, the Senate House. One write-up on page 61 follows in part: "Shortly after the peace of 1748, Albany was visited by a Swedish naturalist, Peter Kalm, who has left us a very good description of the city as it was at that time.

He writes: "All the yachts which ply between Albany and New York, belong to Albany. . . . They bring from Albany boards or planks, and all sorts of timber, flour pease, and furs, which they get from the Indians or which are smuggled from the French. They come home almost empty, and only bring a few merchandises with them, among which rum is the chief. . . . The yachts are pretty large, and have a good cabin, in which the passengers can be very commodiously lodged. They are commonly built of red cedar, or of white oak."

He further wrote: "They sow wheat in the neighborhood of Albany with great advantage. From one bushel they get 12 some times; if the soil be good they get 20 bushels. The wheat-flour from Albany is reckoned the best in all North America, except that from Sopus or Kingston, a place between Albany and New York." (I wonder how the Esopus wheat is today, if any. Must ask Al Kurdt.)

"All the bread in Albany is made of wheat. At New York they pay for the Albany flour with several shillings more per hundred weight than that from other places."

His description further goes on: "They are unacquainted with stoves, and their chimneys are so wide that one could drive (through) them with a cart and horses. The water of several wells in this town was very cool about this time, but had a kind of acid taste which was not very agreeable. I think this water is not very wholesome for people who are not use to it, though the inhabitants of Albany who drink it every day, say that they do not feel the least inconvenience from it."

I remember drinking well water at my grandmother's in Port Ewen, I didn't like it raw either, only as cooked tea, yet she didn't mind it a bit. "Almost every house in Albany has its well, the water of which is applied to common use; but for tea, brewing, and washing, they commonly take the water of the river." Now that's strange. For our two wells in Port Ewen supplied us with all our needs and in the 40 years my grandmother lived there, they never ran dry.

"The houses in Albany are very neat, and partly built with stones covered with shingles of the White Pine. Some are slated with tiles from Holland, because the clay of this neighborhood is not reckoned fit for tiles. Most of the houses are built in the old way, with the gablend toward the street. . . . The gutters on the roofs reach almost to the middle of the street. This preserves the walls from being damaged by the rain; but on rainy days it drips on the people walking along those streets."

When a recipe calls for a fully-ripe banana be sure to use fruit whose yellow peel is flecked with brown.

C of C Declares No Approval Given

The Kingston Chamber of Commerce has not given its approval to "any plan to sell advertising coupon books redeemable in merchandise or services," according to a statement issued today by the Chamber through its executive secretary, Albert Kurdt.

The statement was, by its own wording, a "flat denial" that any such plan had the approval of the Chamber of Commerce.

The denial was issued after it had been reported to the Chamber of Commerce that a representative of a mid-western concern promoting a coupon book plan locally had informed local businessmen that he had the endorsement of the Kingston Chamber of Commerce, the statement explained.

The plan is one in which businessmen agree to give certain goods or services to the purchasers of coupon books. The businessmen, in return, are promised a large amount of advertising at low cost, it was explained.

The Chamber of Commerce office has been in communication with several cities where similar advertising plans have been carried out, and, according to the statement, "would be pleased to inform any local businessman as to the experience and reaction in those cities."

The position of the Chamber of Commerce was stated in a newsletter mailed to members last week. The newsletter warned against schemes being promoted to secure "cheap" advertising, and continued: "Unsuspecting merchants and others often become involved in schemes which at first cost no money, but in the end are very expensive. Be cautious about schemes which take large sums of money out of the community at your expense. Be certain you get value received for any deal or scheme in which you agree to participate."

Will Discuss Truck Mileage Tax Law

Four speakers from the New York State Department of Taxation and Finance are scheduled to address the joint meeting in Poughkeepsie, September 12, of the Mid-Hudson Traffic Club and Mid-Hudson Industrial Association.

Subject of the event to be held in the Nelson House at 6:30 p. m. is Truck Mileage Tax Law and speakers from the department of taxation and finance scheduled to talk are Commissioner Edward H. Best, Director General Gerald E. Rowley, Director of Planning Ellis T. Riker and Director of Publications Norman Gallman.

There will be a question and answer period for enlightenment on the new tax law effective October 1, which will affect all common and private carriers as well as industries.

Reservations to attend the dinner meeting must be made not later than September 10, according to Walter C. Pirie, chairman of the Mid-Hudson Traffic Club and B. J. Van Wickler, chairman of the Mid-Hudson Industrial Association.

C of C Declares No Approval Given

The Kingston Chamber of Commerce has not given its approval to "any plan to sell advertising coupon books redeemable in merchandise or services," according to a statement issued today by the Chamber through its executive secretary, Albert Kurdt.

The statement was, by its own wording, a "flat denial" that any such plan had the approval of the Chamber of Commerce.

The denial was issued after it had been reported to the Chamber of Commerce that a representative of a mid-western concern promoting a coupon book plan locally had informed local businessmen that he had the endorsement of the Kingston Chamber of Commerce, the statement explained.

The plan is one in which businessmen agree to give certain goods or services to the purchasers of coupon books. The businessmen, in return, are promised a large amount of advertising at low cost, it was explained.

The Chamber of Commerce office has been in communication with several cities where similar advertising plans have been carried out, and, according to the statement, "would be pleased to inform any local businessman as to the experience and reaction in those cities."

The position of the Chamber of Commerce was stated in a newsletter mailed to members last week. The newsletter warned against schemes being promoted to secure "cheap" advertising, and continued: "Unsuspecting merchants and others often become involved in schemes which at first cost no money, but in the end are very expensive. Be cautious about schemes which take large sums of money out of the community at your expense. Be certain you get value received for any deal or scheme in which you agree to participate."

JACOBY ON BRIDGE

Tourney Play May Call for Over-Bid

BY OSWALD JACOBY
Written for NEA Service

In rubber bridge you seldom deliberately overbid against silent opponents. In tournament bridge, however, you sometimes know that you need unusual results to produce a winning score, and in that case you sometimes bid the cards for a little more than they're really worth, trusting to luck and your good right arm to bring the contract home.

Today's hand was of that nature. South knew he didn't belong in a game contract. To begin with, his hand was a slightly doubtful no-trumper. Moreover, his partner raised to only two no-trump, showing that he lacked the strength to bid all the way to game. But South also knew that he needed a better than average result, so be bid the impossible game.

Incidentally, I should point out that North's response of two clubs was the Stayman Convention, asking South to show a major suit if he had one. South showed the hearts, thereby denying that he had biddable spades. Hence North went back to no-trump.

West led the four of diamonds, and South won with the jack. Declarer next cashed the king of diamonds, followed by the ace of hearts, and a low heart towards dummy. West allowed dummy's jack of hearts to win the second round of that suit, but had to take his king when declarer led a third round of hearts.

The contract could be defeated if West ever led clubs, but he had no way of knowing that. It seemed safe to lead the queen of spades, as indeed it was. East, knowing that he needed a club lead from the West hand, should have put up the king of spades to make sure that he would not eventually be stuck in the lead with a high spade. As it happened, East made the fatal error of playing the eight of spades.

South dropped the six of spades to make the eight look like an encouraging signal. West therefore continued with the jack of spades. Now declarer took the ace of spades, cashed the last heart to discard the ten of diamonds from dummy, and then put East in with a third spade. East had to lead a club, giving dummy the king of clubs. That card was the entry for the ace of diamonds and the last spade, both of which would have withered on the vine if anybody but East had led clubs.

THE RUMINATOR

By HUMPHREY B. NEILL
A Column of Contrary Opinion

Your news-reading this week is so loaded with international events and propaganda that it seemed to the Ruminator it might be a good time to ruminate a little over the subject of propaganda.

The art of propaganda has reached a frightening degree of perfection since the growth of modern dictatorships and the introduction of radio and other means of mass communications. Television is destined to further the power of propaganda.

From studies of crowd psychology we learn that "repetition" and "contagion" are two of the effective psychological forces that influence public opinion. Mass methods of communication afford opportunities for the immediate inoculation of contagious propaganda to whole bodies of people. This brings millions of individuals together so that they become a "crowd." In this manner, the effects of propaganda are incalculably gerater than they would be were people not brought together. As it is today, the contagion of ideas spreads through the masses as an epidemic spreads through a city and a nation.

We see illustrations of the extent to which propaganda is used every day, in the outpourings of accusations from Russia and Red China—and in the overwhelming flood of words emanating from Washington. Only the other day our newspapers reported that Charles E. Wilson, Director of Defense Mobilization, was seeking an additional "corps" of writers who would be available to write speeches and articles that could be used for the "education" of business and other groups at luncheon and club meetings. Education is a polite term for propaganda. What it actually means, of course, is that the message which the government wishes to get over is dressed up in the proper language and then through "repetition" and "contagion" the ideas are planted in the minds of us ordinary citizens who are not supposed to be able to think for ourselves.

The said truth of the matter is that people do not think for themselves, and acquire their information second-hand — from something they read hurriedly, hear at a meeting, or are told on the street corner. The result is, of course, that it is possible to spread opinions by propaganda.

The reason for Gromyko's attendance at the San Francisco meeting this week is for the purpose of infecting certain numbers of people with Russia's poisonous propaganda. Gromyko has no more interest in working with the other nations on a peace treaty with Japan than he has with working out a peaceful solution of any of the world's problems. But he does have a feverish interest in continuing the unrest that now prevails. At San Francisco he will have the world's attention—the world's spot-light will play on him. Naturally, Russia would not pass up such an opportunity to exercise her highly perfected technique of propaganda.

If we realize that much of our news—and most of our speeches and pronouncements—are manufactured propaganda we shall not be so easily misled.

This is where "contrary thinking" will help you. Take any public announcement and as you read it take thought to consider the exact opposite meaning. When you have the two sides in mind you can often find an area in between that may be somewhere near the truth of the question being argued or propagandized.

There seems to be some slight indication that our own government is finally recognizing that the only way to overcome the fiendish propaganda of the Russians is to become bold enough to "tell 'em off." We are at long last becoming a little tougher, but we have a long way to go before we take the lead. We still are on the defensive, and so long as we remain on the defensive the Russians will have the edge in their propaganda. If the time ever comes when we're not afraid to come out and tell the Kremlin that we are not going to put up with their big talk any longer —that we are calling the tunes from now on—at that time it will be our propaganda and not theirs that wil make the biggest dent.

We have been outsmarted in every move in the truce talks in Korea. It is only very recently that General Ridgway has tended to be tough, and it is now rather late. If from the beginning we had dictated how, where, and when we would meet to discuss the cease-fire arrangements—or otherwise commence the all-out bombing of China itself—it might well have brought the Communists to terms. The longer the stalemate lasts the more accurate General MacArthur's theories seem to be, in this writer's opinion. And so long as we remain afraid the "enemies" will have the edge in their propaganda.

JACOBY ON BRIDGE

Tourney Play May Call for Over-Bid

BY OSWALD JACOBY
Written for NEA Service

In rubber bridge you seldom deliberately overbid against silent opponents. In tournament bridge, however, you sometimes know that you need unusual results to produce a winning score, and in that case you sometimes bid the cards for a little more than they're really worth, trusting to luck and your good right arm to bring the contract home.

Today's hand was of that nature. South knew he didn't belong in a game contract. To begin with, his hand was a slightly doubtful no-trumper. Moreover, his partner raised to only two no-trump, showing that he lacked the strength to bid all the way to game. But South also knew that he needed a better than average result, so he bid the impossible game.

Incidentally, I should point out

	NORTH	6
	♠ 9 7 4 2 ♥ J 3 2 ♦ A 10 8 3 ♣ K 7	
WEST		EAST
♠ Q J 3 ♥ K 10 4 ♦ Q 7 6 4 2 ♣ 9 3		♠ K 10 8 ♥ 9 7 6 ♦ 9 5 ♣ A J 10 5 4
	SOUTH (D) ♠ A 6 5 ♥ A Q 8 5 ♦ K J ♣ Q 8 6 2	

Both sides vul

South	West	North	East
1 N.-T	Pass	2 ♣	Pass
2 ♥	Pass	2 N.-T	Pass
3 N.-T	Pass	Pass	Pass

Opening lead—♦ 4

that North's response of two clubs was the Stayman Convention, asking South to show a major suit if he had one. South showed the hearts, thereby denying that he had biddable spades. Hence North went back to no-trump.

West led the four of diamonds, and South won with the jack. Declarer next cashed the king of diamonds, followed by the ace of hearts, and a low heart towards dummy. West allowed dummy's jack of hearts to win the second round of that suit, but had to take his king when declarer led a third round of hearts.

The contract could be defeated if West ever led clubs, but he had no way of knowing that. It seemed safe to lead the queen of spades, as indeed it was. East, knowing that he needed a club lead from the West hand, should have put up the king of spades to make sure that he would not eventually be stuck in the lead with a high spade. As it happened, East made the fatal error of playing the eight of spades.

South dropped the six of spades to make the eight look like an encouraging signal. West therefore continued with the jack of spades. Now declarer took the ace of spades, cashed the last heart to discard the ten of diamonds from dummy, and then put East in with a third spade. East had to lead a club, giving dummy the king of clubs. That card was the entry for the ace of diamonds and the last spade, both of which would have withered on the vine if anybody but East had led clubs.

THE RUMINATOR

By HUMPHREY B. NEILL
A Column of Contrary Opinion

Your news-reading this week is so loaded with international events and propaganda that it seemed to the Ruminator it might be a good time to ruminate a little over the subject of propaganda.

The art of propaganda has reached a frightening degree of perfection since the growth of modern dictatorships and the introduction of radio and other means of mass communications. Television is destined to further the power of propaganda.

From studies of crowd psychology we learn that "repetition" and "contagion" are two of the effective psychological forces that influence public opinion. Mass methods of communication afford opportunities for the immediate inoculation of contagious propaganda to whole bodies of people. This brings millions of individuals together so that they become a "crowd." In this manner, the effects of propaganda are incalculbly gerater than they would be were people not brought together. As it is today, the contagion of ideas spreads through the masses as an epidemic spreads through a city and a nation.

Former Doctor Held

New York, Sept. 6 (AP)—A 78-year-old former doctor, with a record of seven previous arrests on charges involving illegal operations, was charged with abortion again today. Police said Samuel Schwartz lost his license to practice medicine after an abortion conviction in 1944. They said his latest arrest resulted from evidence given by a 23-year-old woman who was taken to a hospital Aug. 31. She said she had been treated by Schwartz on Aug. 23.

GREECE SNAPS BACK—With hand tools and plenty of elbow grease, workers at Salonika, Greece, put a newly-arrived steel rail into place to repair one of their many war-damaged lines. A full consignment of rails shipped from Western Europe was unloaded and set into place in one day, dramatizing the return to pre-war efficiency of Greek railroads.

WIND-UP OF A BUM "STEER"—Half a dozen policemen were in at the capture of a 600-pound heifer that escaped from a truck and ran riot in North Philadelphia, Pa. A woman spectator and a policeman were injured before the animal was corralled.

DOGGONE GOOD!—"Dusty," a Boston terrier in St. Petersburg, Fla., can put it on—the "dog," that is—any time he feels like it. Because the pup inherited $50,000 tax-free from his late owner, Mrs. Mary S. Morrow of Clearwater. Friends said Mrs. Morrow made the bequest because she feared Dusty "wouldn't get the calf liver, steaks and pork chops to which he was accustomed." Dusty always turned up his nose at mere dog biscuits, they said.

Law Forgives Woman

New York, Sept. 6 (AP)—The law has forgiven Miss Reba May Havelock, 84-year-old retired schoolteacher who slapped a policeman's face when he intervened in an argument between her and a bank clerk. Miss Havelock's troubles started last Thursday. She cashed a $10 check at a Brooklyn bank. Then the teller realized the check was drawn on the wrong bank. The elderly lady wouldn't give back the money. Patrolman Louis De Lucia intervened, and Miss Havelock slapped his face.

Mother Sees Corpses

Stamford, Conn., Sept. 6 (AP)—The 24-year-old mother who stands accused of killing them as she sought to take her own life last Monday, saw her three little children for the last time today. Mrs. Antonio Sabia stood beside her husband and looked upon their little white coffins in an undertaking home, sobbing: "It can't be true; it can't be true." Then Sheriff Edward Platt and a matron led her away and back to Fairfield county jail in Bridgeport to which she was committed yesterday to await trial for murder.

Seven in Family Die

Sept Iles, Que., Sept. 6 (AP)—Fire wiped out seven members of a family in this port city on the north shore of the St. Lawrence river today. The flames raced through the two story home of Mr. and Mrs. Leger Lapierre, felling them and their five children. Former Doctor Held

New York, Sept. 6 (AP)—A 78-year-old former doctor, with a record of seven previous arrests on charges involving illegal operations, was charged with abortion again today. Police said Samuel Schwartz lost his license to practice medicine after an abortion conviction in 1944. They said his latest arrest resulted from evidence given by a 23-year-old woman who was taken to a hospital Aug. 31. She said she had been treated by Schwartz on Aug. 23.

Convoys Are Aided

Local police assisted in leading two military convoys through the city from the Rondout creek bridge to the city line on East Chester street this morning. A police blotter notice at 6:30 a. m. said there would be from 40 to 50 vehicles in the convoys which were due to go through the city between 7:10 and 8:10 a. m. Officers Gerald Every and Carl Janasiewicz were assigned to lead them.

Card of Thanks

We wish to express our sincere thanks to our many relatives and friends for their expressions of sympathy, and many acts of kindness shown us during our recent bereavement in the death of Barbara Agnes Kelsch. We are also grateful for the loving spiritual care given to the deceased by the Rev. John Schultz and the Rev. Joseph Comyns, C.Ss.R.

DOGGONE GOOD!—"Dusty," a Boston terrier in St. Petersburg, Fla., can put it on—the "dog," that is—any time he feels like it. Because the pup inherited $50,000 tax-free from his late owner, Mrs. Mary S. Morrow of Clearwater. Friends said Mrs. Morrow made the bequest because she feared Dusty "wouldn't get the calf liver, steaks and pork chops to which he was accustomed." Dusty always turned up his nose at mere dog biscuits, they said.

Law Forgives Woman

New York, Sept. 6 (AP)—The law has forgiven Miss Reba May Havelock, 84-year-old retired schoolteacher who slapped a policeman's face when he intervened in an argument between her and a bank clerk. Miss Havelock's troubles started last Thursday. She cashed a $10 check at a Brooklyn bank. Then the teller realized the check was drawn on the wrong bank. The elderly lady wouldn't give back the money. Patrolman Louis De Lucia intervened, and Miss Havelock slapped his face.

Mother Sees Corpses

Stamford, Conn., Sept. 6 (AP)—The 24-year-old mother who stands accused of killing them as she sought to take her own life last Monday, saw her three little children for the last time today. Mrs. Antonio Sabia stood beside her husband and looked upon their little white coffins in an undertaking home, sobbing: "It can't be true; it can't be true." Then Sheriff Edward Platt and a matron led her away and back to Fairfield county jail in Bridgeport to which she was committed yesterday to await trial for murder.

Seven in Family Die

Sept Iles, Que., Sept. 6 (AP)—Fire wiped out seven members of a family in this port city on the north shore of the St. Lawrence river today. The flames raced through the two story home of Mr. and Mrs. Leger Lapierre, felling them and their five children. The fire was well under way before it was detected by residents of this booming town 250 miles northeast of Quebec. They poured water on neighboring homes threatened by the flames.

The great, white, man-eating shark is known to reach a length of 40 feet.

Probing Bomber Crash

Quonset Point, R. I., Sept. 6 (AP)—A naval board of inquiry convened today at the naval air station to conduct an investigation of the crash and explosion of a patrol bomber Tuesday night off Montauk Point, L. I., with a loss of its entire crew of seven. Members of the crew of a submarine with which the plane had been engaged on a night exercise were being questioned.

May Reduce Gas Rates

Albany, N. Y., Sept. 6 (AP)—The Public Service Commission today authorized the Consolidated Edison Co. of New York to reduce its gas rates in Westchester county by approximately $2,200,000 annually. The company had applied for the reduction, which will affect its 170,000 customers in the area in the first regular meter reading period after Sept. 30.

Girl Wins Contest

Syracuse, N. Y., Sept. 6 (AP)—Peteranne Baker, 16, of Castile, will represent New York state in the National 4-H Club vegetable preparation contest. She won the demonstration at the state fair yesterday and received $50 for her three salads. The national competition will be Dec. 9-13 in Cleveland.

Education Board To Inspect No. 5 Prior to Meeting

A regular meeting of the board of education will be held this evening at 8:15 at the high school. This is the first meeting since the opening of schools and routine business will be transacted and a report will be made on bids which were opened on Wednesday for construction of a field house or auditorium for physical education programs adjacent to the high school.

Prior to the meeting members of the board will visit School No. 5 and inspect the reconditioned building which has been opened following a disastrous fire in the building last spring.

Two bids for the general contract were received Wednesday and there were three bids each for the electrical work, heating and ventilating and for the plumbing work. All of the bids were considerably higher than anticipated. Following the opening of the bids a study was made of the base bids and of the numerous alternates. If this work is completed by this evening the board may take action on the project.

MODENA

Modena, Sept. 5 — A guest preacher will occupy the pulpit at the Modena Methodist Church Sunday, Sept. 9.

Mrs. Edith Coy Paltridge, wife of Eugene Paltridge, of the Ardonia section died Sunday, Sept. 2. A member of the Modena Methodist Church and Plattekill Grange, and former Modena Home Bureau member, she was active in secular and social activities of every type. Funeral services were conducted Wednesday at 2 p. m. in the Sutton Funeral Chapel, with burial in the Modena Rural Cemetery.

Mr. and Mrs. Nelson G. Hedges, Mr. and Mrs. Burton Ward and Eber Coy were recent visitors of Mr. and Mrs. Edward Jacoby and family at LaGrangeville.

Mrs. Grace Alsdorf was a dinner guest of Mr. and Mrs. Ernest Alsdorf and daughter Sunday.

Week-end guests of Mr. and Mrs. John Schedinger were Harry Schedinger of Rockaway Beach, L. I., Tom Lyons, Jersey City, N. J., and Tom Mulvihill, Brooklyn.

Oliver C. DuBois, of the New Paltz road, is a patient at the Kingston Hospital.

Mrs. Freston Paltridge accompanied Mr. and Mrs. Solie Bernard and children of Poughkeepsie to Mrs. A. D. Wager and daughter's home Saturday.

Mr. and Mrs. William Schedinger returned to their home in Ozone Park, L. I. Tuesday, after spending several days with Mr. and Mrs. John Shedinger.

Mr. and Mrs. William Fowler entertained as week-end and holiday guests Mr. and Mrs. Harry Blum and family of Kew Gardens.

Mr. and Mrs. William Palmer of Long Island were recent visitors of relatives and friends here.

Mr. and Mrs. Roy C. Davis of Lloyd visited Mrs. A. D. Wager and daughter Sunday afternoon.

Mrs. Harry Olivett and daughter Karen of Pleasant Valley were recent visitors of Mrs. Edythe Ackhart, Clitondale section.

Recent visitors at the Schedinger home were Mr. and Mrs. Herman Quick, Sr., of Pataukunk, their grandaughter, Susan Quick of Leibhardt, Mrs. Jerry Quick, her parents, and her son Jerry, of Napanoch.

Robert DuBois arrived in town unexpectedly Sunday from the U. S. Army base in Oklahoma for an overnight visit with his parents, Mr. and Mrs. Simon DuBois. He made the trip by plane to Mitchell Field, L. I. from the southern base.

$3,600 Is Collected

The city treasurer's office today reported a total of $3,600 collected from the city's parking meters during August. This is $200 more than the July collections and the same as was collected in August, 1950. The total to date this year is $24,00[illegible].

Mother Has First Look at Baby

Mrs. Bernice Sturnolo of Saugus, Mass., has first look at her baby daughter Joan held by Nurse Shirley Belding in Lynn, Mass., Hospital. Mrs. Sturnolo was wounded in the abdomen by a bullet accidentally fired in a house across the street which came through the wall of the Sturnolo home. She was rushed to the hospital where doctors promptly performed a Caesarian operation to deliver the baby. Later a second operation will be necessary to remove the bullet. (AP Wirephoto).

New Cantor

Cantor Jack Bornstein will begin his duties as cantor-educator in Temple Emanuel on Friday evening. He will take charge of the musical life of the congregation and will be head of the religious and Hebrew school of the Temple. A volunteer choir will be organized and youth services will be instituted. The regular choir of the Temple will still function. Spiritually moving services are assured throughout the season according to Rabbi Herbert I. Bloom. The public is cordially invited to attend. The season of worship is opening under happy auspices and the congregation welcomes Cantor Bornstein as musical mentor and educator, the rabbi said.

Fire Destroys Auto, Damages Part of Garage

Fire of uncertain origin destroyed an automobile and damaged the interior and front part of a garage owned by John T. Quest of Esopus avenue on Wednesday afternoon.

Ulster Hose Company was summoned about 4 p. m. Firemen were able to save the major portion of the garage. The fire apparently originated in the automobile, which was destroyed, according to Fire Chief Joseph Dyer.

An investigation to find the cause of the fire is being conducted for the sheriff's office by Undersheriff Clayton Vredenburg and Identification Officer Arthur H. Brown. A preliminary investigation Wednesday afternoon was conducted by Deputy Sheriff Delbert Sapp.

Donations Sought To Beautify Old Church Landmark

Plattekill, Sept. 6 — Efforts of the Grange to raise money for repair and painting of the Friends Meeting House on Old Mill road, have blossomed into an appeal for public funds to enhance the building a characteristic symbol of the town.

Mrs. William Miller, chairman of the appeal, said it is being made not denominationaliy or even on religious grounds, but solely in the spirit of community significance. She stressed that the church is regarded as the expression of the Quaker epoch and pointed out that it adorns the town with its attractive grounds.

Donations may be sent to the Rev. Edgar Gaynis, pastor of the Methodist Church, Mrs. William Miller, or Ralph Birdsall, treasurer of Quaker Cemetery Association. Those sending checks may make them payable to Plattekill Grange.

Three Are Arrested In Columbia Area

Hudson, N. Y., Sept. 6 (AP)—Two men and a woman have been arrested on indictments returned by a Columbia County Grand Jury investigating gambling.

Edward Dillon, Hudson restaurant proprietor, was arrested yesterday on charges of contriving, drawing and assisting in a lottery, a felony, and of keeping a lottery office, a misdemeanor.

Nicholas Marra, Jr., and his wife, Mrs. Elizabeth Rhea Marra, of Columbiaville, were charged with keeping a place for a game of policy, a misdemeanor.

Dillon and the Marras pleaded innocent when arraigned before County Judge William E. J. Connor. They were released in $500 bail each.

The Crime Commission investigators questioned nine persons yesterday. They included Earl Colwell, a former mayor of Hudson and Vincent Jarmoska, president of the Hudson Common Council.

$3,600 Is Collected

The city treasurer's office today reported a total of $3,600 collected from the city's parking meters during August. This is $200 more than the July collections and the same as was collected in August, 1950. The total to date this year is $24,000.

Mother Has First Look at Baby

Mrs. Bernice Sturnolo of Saugus, Mass., has first look at her baby daughter Joan held by Nurse Shirley Belding in Lynn, Mass., Hospital. Mrs. Sturnolo was wounded in the abdomen by a bullet accidentally fired in a house across the street which came through the wall of the Sturnolo home. She was rushed to the hospital where doctors promptly performed a Caesarian operation to deliver the baby. Later a second operation will be necessary to remove the bullet. (AP Wirephoto).

New Cantor

Cantor Jack Bornstein will begin his duties as cantor-educator in Temple Emanuel on Friday evening. He will take charge of the musical life of the congregation and will be head of the religious and Hebrew school of the Temple. A volunteer choir will be organized and youth services will be instituted. The regular choir of the Temple will still function. Spiritually moving services are assured throughout the season according to Rabbi Herbert I. Bloom. The public is cordially invited to attend. The season of worship is opening under happy auspices and the congregation welcomes Cantor Bornstein as musical mentor and educator, the rabbi said.

Fire Destroys Auto, Damages Part of Garage

Fire of uncertain origin destroyed an automobile and damaged the interior and front part of a garage owned by John T. Quest of Esopus avenue on Wednesday afternoon.

Ulster Hose Company was summoned about 4 p. m. Firemen were able to save the major portion of the garage. The fire apparently originated in the automobile, which was destroyed, according to Fire Chief Joseph Dyer.

An investigation to find the cause of the fire is being conducted for the sheriff's office by Undersheriff Clayton Vredenburg and Identification Officer Arthur H. Brown. A preliminary investigation Wednesday afternoon was conducted by Deputy Sheriff Delbert Sapp.

Donations Sought To Beautify Old Church Landmark

Plattekill, Sept. 6 — Efforts of the Grange to raise money for repair and painting of the Friends Meeting House on Old Mill road, have blossomed into an appeal for public funds to enhance the building a characteristic symbol of the town.

Mrs. William Miller, chairman of the appeal, said it is being made not denominationally or even on religious grounds, but solely in the spirit of community significance. She stressed that the church is regarded as the expression of the Quaker epoch and pointed out that it adorns the town with its attractive grounds.

Donations may be sent to the Rev. Edgar Gaynis, pastor of the Methodist Church, Mrs. William Miller, or Ralph Birdsall, treasurer of Quaker Cemetery Association. Those sending checks may make them payable to Plattekill Grange.

Three Are Arrested In Columbia Area

Hudson, N. Y., Sept. 6 (AP)—Two men and a woman have been arrested on indictments returned by a Columbia County Grand Jury investigating gambling.

Edward Dillon, Hudson restaurant proprietor, was arrested yesterday on charges of contriving, drawing and assisting in a lottery, a felony, and of keeping a lottery office, a misdemeanor.

Nicholas Marra, Jr., and his wife, Mrs. Elizabeth Rhea Marra, of Columbiaville, were charged with keeping a place for a game of policy, a misdemeanor.

Dillon and the Marras pleaded innocent when arraigned before County Judge William E. J. Connor. They were released in $500 bail each.

The Crime Commission investigators questioned nine persons yesterday. They included Earl Colwell, a former mayor of Hudson and Vincent Jarmoska, president of the Hudson Common Council.

Travel Is Heavier On Three Bridges

August travel over the three Hudson river bridges under control of the New York State Bridge Authority was 11.47 per cent above that for the same month in 1950, the authority reported today.

The total for all bridges was 774,386 vehicles as compared to 694,690 in August, 1950, and the Rip Van Winkle bridge clocked the highest percentage gain, 15.81 or 28,655 vehicles above a year ago. That bridge carried 209,987 vehicles as compared to 181,242 in August, 1950.

The Bear Mountain bridge showed a percentage gain of 11.65 or 21,715 vehicles. It carried 208,057 vehicles this year and 186,342 a year ago.

A gain of 8.97 per cent was clocked at the Mid-Hudson bridge which carried 29,326 more vehicles than a year ago. The totals were 356,432 this year and 327,106 last year.

The Kingston-Rhinecliff ferry carried 1,218 more vehicles with totals of 15,592 and 14,374, and 254 more pedestrian passengers with totals of 4,900 and 4,646.

Murphy Issues 50 Permits in August

Fire Chief Joseph L. Murphy issued 50 permits for building and alterations in August representing a total estimated cost of $148,509.

This was eight permits and $5,767 below the July totals.

Eight permits were issued for new residential structures at $73,200 and nine for resident and mercantile at $83,200.

Other permits included 11 for non-residential structures at $11,600. These included permits for eight private garages at an estimated total cost of $9,500, and one for an office building at $2,000.

The chief issued 19 permits for alterations, additions and repairs at an estimated cost of $14,209. These included four permits for work on non-residential structures. Eight permits were issued for oil burners and tanks, and one for a gas tank at a total of $4,500.

Insect damages to stored grain causes an annual loss of from 300 to 600 millions of bushels of grain each year, according to estimates by the U. S. Department of Agriculture.

Pelican Passenger Says Craft Seemed More Crowded

New York, Sept. 6 (AP)—A frequent passenger aboard the fishing boat Pelican, capsized by a riptide last Saturday off Montauk Point, says the 45-foot craft seemed more crowded on its ill-fated trip.

Stanley Olszewski of the Bronx, one of the 19 survivors of the tragedy, yesterday told a Coast Guard inquiry that it was his fifth excursion on the Pelican and that "she seemed more crowded" than ever before.

He also testified that Capt. Edward Carroll — among the 17 officially missing — had trouble with the boat's port engine.

"I heard the captain say 'there is no sense in staying out here,' that the weather was getting rough and that we would have trouble enough with the engine," the witness said.

Olszewski said he could not state definitely whether the port engine ever got started before the Pelican capsized, but added, "from time to time I thought I heard him (Carroll) trying to start it."

He confirmed earlier testimony that most of the passengers were crowded on the port side and that no orders were given to don life jackets.

The 20th known Pelican victim was found yesterday by the fishing vessel Sally Ann, cruising four miles northwest of Montauk Point, off Long Island's eastern tip. The body was identified as that of William Mellardo of the Bronx.

Fifty-six passengers were reported aboard the Pelican. The names of four amateur fishermen, missing from their homes since Saturday, have been added unofficially to the list. This raised the possibility that 41, and not 37 persons, perished when the Pelican overturned.

The hearing before the three-man board continues today at noon (EST).

Gets Education Post

Albany, N. Y., Sept. 6 (AP)—Claude L. Kulp, superintendent of Ithaca public schools since 1930, today was appointed associate state commissioner of education for elementary, secondary and adult education. His appointment to the $14,000-a-year post was announced by Dr. Lewis A. Wilson, state education commissioner. Kulp succeeds Harry V. Gilson, who resigned Aug. 31 to become education director of the National Society for Crippled Children and Adults. Kulp, 57, is a past president of the State Teachers Association and State Council of City and Village Superintendents of Schools.

Pelican Passenger Says Craft Seemed More Crowded

New York, Sept. 6 (AP)—A frequent passenger aboard the fishing boat Pelican, capsized by a riptide last Saturday off Montauk Point, says the 45-foot craft seemed more crowded on its ill-fated trip.

Stanley Olszewski of the Bronx, one of the 19 survivors of the tragedy, yesterday told a Coast Guard inquiry that it was his fifth excursion on the Pelican and that "she seemed more crowded" than ever before.

He also testified that Capt. Edward Carroll — among the 17 officially missing — had trouble with the boat's port engine.

"I heard the captain say 'there is no sense in staying out here,' that the weather was getting rough and that we would have trouble enough with the engine," the witness said.

Olszewski said he could not state definitely whether the port engine ever got started before the Pelican capsized, but added, "from time to time I thought I heard him (Carroll) trying to start it."

He confirmed earlier testimony that most of the passengers were crowded on the port side and that no orders were given to don life jackets.

The 20th known Pelican victim was found yesterday by the fishing vessel Sally Ann, cruising four miles northwest of Montauk Point, off Long Island's eastern tip. The body was identified as that of William Mellardo of the Bronx.

Fifty-six passengers were reported aboard the Pelican. The names of four amateur fishermen, missing from their homes since Saturday, have been added unofficially to the list. This raised the possibility that 41, and not 37 persons, perished when the Pelican overturned.

The hearing before the three-man board continues today at noon (EST).

Gets Education Post

Albany, N. Y., Sept. 6 (AP)—Claude L. Kulp, superintendent of Ithaca public schools since 1930, today was appointed associate state commissioner of education for elementary, secondary and adult education. His appointment to the $14,000-a-year post was announced by Dr. Lewis A. Wilson, state education commissioner. Kulp succeeds Harry V. Gilson, who resigned Aug. 31 to become education director of the National Society for Crippled Children and Adults. Kulp, 57, is a past president of the State Teachers Association and State Council of City and Village Superintendents of Schools.

Pelican Passenger Says Craft Seemed More Crowded

New York, Sept. 6 (AP)—A frequent passenger aboard the fishing boat Pelican, capsized by a riptide last Saturday off Montauk Point, says the 45-foot craft seemed more crowded on its ill-fated trip.

Stanley Olszewski of the Bronx, one of the 19 survivors of the tragedy, yesterday told a Coast Guard inquiry that it was his fifth excursion on the Pelican and that "she seemed more crowded" than ever before.

He also testified that Capt. Edward Carroll — among the 17 officially missing — had trouble with the boat's port engine.

"I heard the captain say 'there is no sense in staying out here,' that the weather was getting rough and that we would have trouble enough with the engine," the witness said.

Olszewski said he could not state definitely whether the port engine ever got started before the Pelican capsized, but added, "from time to time I thought I heard him (Carroll) trying to start it."

He confirmed earlier testimony that most of the passengers were crowded on the port side and that no orders were given to don life jackets.

The 20th known Pelican victim was found yesterday by the fishing vessel Sally Ann, cruising four miles northwest of Montauk Point, off Long Island's eastern tip. The body was identified as that of William Mellardo of the Bronx.

Fifty-six passengers were reported aboard the Pelican. The names of four amateur fishermen, missing from their homes since Saturday, have been added unofficially to the list. This raised the possibility that 41, and not 37 persons, perished when the Pelican overturned.

The hearing before the three-man board continues today at noon (EST).

Gets Education Post

Albany, N. Y., Sept. 6 (AP)—Claude L. Kulp, superintendent of Ithaca public schools since 1930, today was appointed associate state commissioner of education for elementary, secondary and adult education. His appointment to the $14,000-a-year post was announced by Dr. Lewis A. Wilson, state education commissioner. Kulp succeeds Harry V. Gilson, who resigned Aug. 31 to become education director of the National Society for Crippled Children and Adults. Kulp, 57, is a past president of the State Teachers Association and State Council of City and Village Superintendents of Schools.

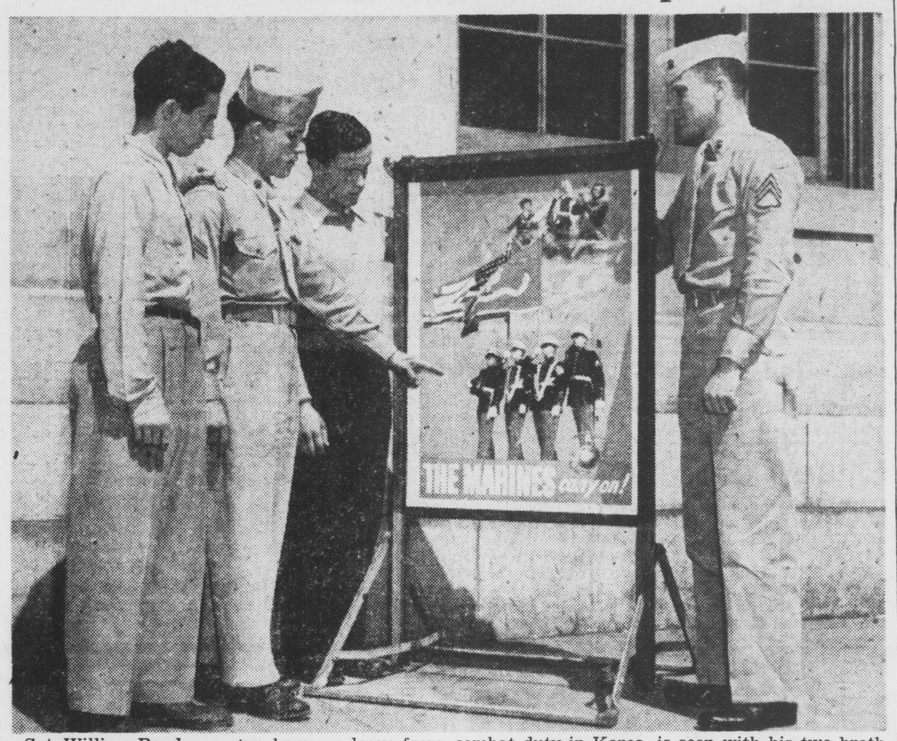
To Follow in Brother's Footsteps



Sgt. William Bandes, center, home on leave from combat duty in Korea, is seen with his two brothers, Joseph and John Bandes, of Eddyville, who have enlisted for service in the Marine Corps. They volunteered for service after talking with their brother who spent 10 months with the famed First Marine Division in Korea. Staff Sergeant Charles Awkerman, extreme right, head of the local Marine Recruiting Office, who completed details for the enlisting of the two Leathernecks, looks on approvingly. *(Freeman Photo)*

Home on Leave, Korean Vet Gets Brothers to Sign

Marine Sergeant William Bandes, 20, son of Mrs. Mary J. Bandes, Eddyville, recently returned from Korea where he spent 10 months with the famed First Marine Division. He was wounded in the Korean fighting and is a recipient of the Purple Heart. At present, the sergeant is spending a long deserved leave and rest with his mother and friends of this area.

From all reports and results Sgt. Bandes would make a fine recruiting sergeant. After arriving home, the sergeant's brother, Joseph Bandes, 20, and his younger brother, John Bandes, 17, have decided to follow in their brother's footsteps by enlisting in the Marines. The sergeant's two brothers will leave here next week to begin their Marine Corps career by taking their basic training at Parris Island, S. C.

Gives Timely Advice

The sergeant had some timely advice for his two brothers when they made application at the Kingston Marine Corps Recruiting office. He told them to keep their eyes and ears open for the training and schooling they will first receive at Paris Island is the best military training a young man can get. The things they learn well in "boot camp" will help influence their Marine Corps career and aid them greatly later, not only in the Marines but in civilian life as well, he advised.

Sgt. Bandes enlisted in the Marines in April, 1948, and took his recruit training at Parris Island. After completion of basic training, the sergeant was assigned duty with the Second Marine Division at Camp Lejeune, N. C. While with the Second Division, he served six months in the Mediterranean area training on advanced amphibious operations with the Fleet Marine Force.

Sgt. Bandes was transferred from the Second Division to the First Regiment, First Marine Division fighting in Korea in September, 1950. He participated in that division's operations and engagements against the enemy till he was wounded this past spring after which he was hospitalized and returned to the United States.

Sgt. Bandes is quoted as saying, "Mother Nature is as real an enemy with her sub-zero Korean winters as the Communists themselves. It wasn't that we didn't have warm clothing. Our winter clothing and equipment is the best but when it's 20 and 30 degrees below zero, it's just plain rough going."

The Eddyville leatherneck is entitled to wear the following ribbons: the Purple Heart, the Presidential Unit Citation awarded the First Marine Division for its performance in action in the Korean War, the Korean Campaign Ribbon with three stars, and the Good Conduct ribbon.

Sgt. Bandes will report to the Marine Base at Quantico, Va., following his leave.

Mrs. Thorwald Tonnesen and son, Richard, have returned home from a visit to Dunkirk.

Mr. and Mrs. George Adams have returned from a vacation in Long Island.

Pfc. Glenford Plass of Fort Ord, Calif., is spending a furlough with his parents, Mr. and Mrs. John Plass.

Will Hold Hearings

Albany, N. Y., Sept. 6 (AP)—The State Motor Vehicle Bureau will hold public hearings this month on proposed regulations to cover transportation of "dangerous articles" and the hauling of logs. The hearings will be held in New York city Sept. 10 and in Utica Sept. 14. Laws covering transportation of dangerous articles and logs were passed by the 1951 Legislature, and went into effect July 1. The bills provided that the motor vehicle commissioner promulgate regulations for each, and specified that public hearings be held prior to making the regulations effective.

Men Are Banned

London, Sept. 6 (AP)—A London department store banned men from its fashion shows today because they were crowding out the women. An official at C. and A. Modes said all 600 seats will be reserved for women. "If a man arrives with his wife or girl friend, he will be politely asked to wait outside," he said.

LEIBHARDT

Leibhardt, Sept. 5—The district school reopened Tuesday with Mrs. Arthur Crose of Kerhonkson as teacher.

Henry Quick attended the Dutchess County Fair in Rhinebeck last week.

Mr. and Mrs. Louis Radish and son, Harold and wife of Brooklyn, visited their cousins, Mr. and Mrs. Ben Pollack, for a day recently.

Mr. and Mrs. Nick Kunz of Auburn have been spending several days at the home of Mrs. Celia Kelder of Tobasco.

Boy Scout News

Dennis Attending Liberty Program Held in Michigan

Among scout executives attending the ninth national training conference at Michigan State College is George V. Dennis of Kingston, who represents Rip Van Winkle Council, Boy Scouts of America.

With Dennis are 2,200 executives from all of the 48 states, Alaska, Canal Zone, Puerto Rico and the Hawaiian Islands, all full-time professional leaders in Scouting, who will remain in East Lansing, Mich., for the week's program.

They will discuss the methods of training youth in America as contrasted with those in the iron curtain countries.

The conference, according to Dr. Arthur A. Schuck, chief scout executive, "will study and launch a three-year program known as Forward on Liberty's Team through which scouting will seek to make Democracy an even more dynamic force in American life than ever before."

Points to Slavery

Referring to the recent Communist youth festival attended by a million boys and girls from Soviet-occupied Germany, he said that event "showed how the youth of iron curtain countries are being utilized by a totalitarian regime to do their master's bidding in a cause that spells slavery and death."

"The nations of the world," he continued, "stand at a crossroad. One turning leads to the freedom for which our country stands. The influence and example of the free peoples of the world may well decide the destiny of humanity.

"The Boy Scouts of America is in a position to tip the scales in the direction of liberty."

To Help Freedom Ring

Dr. Schuck stressed that "in the next three years we will try to reach every possible boy through Scouting to exert the greatest possible influence toward freedom. We will not only let freedom ring, but more than that, help freedom ring."

Throughout the conference there will be elective subjects, discussion groups, guest speakers, exhibits and special program.

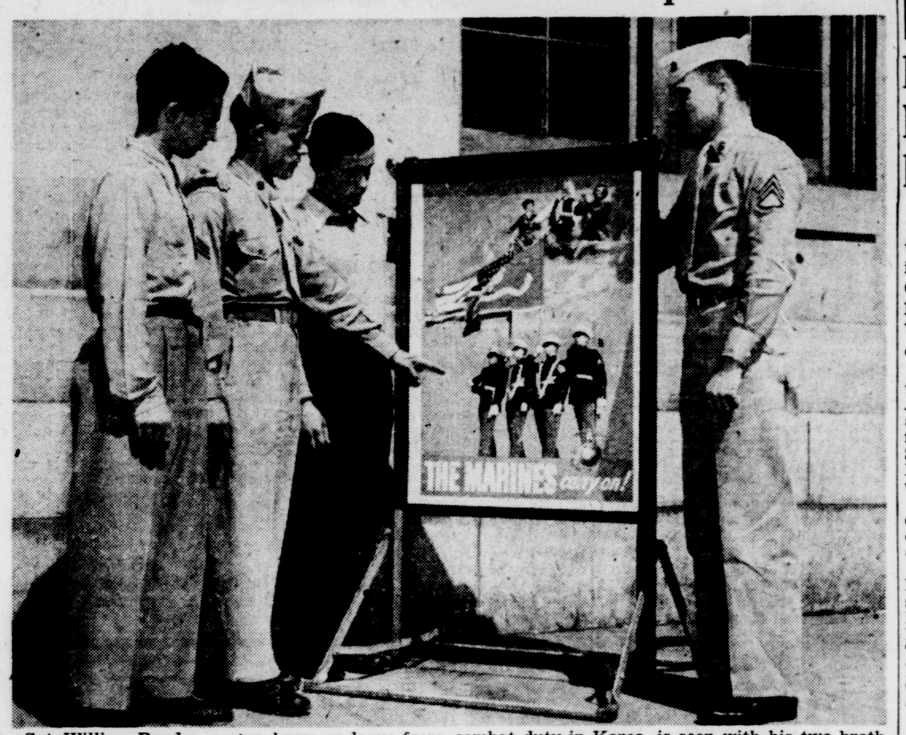
To Follow in Brother's Footsteps



Sgt. William Bandes, center, home on leave from combat duty in Korea, is seen with his two brothers, Joseph and John Bandes, of Eddyville, who have enlisted for service in the Marine Corps. They volunteered for service after talking with their brother who spent 10 months with the famed First Marine Division in Korea. Staff Sergeant Charles Awkerman, extreme right, head of the local Marine Recruiting Office, who completed details for the enlisting of the two Leathernecks, looks on approvingly. *(Freeman Photo)*

Home on Leave, Korean Vet Gets Brothers to Sign

Marine Sergeant William Bandes, 20, son of Mrs. Mary J. Bandes, Eddyville, recently returned from Korea where he spent 10 months with the famed First Marine Division. He was wounded in the Korean fighting and is a recipient of the Purple Heart. At present, the sergeant is spending a long deserved leave and rest with his mother and friends of this area.

From all reports and results Sgt. Bandes would make a fine recruiting sergeant. After arriving home, the sergeant's brother, Joseph Bandes, 20, and his younger brother, John Bandes, 17, have decided to follow in their brother's footsteps by enlisting in the Marines. The sergeant's two brothers will leave here next week to begin their Marine Corps career by taking their basic training at Parris Island, S. C.

Gives Timely Advice

The sergeant had some timely advice for his two brothers when they made application at the Kingston Marine Corps Recruiting office. He told them to keep their eyes and ears open for the training and schooling they will first receive at Paris Island is the best military training a young man can get. The things they learn well in "boot camp" will help influence their Marine Corps career and aid them greatly later, not only in the Marines but in civilian life as well, he advised.

Sgt. Bandes enlisted in the Marines in April, 1948, and took his recruit training at Parris Island. After completion of basic training, the sergeant was assigned duty with the Second Marine Division at Camp Lejeune, N. C. While with the Second Division, he served six months in the Mediterranean area training on advanced amphibious operations with the Fleet Marine Force.

Sgt. Bandes was transferred from the Second Division to the First Regiment, First Marine Division fighting in Korea in September, 1950. He participated in that division's operations and engagements against the enemy till he was wounded this past spring after which he was hospitalized and returned to the United States.

Sgt. Bandes is quoted as saying, "Mother Nature is as real an enemy with her sub-zero Korean winters as the Communists themselves. It wasn't that we didn't have warm clothing. Our winter clothing and equipment is the best but when it's 20 and 30 degrees below zero, it's just plain rough going."

The Eddyville leatherneck is entitled to wear the following ribbons: the Purple Heart, the Presidential Unit Citation awarded the First Marine Division for its performance in action in the Korean War, the Korean Campaign Ribbon with three stars, and the Good Conduct ribbon.

Sgt. Bandes will report to the Marine Base at Quantico, Va., following his leave.

Will Hold Hearings

Albany, N. Y., Sept. 6 (AP)—The State Motor Vehicle Bureau will hold public hearings this month on proposed regulations to cover transportation of "dangerous articles" and the hauling of logs. The hearings will be held in New York city Sept. 10 and in Utica Sept. 14. Laws covering transportation of dangerous articles and logs were passed by the 1951 Legislature, and went into effect July 1. The bills provided that the motor vehicle commissioner promulgate regulations for each, and specified that public hearings be held prior to making the regulations effective.

Men Are Banned

London, Sept. 6 (AP)—A London department store banned men from its fashion shows today because they were crowding out the women. An official at C. and A. Modes said all 600 seats will be reserved for women. "If a man arrives with his wife or girl friend, he will be politely asked to wait outside," he said.

Dennis Attending Liberty Program Held in Michigan

Among scout executives attending the ninth national training conference at Michigan State College is George V. Dennis of Kingston, who represents Rip Van Winkle Council, Boy Scouts of America.

With Dennis are 2,200 executives from all of the 48 states, Alaska, Canal Zone, Puerto Rico and the Hawaiian Islands, all full-time professional leaders in Scouting, who will remain in East Lansing, Mich., for the week's program.

They will discuss the methods of training youth in America as contrasted with those in the iron curtain countries.

The conference, according to Dr. Arthur A. Schuck, chief scout executive, "will study and launch a three-year program known as Forward on Liberty's Team through which scouting will seek to make Democracy an even more dynamic force in American life than ever before."

Points to Slavery

Referring to the recent Communist youth festival attended by a million boys and girls from Soviet-occupied Germany, he said that event "showed how the youth of iron curtain countries are being utilized by a totalitarian regime to do their master's bidding in a cause that spells slavery and death."

"The nations of the world," he continued, "stand at a crossroad. One turning leads to the freedom for which our country stands. The influence and example of the free peoples of the world may well decide the destiny of humanity.

"The Boy Scouts of America is in a position to tip the scales in the direction of liberty."

To Help Freedom Ring

Dr. Schuck stressed that "in the next three years we will try to reach every possible boy through Scouting to exert the greatest possible influence toward freedom. We will not only let freedom ring, but more than that, help freedom ring."

Throughout the conference there will be elective subjects, discussion groups, guest speakers, exhibits and special program.

Amputee Praises Red Cross Aid to Veterans, Families

What the Red Cross Means to Me, was the subject of a talk given by Leland H. Shaw, director of the Dutchess County Veterans Service Agency, at the annual dinner meeting of Ulster County Chapter, American Red Cross at the Old First Dutch Reformed Church last night.

Shaw, an attorney who saw three years of service with the armed forces during World War 2, spoke with authority. A first lieutenant in a reconnaissance unit operating with an artillery unit, he wears the Silver Star and Purple Heart and on his ETO ribbon two bronze stars for participation in the Normandy invasion and the southern France campaign. While operating ahead of the artillery at St. Lo, Lieutenant Shaw was very severly wounded by enemy fire. As a result he was evacuated to a hospital where it became necessary to amputate both legs.

Prior to his entrance into service Lieutenant Shaw said he looked upon Red Cross as an organization standing ready to lend aid in an emergency or disaster, but an organization somewhat "dormant." His war experiences brought home to him the real meaning of Red Cross and since the war he found the Red Cross active in many fields in every day life. He referred to the comforts which were provided soldiers in the field, of the emergency aid given, of the assistance given in prosecuting pension claims, hospital activities and assistance in bringing war brides to the states.

In a dramatic manner he reviewed what the Red Cross had done for a man suddenly snatched from civil life and thrust into the army. "How do I know these facts are true?" Lieutenant Shaw asked the audience, "I know for I was that man."

Prior to Lieutenant Shaw's talk a roast beef dinner was served by the ladies of the Old Dutch Church. The meeting was opened with an invocation by the Rev. J. Dean Dykstra, a member of the board of directors. Chairman G. Wallace Codwise presided at the business session and introduced the speaker.

Receives Certificate

Mrs. Charlotte W. Tappen, secretary, on behalf of the Ulster County Chapter presented a Certificate of Appreciation from the National Headquarters to Mrs. Samuel J. Adams of Saugerties in recognition of her outstanding Red Cross volunteer services.

Mrs. Adams is Chapter vice-president, chairman of the Town of Saugerties Branch, an active member of the board of directors of the Ulster County Chapter and the executive committee, and a first aid instructor. It was through her efforts that the children of Saugerties are now able to swim in protected waters and receive Red Cross swimming instruction. During World War 2 Mrs. Adams played an active part in the blood bank program there.

The Rev. Mr. Dykstra suggested to the nomination committee the following names for re-election to the board of directors for three year terms: Walter T. Tremper, Harry Gold, the Rev. William C. Cain, Frederick Hoffman and Mrs. Joseph Jacobson. The following names were suggested by the committee for election to the executive committee: C. E. Burnett, Ernest Steuding, Dr. Habeeb Maroon, Mrs. Harold Osterhoudt, Oscar Lawatsch, Herbert Thomas, Mrs. Frank Thompson, M. Donald Lane. Those suggested by the nominating committee were elected.

The election of officers for the Chapter will take place at the next meeting of the board of directors.

Annual reports of the officers and various committees, as well as the chapter branches, were distributed in printed form to the members present. Approximately 100 attended.

Present officers are: Chairman, G. Wallace Codwise; vice-chairmen, Alexander B. Shufeldt and Mrs. Samuel J. Adams; treasurer, Robert C. Murray; secretary, Mrs. Charlotte W. Tappen.

Branch chairmen are: Ellenville, Mrs. J. Harry Hart; Highland, Mrs. Robert H. Cummins; Saugerties, Mrs. Samuel J. Adams; Wallkill, Mrs. Addison D. Crowell; Woodstock, Mrs. Montcena DeWitt.

Members of the executive committee are: G. Wallace Codwise, chairman; Mrs. Samuel J. Hearing Put Off, Connelly Nursing Injuries at Home

Corporation Counsel James G. Connelly is at his home today nursing injuries to his ankle suffered yesterday at Catskill while en route to Albany where a hearing was scheduled before the State Education Department on the Town of Ulster School District No. 8 protest to increased tuition for students from that district who attend Kingston schools.

Clarence Rowland, president of the board of education, received injuries to his arm and leg and Superintendent of Schools Arthur J. Laidlaw was injured about the head and chest. Both Mr. Rowland and Mr. Laidlaw were at business today.

The accident happened at the intersection of route 9-W and route 32 where the Cairo road crosses route 9-W to enter the business section of Catskill by means of a viaduct. Mr. Rowland was driving north on 9-W and a car operated by Mrs. Alta Wardwell of Yonkers, accompanied by her son, entered route 9-W from the east after crossing the viaduct. Police said Mrs. Wardwell became confused at the intersection.

Following the accident Mrs. Wardwell was treated for shock at the Greene County Memorial Hospital at Catskill.

The State Education Department was notified of the accident and the hearing was posptoned. No date has been set for the hearing.

Ultimatum Hits Snag

Tehran, Iran, Sept. 6 (AP)—Premier Mohammed Mossadegh's proposed ultimatum to Britain on the stalled oil talks struck a snag today when more than half the members of the Lower House of Parliament boycotted a session called to approve the premier's policy. The ultimatum would give the British two weeks to reopen talks on the nationalization of the billion-dollar Anglo-Iranian Oil Company's properties. If they refused, Iran would expel 350 British technicians remaining at the company's giant refinery at Abadan. After vainly trying to round up the missing deputies for two hours, Mossadegh postponed the session until Sunday.

Shipping Is Menaced

Miami, Fla., Sept. 6 (AP)—Shipping lanes were menaced today by two hurricanes whirling westward across the Atlantic, but neither was in position to arouse any immediate concern to land areas. The nearest, and most dangerous, was reported by the Miami Weather Bureau at 5 a. m. (EST) to be about 480 miles eastnortheast of San Juan, Puerto Rico, and traveling a westward course at 20 miles an hour. Winds of 135 miles an hour were reported at the center of the storm and weather forecasters said it was expected to grow more powerful. Warnings went out to ships at sea to avoid it.

Erie GOP Head Collapses at Home FromAttackStrain

Buffalo, N. Y., Sept. 6 (AP)—Harry J. Forhead, Republican county chairman who has been under heavy political attack recently, was in the hospital today following a collapse at his home.

Forhead, about 44 years old, collapsed yesterday at his home. His physician ordered him to Millard Fillmore Hospital for a rest and a checkup of his heart.

Forhead's wife, Ethel, said the collapse was caused by "the tremendous strain to which he has been subjected in the last several months."

She added:

"The viciousness of the personal attacks made upon him and his determination to do the best job possible for the Republican Party have had a noticeable effect upon him."

Forhead has been under constant pressure from party sources to resign as GOP chairman of Erie county. One of those suggesting he resign was State GOP Chairman William L. Pfeiffer.

Wins Confidence Vote

Forhead won an indirect vote of confidence at a so-called showdown meeting of the party's executive committee Tuesday. His leadership was discussed but no one offered a resolution that he quit.

He has been under attack since four city councilmen, including the organization's endorsed candidate for president of the council, were indicted last month in connection with charges of $10,000-a-month pinball payoffs.

Forhead said after the indictments the organization would stand by its original endorsement of Russell M. Leech for council president. The endorsement later was withdrawn and Leech was defeated in the primary by former Mayor Bernard Dowd.

Tass' Agents Are

on an ASNE request to eject the four Tass representatives accredited now. It delayed a decision to seek advice of the State and Justice Departments and to make an inquiry of its own.

Makes No Reference

The standing committee made no reference to the case of William N. Oatis, Associated Press correspondent imprisoned by Communist Czechoslovakia on espionage charges which this government has termed baseless.

Senator O'Conor (D-Md.) demanded yesterday that in retaliation for the jailing of Oatis the Tass reporters in the Congressional Galleries be expelled. The suggestion received a mixed reaction.

Senator Mudt (R.-S.D.) told a reporter:

"It seems to me that his resolution is appropriate. We should take retaliatory action and the place to take it is in the field of news gathering which is where they took it against Oatis."

Calls Him Victim

Senator Benton (D.-Conn.) called Oatis an innocent victim of Czech propaganda, but questioned the wisdom of restricting any "legitimate correspondent" in this country.

To do otherwise, Benton contended, would amount to a departure from this country's traditional devotion to freedom of the press and thus would give Russia the basis for a new propaganda campaign.

The State Department disclosed, meanwhile, that the first concrete steps towards scrapping all U. S. trade and tariff concessions to the Czechs will be taken at Geneva, Switzerland, Sept. 17.

Work Train Makes

ging has also progressed toward Thomas street which will have access to Broadway when the project is completed.

It is expected that trains will be making full use of the railroad bridge within ten days or two weeks. The temporary detour tracks will then be removed and work will start on the bridge connecting Greenkill and Railroad avenues.

Believes Adamic Murdered

San Francisco, Sept. 6 (AP)—A Yugoslav newspaperman said today he is strongly convinced that Louis Adamic was murdered. The author was found dead from a rifle shot in his New Jersey home Tuesday. The death tentatively was listed as a suicide pending investigation. M. Anton Smole, correspondent for the Yugoslav news agency, Tanjug, said he had been a close friend of Adamic since 1947.

Rumors Are Not Given Support

Woodstock, Sept. 6—A chance remark that "the town is full of dope" made after a party in this village was ordered dispersed Sunday night gave new impetus to rumors this week, but the rumors could not be supported by concrete evidence.

The only real complaint against Sunday night's party was that it was noisy, and the participants willingly dispersed between 2 and 3 a. m. Monday when requested to do so by Constable Clarence Snyder, according to Corporal Ray Dunn of the state police.

The party of 30 persons was in progress in an apartment in Woodstock, according to the owner of the apartment who lives in another house across the street. The landlady—who declined to reveal her name—said she found six additional persons in the adjacent apartment, which was supposedly vacant, who were smoking cigarettes.

The possibility that these cigarettes may have been reefers is being investigated, it was learned, although at present authorities have no reason to believe they were other than ordinary cigarettes.

The day following the party, the man who was using the apartment during the week-end remarked to the landlady, "The town is full of dope," she reported. Whether the remark was intended to be taken seriously is not known, however.

Hearing Put Off, Connelly Nursing Injuries at Home

Corporation Counsel James G. Connelly is at his home today nursing injuries to his ankle suffered yesterday at Catskill while en route to Albany where a hearing was scheduled before the State Education Department on the Town of Ulster School District No. 8 protest to increased tuition for students from that district who attend Kingston schools.

Clarence Rowland, president of the board of education, received injuries to his arm and leg and Superintendent of Schools Arthur J. Laidlaw was injured about the head and chest. Both Mr. Rowland and Mr. Laidlaw were at business today.

The accident happened at the intersection of route 9-W and route 32 where the Cairo road crosses route 9-W to enter the business section of Catskill by means of a viaduct. Mr. Rowland was driving north on 9-W and a car operated by Mrs. Alta Wardwell of Yonkers, accompanied by her son, entered route 9-W from the east after crossing the viaduct. Police said Mrs. Wardwell became confused at the intersection.

Following the accident Mrs. Wardwell was treated for shock at the Greene County Memorial Hospital at Catskill.

The State Education Department was notified of the accident and the hearing was posptoned. No date has been set for the hearing.

Ultimatum Hits Snag

Tehran, Iran, Sept. 6 (AP)—Premier Mohammed Mossadegh's proposed ultimatum to Britain on the stalled oil talks struck a snag today when more than half the members of the Lower House of Parliament boycotted a session called to approve the premier's policy. The ultimatum would give the British two weeks to reopen talks on the nationalization of the billion-dollar Anglo-Iranian Oil Company's properties. If they refused, Iran would expel 350 British technicians remaining at the company's giant refinery at Abadan. After vainly trying to round up the missing deputies for two hours, Mossadegh postponed the session until Sunday.

Shipping Is Menaced

Miami, Fla., Sept. 6 (AP)—Shipping lanes were menaced today by two hurricanes whirling westward across the Atlantic, but neither was in position to arouse any immediate concern to land areas. The nearest, and most dangerous, was reported by the Miami Weather Bureau at 5 a. m. (EST) to be about 480 miles eastnortheast of San Juan, Puerto Rico, and traveling a westward course at 20 miles an hour. Winds of 135 miles an hour were reported at the center of the storm and weather forecasters said it was expected to grow more powerful. Warnings went out to ships at sea to avoid it.

Erie GOP Head Collapses at Home FromAttackStrain

Buffalo, N. Y., Sept. 6 (AP)—Harry J. Forhead, Republican county chairman who has been under heavy political attack recently, was in the hospital today following a collapse at his home.

Forhead, about 44 years old, collapsed yesterday at his home. His physician ordered him to Millard Fillmore Hospital for a rest and a checkup of his heart.

Forhead's wife, Ethel, said the collapse was caused by "the tremendous strain to which he has been subjected in the last several months."

She added:

"The viciousness of the personal attacks made upon him and his determination to do the best job possible for the Republican Party have had a noticeable effect upon him."

Forhead has been under constant pressure from party sources to resign as GOP chairman of Erie county. One of those suggesting he resign was State GOP Chairman William L. Pfeiffer.

Rumors Are Not Given Support

Woodstock, Sept. 6—A chance remark that "the town is full of dope" made after a party in this village was ordered dispersed Sunday night gave new impetus to rumors this week, but the rumors could not be supported by concrete evidence.

The only real complaint against Sunday night's party was that it was noisy, and the participants willingly dispersed between 2 and 3 a. m. Monday when requested to do so by Constable Clarence Snyder, according to Corporal Ray Dunn of the state police.

The party of 30 persons was in progress in an apartment in Woodstock, according to the owner of the apartment who lives in another house across the street. The landlady—who declined to reveal her name—said she found six additional persons in the adjacent apartment, which was supposedly vacant, who were smoking cigarettes.

The possibility that these cigarettes may have been reefers is being investigated, it was learned, although at present authorities have no reason to believe they were other than ordinary cigarettes.

The day following the party, the man who was using the apartment during the week-end remarked to the landlady, "The town is full of dope," she reported. Whether the remark was intended to be taken seriously is not known, however.

Amputee Praises Red Cross Aid to Veterans, Families

What the Red Cross Means to Me, was the subject of a talk given by Leland H. Shaw, director of the Dutchess County Veterans Service Agency, at the annual dinner meeting of Ulster County Chapter, American Red Cross at the Old First Dutch Reformed Church last night.

Shaw, an attorney who saw three years of service with the armed forces during World War 2, spoke with authority. A first lieutenant in a reconnaissance unit operating with an artillery unit, he wears the Silver Star and Purple Heart and on his ETO ribbon two bronze stars for participation in the Normandy invasion and the southern France campaign. While operating ahead of the artillery at St. Lo, Lieutenant Shaw was very severly wounded by enemy fire. As a result he was evacuated to a hospital where it became necessary to amputate both legs.

Praises Good Work

During his three years of service, while he was being evacuated from Europe, and during his long stay in hospitals he had ample opportunity to witness the work of the Red Cross. He told of the work in a dramatic manner, and paid high praise to the Red Cross for its assistance to veterans since the close of hostilities through the Veterans Service Agency. He said that this service was being given throughout the country to veterans and their families through Veterans Agencies like those operated in his county and in Ulster county under the direction of Howard C. Shurter.

Prior to his entrance into service Lieutenant Shaw said he looked upon Red Cross as an organization standing ready to lend aid in an emergency or disaster, but an organization somewhat "dormant." His war experiences brought home to him the real meaning of Red Cross and since the war he found the Red Cross active in many fields in every day life. He referred to the comforts which were provided soldiers in the field, of the emergency aid given, of the assistance given in prosecuting pension claims, hospital activities and assistance in bringing war brides to the states.

In a dramatic manner he reviewed what the Red Cross had done for a man suddenly snatched from civil life and thrust into the army. He told of the aid and assistance given right up to the battle lines by them, and of the plasma which was solicited by the Red Cross and used to save many a life. He told of the work of the Red Cross as the wounded man was evacuated and returned to the United States and while in hospitals here.

Personal Experience

"How do I know these facts are true?" Lieutenant Shaw asked the audience, "I know for I was that man."

Prior to Lieutenant Shaw's talk a roast beef dinner was served by the ladies of the Old Dutch Church. The meeting was opened with an invocation by the Rev. J. Dean Dykstra, a member of the board of directors. Chairman G. Wallace Codwise presided at the business session and introduced the speaker.

Receives Certificate

Mrs. Charlotte W. Tappen, secretary, on behalf of the Ulster County Chapter presented a Certificate of Appreciation from the National Headquarters to Mrs. Samuel J. Adams of Saugerties in recognition of her outstanding Red Cross volunteer services.

Mrs. Adams is Chapter vice-president, chairman of the Town of Saugerties Branch, an active member of the board of directors of the Ulster County Chapter and the executive committee, and a first aid instructor. It was through her efforts that the children of Saugerties are now able to swim in protected waters and receive Red Cross swimming instruction. During World War 2 Mrs. Adams played an active part in the blood bank program there.

The Rev. Mr. Dykstra suggested to the nomination committee the following names for re-election to the board of directors for three year terms: Walter T. Tremper, Harry Gold, the Rev. William C. Cain, Frederick Hoffman and Mrs. Joseph Jacobson. The following names were suggested by the committee for election to the executive committee: C. E. Burnett, Ernest Steuding, Dr. Habeeb Maroon, Mrs. Harold Osterhoudt, Oscar Lawatsch, Herbert Thomas, Mrs. Frank Thompson, M. Donald Lane. Those suggested by the nominating committee were elected.

The election of officers for the Chapter will take place at the next meeting of the board of directors.

Annual reports of the officers and various committees, as well as the chapter branches, were distributed in printed form to the members present. Approximately 100 attended.

Present officers are: Chairman, G. Wallace Codwise; vice-chairmen, Alexander B. Shufeldt and Mrs. Samuel J. Adams; treasurer, Robert C. Murray; secretary, Mrs. Charlotte W. Tappen.

Branch chairmen are: Ellenville, Mrs. J. Harry Hart; Highland, Mrs. Robert H. Cummins; Saugerties, Mrs. Samuel J. Adams; Wallkill, Mrs. Addison D. Crowell; Woodstock, Mrs. Montcena DeWitt.

TIME TO PREPARE CONSERVES

RICH CONSERVES and j...s are made from purple plums.

By GAYNOR MADDOX
NEA Food and Markets Editor

We're heading away from summer now and beginning to think of cooler days and bigger meals. So let's buy some of those purple plums and luscious peaches and make a shelf full of conserves for the winter season.

Plum-Orange Conserve
(Makes about 11 six-ounce glasses)

Four and one-half cups prepared fruit, ½ cup seedless raisins, 7 cups sugar, 1 box powdered pectin, ½ cup coarsely chopped walnut meats.

To prepare fruit: Chop 1 orange fine; add 2 cups water. Simmer, covered, 20 minutes. Pit and halve 2 pounds fully ripe plums. Chop fine. Add orange. Measure 4½ cups into large saucepan. Add raisins.

To make conserve: Measure sugar; set aside. Place saucepan of fruit over high heat. Add powdered pectin; stir until mixture comes to a hard boil. At once stir in sugar. Bring to full rolling boil; boil hard 1 minute stirring constantly. Remove from heat. Add nut meats, skim and ladle quickly. Paraffin.

Peach Jam
(Makes about 11 six-ounce glasses)

Four cups prepared fruit, ¼ cup lemon juice, 7½ cups sugar, 1 bottle fruit pectin.

To prepare the fruit: Peel and pit about 3 pounds soft ripe peaches. Grind. Measure 4 cups into a very large saucepan. Squeeze the juice from 2 medium-sized lemons. Measure ¼ cup juice into saucepan with peaches.

To make jam: Add sugar to fruit in saucepan and mix well. Place over high heat, bring to a full rolling boil and boil hard 1 minute, stirring constantly. Remove from heat and at once stir in bottle fruit pectin. Then stir and skim by turns 5 minutes to cool slightly, to prevent floating fruit. Ladle quickly into glasses. Paraffin at once.

Spiced peach jam: Add ½ to 1 teaspoon each cinnamon, cloves, and allspice or any desired combination of spices, to peaches before cooking. Proceed as directed.

TOMORROW'S MENU

BREAKFAST: Sliced peaches, ready-to-eat cereal, soft-cooked eggs, enriched toast, butter or fortified margarine, coffee, milk.

LUNCHEON: Bean and vegetable soup, crackers, sardine sandwiches, fruit bowl, frosted cupcakes, tea, milk.

DINNER: Canned tuna in sauce made of condensed mushroom soup, fluffy rice, plum-orange conserve, buttered sliced zucchini squash, sliced tomatoes and sweet onions, enriched bread, butter or fortified margarine, assorted cookies, coffee, milk.

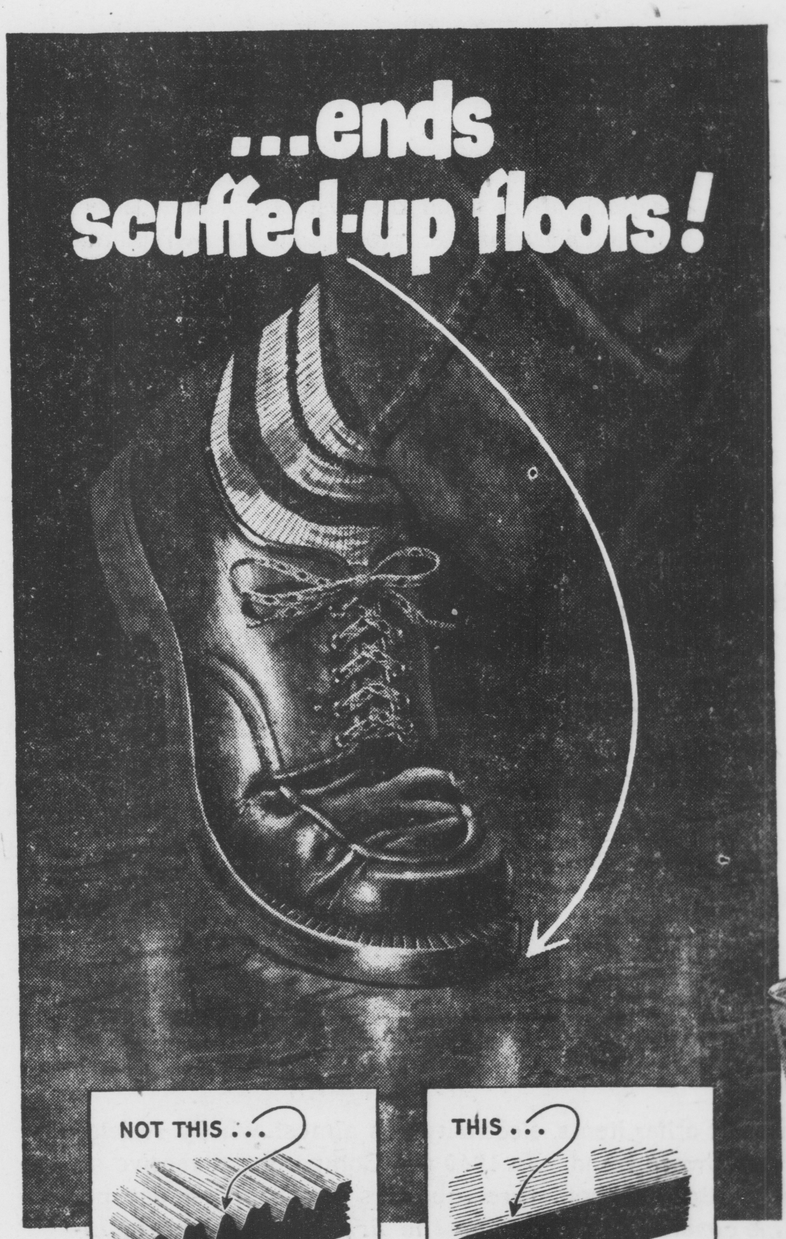
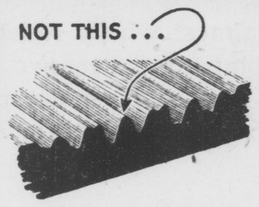
TODAY... the makers of Johnson's Wax announce
a new hard gloss floor polish!

...ends scuffed-up floors!

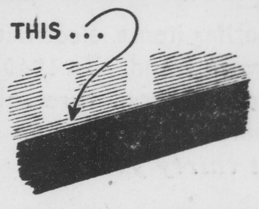


NOT THIS ...



When shoes scuff over ordinary floor polishes they pile up little "hills" and dig little "valleys" that look like this under the microscope. They show up as scuff marks.

THIS ...



When shoes scuff over Johnson's Hard Gloss Glo-Coat the polish is so hard it stays flat and anchored down like this. The polish doesn't get a scuffed-up look.

NOW... an easier, better way to polish all your floors—linoleum, asphalt tile, rubber tile and finished wood floors.

NOW... without any rubbing or buffing... Hard Gloss Glo-Coat dries so hard it doesn't show unsightly scuff marks!

NOW... floors keep their just-polished look for weeks because under ordinary household traffic the shine doesn't mark up or streak or get sticky!

Get Johnson's Hard Gloss Glo-Coat, with the green band around the can, at your wax dealer's today!

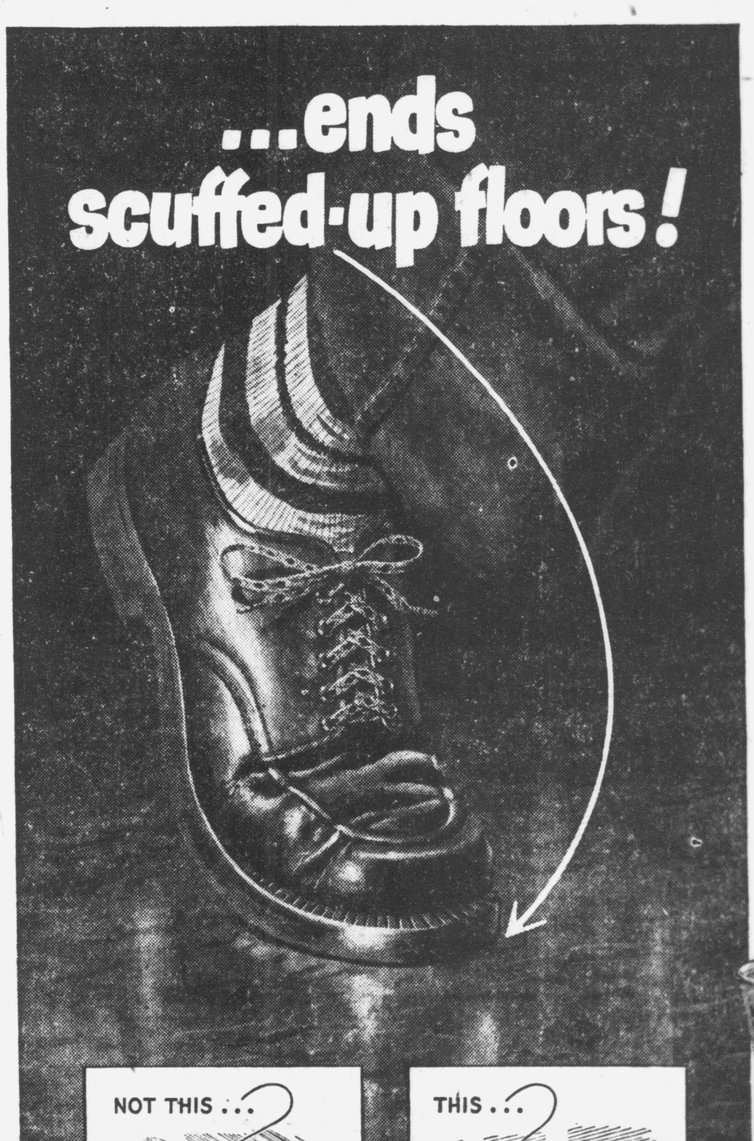
Today... the makers of Johnson's Wax announce
a new hard gloss floor polish!



When shoes scuff over ordinary floor polishes they pile up little "hills" and dig little "valleys" that look like this under the microscope. They show up as scuff marks.

When shoes scuff over Johnson's Hard Gloss Glo-Coat the polish is so hard it stays flat and anchored down like this. The polish doesn't get a scuffed-up look.

NOW... an easier, better way to polish all your floors—linoleum, asphalt tile, rubber tile and finished wood floors.

NOW... without any rubbing or buffing . . . Hard Gloss Glo-Coat dries so hard it doesn't show unsightly scuff marks!

NOW... floors keep their just-polished look for weeks because under ordinary household traffic the shine doesn't mark up or streak or get sticky!

Get Johnson's Hard Gloss Glo-Coat, with the green band around the can, at your wax dealer's today!

Look for the GREEN BAND on the new Hard Gloss Glo-Coat can

CENTRAL HUDSON MUST HAVE AN INCREASE IN ELECTRIC RATES

Because of sharply increased costs of carrying on its business, Central Hudson has filed increased electric rates with the State Public Service Commission. If approved by the Commission these rates will become effective November 26, 1951. However, by reason of the two-month billing practice now in effect, residential customers will not be materially affected until early in 1952.

THE COMPANY HAS MADE EVERY EFFORT TO CONTINUE PRESENT RATES. But, even as you, the Company has been faced with an endless procession of increases in the cost of labor and of everything it buys.

MAJOR INCREASES which so deeply affect the supplying of electricity since the present rates were established in 1949 may be illustrated by these few examples:

	1949	*Probable 1952*
EMPLOYEES' AVERAGE BASIC WEEKLY WAGE Excludes overtime and supervisory, professional and officers' salaries	$60.12	$65.21 (Based on wages of present employees and increases already under contract awaiting Wage Stabilization Board approval)
FEDERAL INCOME TAX RATE	38%	50%
MATERIALS Using coal as an example—per ton	$ 8.57	$ 9.00

COST OF POWER The above items . . . labor, taxes, materials . . . have a serious affect upon the cost of power — either power purchased from outside sources or produced in our own plants.

Even with our new Danskammer Point Steam Station scheduled for operation in 1952 the cost of the same power which the Company supplied in 1951 will be approximately one-third more in 1952.

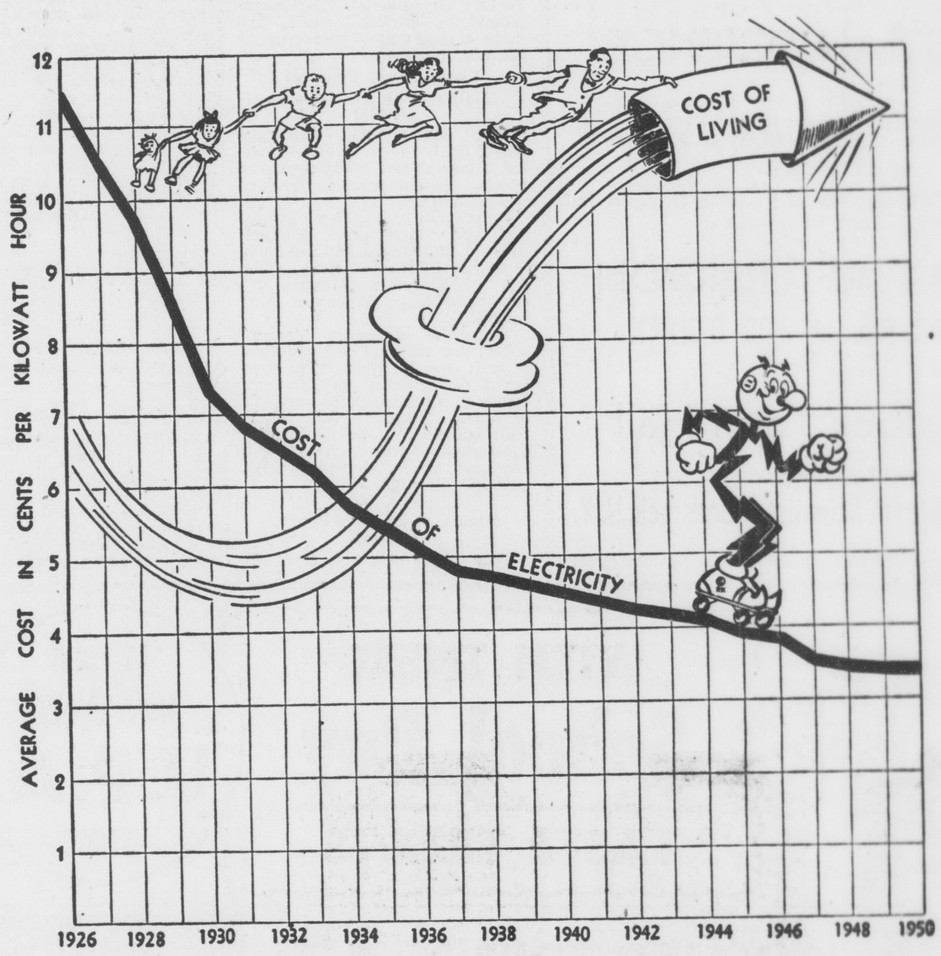
If the new Danskammer Point Steam Station were not ready to go into service early in 1952, the cost of power would be half again as much as in 1951.

DISTRIBUTION OF ELECTRICITY costs more, too. Among the articles we buy to deliver electricity to you:

	Average Installed Cost To Date	*Probable Cost 1952*
35 Foot Wood Pole	$ 41.00	$ 62.00
5 KVA Transformer	143.00	205.00
3-Wire Overhead Service	17.00	29.00
15-Amp. Meter	17.00	25.00

THERE HAS BEEN NO MATERIAL INCREASE IN THE PRICE OF ELECTRICITY TO HOMES IN ALMOST THIRTY YEARS!

Unlike most other items, electricity has almost wholly resisted this universal upward trend. In 1949 the Company did receive an increase amounting to about three-quarters of a cent per day per average home customer. *This was the first home electric increase in almost thirty years.*



THIS CHART SHOWS HOW THE COST OF ELECTRICITY HAS COME DOWN SINCE 1926

. . . while the cost of living has z-o-o-m-e-d higher and higher.

WHAT THIS RATE INCREASE MAY MEAN TO YOU.

In actual money this is about the way the proposed increase would affect you:

If your present TWO-MONTH electric bill is:	*Your new TWO-MONTH electric bill may be:*
$ 4.00	$ 4.35
8.00	9.00
12.00	13.60
16.00	18.00
20.00	22.50
30.00	34.20

ELECTRICITY WILL STILL BE YOUR BIGGEST HOUSEHOLD BARGAIN!

Supervisor Wilson Heads GOP Ticket

Woodstock, Sept. 6—The Republican caucus was held at the Town Hall Wednesday night for the purpose of nominating candidates for the various official positions in the township. The invocation was given by the Rev. Charles L. Wharton and John E. Egan served as permanent chairman.

The nominations were as follows: Kenneth L. Wilson, for supervisor; Grant B. Elwyn, town clerk; George J. Braendly, justice of the peace; Joseph Forno, councilman; William Wilber, assessor (four-year term); Harry Kutschbach, assessor (two-year term); Benjamin DeGraff, superintendent of highways; Mrs. Edna DeWitt, school director.

Aaron Van DeBogart, Montcena DeWitt, and Birge Simmons were named as a committee on vacancies.

During the caucus a number of village residents spoke in high praise of the work accomplished here by Kenneth Wilson during his eight years as town supervisor.

Klein Art Sold

Woodstock, Sept. 6—Two paintings by Morris Klein, artist and president of the Woodstock Library, have recently been sold. Klein reports that a small oil, Fruit, has been purchased by a Woodstock professional man, and that at Brewster a physician purchased a watercolor titled At Wittenberg.

Froot Paintings Have Life, Color

Woodstock, Sept. 6 — Although coming late in the season, the exhibition of paintings by Harry D. Froot, which opened Friday at the Town House, has been the cause of considerable comment and satisfaction. Froot's paintings look like what they are supposed to be, superbly painted, forthright impressions of old streets in Capri, a view through a window—simple, direct filled with the light of a placid summer morning — a piazzi in Capri, teeming with life and colorful activity.

Many who have viewed the paintings have expressed their approval of Froot's singularly lucid and warm approach to a variety of subjects, by purchasing to date a considerable number of the paintings.

Froot is not only concerned with the lush color and quaint streets and archways of Capri, on which he spent some time, but equally as much with the bleaker aspects of the temperate zone. Winter Afternoon, which may have been painted on Tinker street in Woodstock, has the beautiful cold light of the close of a winter's day, snow piled high about cozy looking houses, bare branches reaching to the sky. In the New York snow scenes he has captured the curious closed-in feeling of Times Square or a city back street dimmed by the softly falling snow. His brush has strayed to the dreary, but strangely beautiful Jersey flats at sunset, and to the silent row of homes, old weathered rows of army barracks.

Each painting is a gem of design, arrangement, enhanced by a fine sensitivity to color and mood. It is a thoroughly rewarding show, which will be on view until September 14.

16 Events Slated On Field Day Bill

Woodstock, Sept. 6—The field day at the Woodstock Riding Club will take place Sunday, Sept. 9, with the first event entering the ring at 10 a. m. In all there are 16 events scheduled including games to be played on horseback.

It has been announced that Dr. Alvin Evans of Kingston has been secured as veterinarian for the day by the club. He will be ready to assist any horse that might be in need of aid.

The riding field has been put in shape by members following the recent rains and the refreshment stand refurbished for the occasion. In the event of rain the Field Day will be postponed to the following Sunday.

Rosen Memorial Exhibit Opens

Woodstock, Sept. 6—A memorial exhibition of the painting of the late Charles Rosen was to open this afternoon at the Woodstock Art Gallery with a reception from 4 to 6 p. m. Artist Rosen who died at the age of 72 in Woodstock, June 21, 1950, was one of the nation's leading landscape painters. He came to Woodstock in 1916, and in 1919 took charge of a class in painting for the Art Students League of New York at Woodstock. In the 1930's he taught at the Woodstock School of Painting, which was conducted at the time in a structure on the property of Artist Judson Smith.

During his lifetime he won a succession of awards, among them the third Hallgarten prize in 1910, the first Hallgarten prize in 1910, the Innes gold medal and first Altman prize ($1,000) National Academy of Design, 1916, silver medal, San Francisco Exposition, 1915, first prize, Columbus, Ohio, Art League, 1926, and the Jennie Sesnan medal for the best landscape, Pennsylvania Academy of Fine Arts, 1926.

The exhibition will be on view at the gallery through September 22.

Stern Jewelry Business Sold to Albert Moore

Woodstock, Sept. 6 (AP)—The Woodstock Jewelry business, formerly owned by Fred Stern, has been purchased by Albert L. Moore, of Atlantic City, N. J., who expects to reside in this village. Moore, who has a distinguished World War 2 record, is married and has three daughters.

Stern, who is the owner of the Miniature Diner on Route 9W, two miles south of Saugerties, plans to make additions to the building in which the Woodstock Jewelers is located.

Health Committee Dance a Success

Woodstock, Sept. 6—Despite the rain Saturday night, the old-fashioned barn dance held at Odd Fellows Hall in Bearsville, by the Woodstock Public Health Nursing Committee for the benefit of the children's dental clinic, was a notable success.

The committee has expressed its appreciation to those who assisted with the unique entertainment. The hall was alive with constables ready to "arrest" offenders for any offense, the fines for which went into the dental clinic coffers. John Pike, Dave Huffine and John Striebel spent a busy evening as constables, making the "arrests" with Judges Harry Kutzschbach and Carl Katzbauer meting out penalties.

Music for square dancing was provided by William Spanhake, whe performer and called tirelessly throughout the evening.

Prizes were awarded to Mrs. George Behrens, who received a beautiful basket of jellies and sweets for appearing in the prettiest costume. Victor Busch won the assortment of canned goods and meats for the funniest costume. Costume judges were Miss Sue Leveren and William Pierpoint.

Mrs. Harry Kutzschbach, in charge of the table of home-canned food, reported a sell-out of all items contributed by members and friends of the committee.

Weather, Festival Hamper Concert

Woodstock, Sept. 6—The Maverick Sunday concerts, which have been throughout the summer so much a source of pleasure and real musical experience, suffered a lot of competition Sunday. The cold rainy afternoon was not conducive to comfort in the concert hall in the woods, and the film festival drew many to the unique occasion. Nevertheless, the next-to-the-last Maverick Sunday concert kept its own established place and once the music began, the cold and the rain receded.

William Kroll, violinist, and Inez Carroll, pianist, brought the Brahms Sonata into rich and vibrant being. There is an impressive insight displayed by Kroll into the composer's meaning. He has perfect intonation and sureness of touch. From the impassioned Allegro, through the joyous Andante, his notes were flawless and Miss Carroll's accompaniment fine and sensitive.

The Schumann Quintet, with Koll, Betty Barney, violinist; Barbara Kroll, violist; Cynthia Eddy, cellist and Inez Carroll, was brilliantly executed.

The program of the final Maverick Sunday concert next week will include the Beethoven Trio, opus 1, and the Ravel Trio, with Joseph Wolman, pianist, and Luigi Silva, cellist.

Truck, Car Collide

A truck owned and operated by Jacob Sachs, 65, of Saugerties and a sedan owned and driven by Adelbert Chambers of Maple Lane Farm collided at 9 p. m. Wednesday at the intersection of Route 32 and Old Kings Highway, one-eighth mile west of the village of Saugerties, state police reported. There was no arrest, and no personal injuries were reported.

Rehearsing for Benefit Play

Woodstock, Sept. 6—Rehearsals are in progress for the Woodstock Foundation benefit play scheduled September 14 and 15 at the Woodstock Playhouse. Going through one of the scenes of Bettina's Promise or The Broken Divining Rod, written by Frizi Striebel and Virginia Hubbell are (l. to r.) Judy Peabody. *(Freeman Photo)*

Southern Girls Are First Winners

Atlantic City, N. J., Sept. 6 (AP)—Two southern belles rang up the first victories last night in the Miss America pageant.

In the first of three preliminary contests before the Saturday night finals, Miss Alabama, Jeanne Moody of Cherokee, Ala., walked off with the talent trophy. Miss North Carolina, Lu Long Ogburn of Smithfield, N. C., took bathing suit honors.

Miss North Carolina, a 19-year-old Salem College, N. C. student, is five feet, 8¾ inches tall, and measures 26 inches at the waist, 36 at the bust and 37 at the hips.

The 21-year-old Miss Alabama, clad in a pink negligee, gave a dramatic portrayal of an invalid woman who is about to be murdered.

Adamic's Widow Says Her Husband Likely Was Suicide

Flemington, N. J., Sept. 6 (AP)—A spokesman for writer Louis Adamic's widow said last night she believes her husband killed himself but police still probed for possible murder.

Mrs. Adamic, after flying into New York from California, claimed the body of the 52-year-old author found dead Tuesday with a bullet in his brain in his burning farmhouse in nearby Milford.

Crying and nervous, she refused to talk to newsmen but her brother, Dr. Harold Saunders of the Bronx, N. Y., said she thought it was suicide despite theories of a Stalinist plot.

At the time of his death, Yukoslav-born Adamic was working on a book upholding the regime of Marshal Tito in his native land against the Stalinist Reds.

Saunders said Adamic, a fighter for labor and minority causes, had been working hard, was upset by world conditions and was under considerable strain. He added that only the Yugoslavian consulate in New York would be informed of funeral arrangements.

A truck owned and operated by Jacob Sachs, 65, of Saugerties and a sedan owned and driven by Adelbert Chambers of Maple Lane Farm collided at 9 p. m. Wednesday at the intersection of Route 32 and Old Kings Highway, one-eighth mile west of the village of Saugerties, state police reported. There was no arrest, and no personal injuries were reported.

Rehearsing for Benefit Play

Woodstock, Sept. 6—Rehearsals are in progress for the Woodstock Foundation benefit play scheduled September 14 and 15 at the Woodstock Playhouse. Going through one of the scenes of Bettina's Promise or The Broken Divining Rod, written by Frizi Striebel and Virginia Hubbell are (l. to r.) Judy Small as Bettina; Danny Perlman, Little Clyde; Carl Hubbell, Horace Peabody and Al Bare, Burly Peabody. *(Freeman Photo)*

Southern Girls Are First Winners

Atlantic City, N. J., Sept. 6 (AP) —Two southern belles rang up the first victories last night in the Miss America pageant.

In the first of three preliminary contests before the Saturday night finals, Miss Alabama, Jeanne Moody of Cherokee, Ala., walked off with the talent trophy. Miss North Carolina, Lu Long Ogburn of Smithfield, N. C., took bathing suit honors.

Miss North Carolina, a 19-year-old Salem College, N. C. student, is five feet, 8¾ inches tall, and measures 26 inches at the waist, 36 at the bust and 37 at the hips.

The 21-year-old Miss Alabama, clad in a pink negligee, gave a dramatic portrayal of an invalid woman who is about to be murdered.

Adamic's Widow Says Her Husband Likely Was Suicide

Flemington, N. J., Sept. 6 (AP)—A spokesman for writer Louis Adamic's widow said last night she believes her husband killed himself but police still probed for possible murder.

Mrs. Adamic, after flying into New York from California, claimed the body of the 52-year-old author found dead Tuesday with a bullet in his brain in his burning farmhouse in nearby Milford.

Crying and nervous, she refused to talk to newsmen but her brother, Dr. Harold Saunders of the Bronx, N. Y., said she thought it was suicide despite theories of a Stalinist plot.

At the time of his death, Yukoslav-born Adamic was working on a book upholding the regime of Marshal Tito in his native land against the Stalinist Reds.

Saunders said Adamic, a fighter for labor and minority causes, had been working hard, was upset by world conditions and was under considerable strain. He added that only the Yugoslavian consulate in New York would be informed of funeral arrangements.

WOODSTOCK NEWS

By RICHARD E. THIBAUT, JR.

Supervisor Wilson Heads GOP Ticket

Woodstock, Sept. 6—The Republican caucus was held at the Town Hall Wednesday night for the purpose of nominating candidates for the various official positions in the township. The invocation was given by the Rev. Charles L. Wharton and John E. Egan served as permanent chairman.

The nominations were as follows: Kenneth L. Wilson, for supervisor; Grant B. Elwyn, town clerk; George J. Braendly, justice of the peace; Joseph Forno, councilman; William Wilber, assessor (four-year term); Harry Kutschbach, assessor (two-year term); Benjamin DeGraff, superintendent of highways; Mrs. Edna DeWitt, school director.

Aaron Van DeBogart, Montcena DeWitt, and Birge Simmons were named as a committee on vacancies.

During the caucus a number of village residents spoke in high praise of the work accomplished here by Kenneth Wilson during his eight years as town supervisor.

Klein Art Sold

Woodstock, Sept. 6—Two paintings by Morris Klein, artist and president of the Woodstock Library, have recently been sold. Klein reports that a small oil, Fruit, has been purchased by a Woodstock professional man, and that at Brewster a physician purchased a watercolor titled At Wittenberg.

Froot Paintings Have Life, Color

Woodstock, Sept. 6 — Although coming late in the season, the exhibition of paintings by Harry D. Froot, which opened Friday at the Town House, has been the cause of considerable comment and satisfaction. Froot's paintings look like what they are supposed to be, superbly painted, forthright impressions of old streets in Capri, a view through a window—simple, direct filled with the light of a placid summer morning — a piazzi in Capri, teeming with life and colorful activity.

Many who have viewed the paintings have expressed their approval of Froot's singularly lucid and warm approach to a variety of subjects, by purchasing to date a considerable number of the paintings.

Froot is not only concerned with the lush color and quaint streets and archways of Capri, on which he spent some time, but equally as much with the bleaker aspects of the temperate zone. Winter Afternoon, which may have been painted on Tinker street in Woodstock, has the beautiful cold light of the close of a winter's day, snow piled high about cozy looking houses, bare branches reaching to the sky. In the New York snow scenes he has captured the curious closed-in feeling of Times Square or a city back street dimmed by the softly falling snow. His brush has strayed to the dreary, but strangely beautiful Jersey flats at sunset, and to the silent row of homes, old weathered rows of army barracks.

Each painting is a gem of design, arrangement, enhanced by a fine sensitivity to color and mood. It is a thoroughly rewarding show, which will be on view until September 14.

16 Events Slated On Field Day Bill

Woodstock, Sept. 6—The field day at the Woodstock Riding Club will take place Sunday, Sept. 9, with the first event entering the ring at 10 a. m. In all there are 16 events scheduled including games to be played on horseback.

It has been announced that Dr. Alvin Evans of Kingston has been secured as veterinarian for the day by the club. He will be ready to assist any horse that might be in need of aid.

The riding field has been put in shape by members following the recent rains and the refreshment stand refurbished for the occasion. In the event of rain the Field Day will be postponed to the following Sunday.

Rosen Memorial Exhibit Opens

Woodstock, Sept. 6—A memorial exhibition of the painting of the late Charles Rosen was to open this afternoon at the Woodstock Art Gallery with a reception from 4 to 6 p. m. Artist Rosen who died at the age of 72 in Woodstock, June 21, 1950, was one of the nation's leading landscape painters. He came to Woodstock in 1916, and in 1919 took charge of a class in painting for the Art Students League of New York at Woodstock. In the 1930's he taught at the Woodstock School of Painting, which was conducted at the time in a structure on the property of Artist Judson Smith.

During his lifetime he won a succession of awards, among them the third Hallgarten prize in 1910, the first Hallgarten prize in 1910, the Innes gold medal and first Altman prize ($1,000) National Academy of Design, 1916, silver medal, San Francisco Exposition, 1915, first prize, Columbus, Ohio, Art League, 1926, and the Jennie Sesnan medal for the best landscape, Pennsylvania Academy of Fine Arts, 1926.

The exhibition will be on view at the gallery through September 22.

Stern Jewelry Business Sold to Albert Moore

Woodstock, Sept. 6 (AP)—The Woodstock Jewelry business, formerly owned by Fred Stern, has been purchased by Albert L. Moore, of Atlantic City, N. J., who expects to reside in this village. Moore, who has a distinguished World War 2 record, is married and has three daughters.

Stern, who is the owner of the Miniature Diner on Route 9W, two miles south of Saugerties, plans to make additions to the building in which the Woodstock Jewelers is located.

Health Committee Dance a Success

Woodstock, Sept. 6—Despite the rain Saturday night, the old-fashioned barn dance held at Odd Fellows Hall in Bearsville, by the Woodstock Public Health Nursing Committee for the benefit of the children's dental clinic, was a notable success.

The committee has expressed its appreciation to those who assisted with the unique entertainment. The hall was alive with constables ready to "arrest" offenders for any offense, the fines for which went into the dental clinic coffers. John Pike, Dave Huffine and John Striebel spent a busy evening as constables, making the "arrests" with Judges Harry Kutzschbach and Carl Katzbauer meting out penalties.

Music for square dancing was provided by William Spanhake, whe performer and called tirelessly throughout the evening.

Prizes were awarded to Mrs. George Behrens, who received a beautiful basket of jellies and sweets for appearing in the prettiest costume. Victor Busch won the assortment of canned goods and meats for the funniest costume. Costume judges were Miss Sue Leveren and William Pierpoint.

Mrs. Harry Kutzschbach, in charge of the table of home-canned food, reported a sell-out of all items contributed by members and friends of the committee.

Weather, Festival Hamper Concert

Woodstock, Sept. 6—The Maverick Sunday concerts, which have been throughout the summer so much a source of pleasure and real musical experience, suffered a lot of competition Sunday. The cold rainy afternoon was not conducive to comfort in the concert hall in the woods, and the film festival drew many to the unique occasion. Nevertheless, the next-to-the-last Maverick Sunday concert kept its own established place and once the music began, the cold and the rain receded.

William Kroll, violinist, and Inez Carroll, pianist, brought the Brahms Sonata into rich and vibrant being. There is an impressive insight displayed by Kroll into the composer's meaning. He has perfect intonation and sureness of touch. From the impassioned Allegro, through the joyous Andante, his notes were flawless and Miss Carroll's accompaniment fine and sensitive.

The Schumann Quintet, with Koll, Betty Barney, violinist; Barbara Kroll, violist; Cynthia Eddy, cellist and Inez Carroll, was brilliantly executed.

The program of the final Maverick Sunday concert next week will include the Beethoven Trio, opus 1, and the Ravel Trio, with Joseph Wolman, pianist, and Luigi Silva, cellist.

Pears on Local Markets Plentiful

"Pears, one of the top items on any fruit menu, are on the local markets in good supply," reports the Ulster County Home Bureau. With the supply increasing, the price will be moderate. Plan to use them frequently to add interest and variety to your September meals.

Here are a few tips to help you select the choicest pear: If you're not going to eat them immediately, select those that are hard. Pears should be picked when they are green and unripened, and allowed to ripen off the tree.

Pears are a welcomed addition to any meal—as an appetizer or garnish, salad, or dessert. Make the most of the "in-season" fruits during the next few weeks; combine them with pears for a colorful, delightfully refreshing fruit cocktail. If you pour a small amount of lime or lemon juice over the fruit, the fruit won't darken and the fruit flavor is accented.

Pear salads can be as varied as the weather. Serve a fresh pear and orange salad, garnish with stuffed prunes, and top with a fruit dressing. Or fill the pear cavity with your favorite cheese, meat or fish mixture and serve with blue cheese dressing on a crisp green. A frozen pear salad is an added treat to a luncheon or dinner.

To garnish your meat platter serve spiced or glazed pears. The subtle pear flavor is enhanced by the spices — perfect with lamb or pork.

Here's a dessert to make the men in your family happy—fresh pears with crackers and a snappy cheese. The grand finale to a prize winning dinner.

With the supply good and prices down, plan to make some pear-apple preserves. Your family will really enjoy the sweet but tangy preserve on hot rolls and toasts.

Pear and Apple Preserve—Yield: Three 8-oz. glasses.

1 lemon (3 tablespoons juice and 1/3 cup peel)
1 cup water
2 cups pears, peeled and chopped
2 cups tart apples, peeled and chopped
3 cups sugar.

1. Squeeze the juice from the lemon and cut peel in strips 1 inch long; 2. Add water and cook until tender (30 min.); 3. Add cooked peel and liquid to pears, apples and sugar; 4. Boil the mixture until thick, 20 minutes. Stir frequently; 5. Add lemon juice and cook until mixture thickens. (About 2 minutes); 6. Pour into hot, clean jars and seal.

SUPREME COURT, COUNTY OF ULSTER—STATE OF NEW YORK NATIONAL BANK, Plaintiff, against CHENAULT M. MARKSBURY, CLYDE F. GARDNER, THE ASTOUP COMPANY, JACOB GRIFFEL and ABRAHAM L. GRIFFEL, co-partners, d/b/a JACOB GRIFFEL & SON, TEXTILE COMMISSION COMPANY, HERZOG SUPPLY COMPANY, NEW YORK TELEPHONE COMPANY and E. CLARK REED, doing business under the firm name and style of REED & REED DEPARTMENT STORE, Defendants.

Pursuant to Judgment of Foreclosure and Sale rendered herein on the 24th day of July, 1951 and duly entered in the Ulster County Clerk's Office on the same day, I, the undersigned, the Referee duly appointed for such purpose by said Judgment, will sell at public auction to the highest bidder on Friday, September 14, 1951, at 12:00 o'clock noon on that day at the front door of the Ulster County Court House in the City of Kingston, New York, the real estate directed by said Judgment to be sold and therein described as follows:

ALL: THAT PIECE OR PARCEL OF LAND in Village of Saugerties, County of Ulster and State of New York, with the buildings thereon situate on the northerly side of Jane Street between Bridge Street and James Street and more particularly bounded and described as follows: Beginning at a point on the northerly side of Jane Street, such point being westerly 107.58 feet distant from the corner formed by the intersection of the westerly side of James Street and the northerly side of Jane Street and running thence north 5 degrees 9 minutes west 87.01 feet to the lands of the Suderly Candy Company; thence along the same and along the lands of the First National Bank of Saugerties north 84 degrees 46 minutes east 30.25 feet; thence south 5 degrees 31 minutes east 87.27 feet to a point on the northerly side of Jane Street; thence along the same south 85 degrees 21 minutes west 30.8 feet to the point and place of beginning.

Together with a right of way or easement for the above grantee, his heirs and assigns for foot passengers only over the lands adjoining on the east the above described premises and such right of way being a foot path between the dwellings on the said two properties and extending from Jane Street between said dwellings to a point 10 feet in the rear of the present rear foundation of the dwelling house now on the last above described and such right of way to be used in common with the owner of said property on the east, his heirs and assigns.

Together with a right of way for ingress and egress from the lands first above described in common with others to Jane Street on foot and with horses and vehicles over a strip of land described as follows:

Beginning at a point on the northerly side of Jane Street such point being 107.58 feet distant measured westerly from the corner formed by the intersection of the westerly side of James Street with the northerly side of Jane Street and runs thence along the northerly side of Jane Street south 85 degrees 21 minutes west 20 feet; thence north 5 degrees 10 minutes west 86.62 feet to the lands of the Suderly Confectionery Company; thence along the same north 84 degrees 46 minutes east 20 feet; thence south 5 degrees 9 minutes east 87.01 feet to the point and place of beginning.

The above lands are conveyed subject to a right of way for the owner of said property adjoining on the east the premises hereinfirst described, his heirs and assigns from the right of way last above described to the said premises on the east on foot and with horses and vehicles to pass and repass from his property to the said right of way last above described the land over which this right of way passes, being described as follows:

A strip of land 12 feet wide extending from the right of way above described as running northerly from Jane Street and beginning at a point on the easterly side of the said right of way running northerly from Jane Street, such point being 55 feet distant measured northerly along the easterly side of the right of way and from the easterly side of Jane Street and runs thence along the said right of way north 5 degrees 9 minutes west 12 feet; thence north 84 degrees 46 minutes east about 30 feet to the lands on the east; thence along the same south 5 degrees 31 minutes east 12 feet; thence westerly about 30 feet to he point and place of beginning.

Being the same premises as conveyed by Anna H. York, et al, to Chenault M. Marksbury by deed dated January 28, 1946, and recorded in Ulster County Clerk's Office on December 20, 1947, and being No. 303 of December 1947 recordings.

Said premises to be sold subject to any state of facts including changes in street lines which an accurate survey will show and provided these facts do not make the title unmarketable; subject to building restrictions and restrictions contained in any resolution for ordinances adopted by any village, town or other governmental authorities; subject to all taxes, assessments, water rates and sales for same, tax deeds and transfers of tax leins, if any, and subject to leases and tenancies.

Pears on Local Markets Plentiful

"Pears, one of the top items on any fruit menu, are on the local markets in good supply," reports the Ulster County Home Bureau. With the supply increasing, the price will be moderate. Plan to use them frequently to add interest and variety to your September meals.

Here are a few tips to help you select the choicest pear: If you're not going to eat them immediately, select those that are hard. Pears should be picked when they are green and unripened, and allowed to ripen off the tree.

Pears are a welcomed addition to any meal—as an appetizer or garnish, salad, or dessert. Make the most of the "in-season" fruits during the next few weeks; combine them with pears for a colorful, delightfully refreshing fruit cocktail. If you pour a small amount of lime or lemon juice over the fruit, the fruit won't darken and the fruit flavor is accented.

Pear salads can be as varied as the weather. Serve a fresh pear and orange salad, garnish with stuffed prunes, and top with a fruit dressing. Or fill the pear cavity with your favorite cheese, meat or fish mixture and serve with blue cheese dressing on a crisp green. A frozen pear salad is an added treat to a luncheon or dinner.

To garnish your meat platter serve spiced or glazed pears. The subtle pear flavor is enhanced by the spices — perfect with lamb or pork.

Here's a dessert to make the men in your family happy—fresh pears with crackers and a snappy cheese. The grand finale to a prize winning dinner.

With the supply good and prices down, plan to make some pear-apple preserves. Your family will really enjoy the sweet but tangy preserve on hot rolls and toasts.

Pear and Apple Preserve—Yield: Three 8-oz. glasses.

1 lemon (3 tablespoons juice and 1/3 cup peel)
1 cup water
2 cups pears, peeled and chopped
2 cups tart apples, peeled and chopped
3 cups sugar.

1. Squeeze the juice from the lemon and cut peel in strips 1 inch long; 2. Add water and cook until tender (30 min.); 3. Add cooked peel and liquid to pears, apples and sugar; 4. Boil the mixture until thick, 20 minutes. Stir frequently; 5. Add lemon juice and cook until mixture thickens. (About 2 minutes); 6. Pour into hot, clean jars and seal.

SUPREME COURT, COUNTY OF ULSTER—STATE OF NEW YORK NATIONAL BANK, Plaintiff, against CHENAULT M. MARKSBURY, CLYDE F. GARDNER, THE ASTOUP COMPANY, JACOB GRIFFEL and ABRAHAM I. GRIFFEL, co-partners, d/b/a JACOB GRIFFEL & SON, TEXTILE COMMISSION COMPANY, HERZOG SUPPLY COMPANY, NEW YORK TELEPHONE COMPANY and E. CLARK REED, doing business under the firm name and style of REED & REED DEPARTMENT STORE, Defendants.

Pursuant to Judgment of Foreclosure and Sale rendered herein on the 24th day of July, 1951 and duly entered in the Ulster County Clerk's Office on the same day, I, the undersigned, the Referee duly appointed for such purpose by said Judgment, will sell at public auction to the highest bidder on Friday, September 14, 1951, at 12:00 o'clock noon on that day at the front door of the Ulster County Court House in the City of Kingston, New York, the real estate directed by said Judgment to be sold and therein described as follows:

ALL THAT PIECE OR PARCEL OF LAND in Village of Saugerties, County of Ulster and State of New York, with the buildings thereon situate on the northerly side of Jane Street between Bridge Street and James Street and more particularly bounded and described as follows: Beginning at a point on the northerly side of Jane Street, such point being westerly 107.58 feet distant from the corner formed by the intersection of the westerly side of James Street and the northerly side of Jane Street and running thence north 5 degrees 9 minutes west 87.01 feet to the lands of the Suderly Candy Company; thence along the same and along the lands of the First National Bank of Saugerties north 84 degrees 46 minutes east 30.25 feet; thence south 5 degrees 31 minutes east 87.27 feet to a point on the northerly side of Jane Street; thence along the same south 85 degrees 21 minutes west 30.8 feet to the point and place of beginning.

Together with a right of way or easement for the above grantee, his heirs and assigns for foot passengers only over the lands adjoining on the east the above described premises and such right of way being a foot path between the dwellings on the said two properties and extending from Jane Street between said dwellings to a point 10 feet in the rear of the present rear foundation of the dwelling house now on the last above described and such right of way to be used in common with the owner of said property on the east, his heirs and assigns.

Together with a right of way for ingress and egress from the lands first above described in common with others to Jane Street on foot and with horses and vehicles over a strip of land described as follows:

Beginning at a point on the northerly side of Jane Street such point being 107.58 feet distant measured westerly from the corner formed by the intersection of the westerly side of James Street with the northerly side of Jane Street and runs thence along the northerly side of Jane Street south 85 degrees 21 minutes west 20 feet; thence north 5 degrees 10 minutes west 86.62 feet to the lands of the Suderly Confectionery Company; thence along the same north 84 degrees 46 minutes east 20 feet; thence south 5 degrees 9 minutes east 87.01 feet to the point and place of beginning.

The above lands are conveyed subject to a right of way for the owner of said property adjoining on the east the premises hereinfirst described, his heirs and assigns from the right of way last above described to the said premises on the east on foot and with horses and vehicles to pass and repass from his property to the said right of way last above described the land over which this right of way passes, being described as follows:

A strip of land 12 feet wide extending from the right of way above described as running northerly from Jane Street and beginning at a point on the easterly side of the said right of way running northerly from Jane Street, such point being 55 feet distant measured northerly along the easterly side of the right of way and from the easterly side of Jane Street and runs thence along the said right of way north 5 degrees 9 minutes west 12 feet; thence north 84 degrees 46 minutes east about 30 feet to the lands on the east; thence along the same south 5 degrees 31 minutes east 12 feet; thence westerly about 30 feet to the point and place of beginning.

Being the same premises as conveyed by Anna H. York, et al, to Chenault F. Marksbury by deed dated January 28, 1946, and recorded in Ulster County Clerk's Office on December 20, 1947, and being No. 303 of December 1947 recordings."

Said premises to be sold subject to any state of facts including changes in street lines which an accurate survey will show and provided these facts do not make the title unmarketable; subject to building restrictions and restrictions contained in any resolution for ordinances adopted by any village, town or other governmental authorities; subject to all taxes, assessments, water rates and sales for same, tax deeds and transfers of tax liens, if any, and subject to leases and tenancies.

Shower Is Held For Maire Monte

A surprise bridal shower was held in honor of Miss Maire Monte August 25 at the home of the bride's mother, Mrs. Leo Kain, 85 Hudson street.

Miss Monte will be married Saturday, Sept. 8, to Pfc. James Johnson of Missouri.

Shower decorations, featuring a wishing well where Miss Monte's gifts were placed, were made by Mrs. John Klonowski. The Misses Shirley Topp and Shirley Van Leuven acted as hostesses.

Attending that night were the Mmes. Anio Salmi, John Klonowski, Louis Christopher, Clayton Stalter, Herbert Williams, Charles Polacco, Clayton Stalter, Jr., Anthony Cecelia, Raymond Topp, Julius Christopher, Robert Cassell and the Misses Nora Klonowski, Ruth Stokes, Mary Mellin and Charlotte Humphrey.

Surprise Party Held For Charles Wells

A surprise party commemorating the 71st birthday of Charles H. Wells, 68 Newkirk avenue, was given in his honor yesterday. Decorations were in yellow and white.

Among those attending were Mrs. Charles H. Wells, two daughters, Mrs. Davis Whittaker and Miss Lucille Wells; one son, Carlton Wells; a son-in-law, David Whittaker; two nieces, the Misses Shirley and Gloria Wells; one nephew, Douglas Post, Mrs. Douglas Post, and Miss Rose Ann Wells, all of this city.

Miss Anna Frances Volynskie Is Wed In Church Ceremony to George Proper

Miss Anna Frances Volynskie, daughter of Mrs. Francis Volynskie, 11 West Union street and the late Mr. Volynskie and George W. Proper, son of Mr. and Mrs. Robert Proper, RD 2, Saugerties, were married in St. Mary's Church Sunday at 2:30 p. m. The Rev. Edward I. Farrelly, assistant pastor of that parish, officiated at the double ring ceremony.

Theodore Riccobono of Bloomington as organist played the traditional wedding marches. Miss Barbara Bruck, soloist, sang Ave Maria.

Frank Brockway gave his niece in marriage. Her gown was made with a fitted bodice and nylon net yoke attached to a lace bertha. The skirt was fashioned of lace and satin paneling and ended in a long circular train. Her fingertip veil was trimmed with imported illusion lace, and fastened to a lace headpiece. She carried a cascade bouquet of white roses.

The bride's aunt, Mrs. John Mannello of Connelly, was her honor attendant. She wore a mauve satin gown cut with a scoop neckline, and a bouffant net skirt over satin, and a matching Juliet cap. Her cascade bouquet was of pink asters and blue delphinium.

The bridesmaids were Miss Elsie Proper of Port Ewen, sister of the groom, and Miss Marilyn Brophy of this city, cousin of the bride. They were dressed in strapless blue satin gowns with matching boleros, cut with bouffant net skirts over satin. They wore matching satin Juliet caps trimmed with rhinestones, and carried cascade bouquets of pink asters.

Mary Ann Roach, cousin of the bride, as flower girl, was dressed in a yellow satin gown with a nylon net skirt and a small princess hat. She carried a basket of yellow pompons.

Louis Proper of Selkirk was best man for his brother. Earl Proper of Saugerties and Robert Proper of Port Ewen, both brothers of the groom, ushered. Grant Crum, Jr., of Saugerties, nephew of the bride, was child ringbearer.

A reception for 100 guests followed at Tropical Inn, Port Ewen. On their wedding trip the couple are visiting New York. Mrs. Proper wore a brown tweed suit for traveling, with matching accessories and a yellow rose corsage. Upon their return, the couple will make their temporary home with the bride's mother at 11 West Union street.

Mrs. Proper is an alumna of Kingston High School, and is employed at the Hercules Powder Co., Port Ewen. Her husband attended Saugerties High School and is an employe of Blue Ribbon Cleaners, Saugerties.

Crinoline Returns

Crinoline petticoats will be worn under practically all full-skirted dresses this fall. If you want to make your own, it's easy. Use muslin or batiste for the skirt, and add a crinoline ruffle at the bottom. This avoids bulkiness around the hips, still makes the hemline stand out.

Use Paper Towels

You can cut down on dish-towel laundering by using paper towels for messy tasks such as wiping off the stove or cleaning food spots on the kitchen floor. They're good, too, for washing windows—leave no lint.

Matching Gloves

Gloves to match fall costumes are fashionable this year. Patterns for gloves that you can make from leftover scraps of fabric are available at most pattern counters.

Recent Kingston Bride

The former Gertrude Alice Franz who was wed to Robert Edison Sickler August 25 in St. John's Church. Mr. and Mrs. Sickler are making their home here. *(Pennington Photo)*

Gertrude A. Franz Becomes the Bride Of Robert Sickler

Miss Gertrude Alice Franz, daughter of Mr. and Mrs. Harry Franz, RD 4, this city, became the bride of Robert Edison Sickler, son of Mr. and Mrs. Hiram D. Sickler of 95 Merilina avenue, this city, Saturday, Aug. 25 during a 7 p. m. ceremony at St. John's Church here. The Rev. Robert T. Shellenberger, pastor of that congregation, officiated.

Mr. Franz gave his daughter in marriage. The bride selected a navy blue suit, gray accessories, and a corsage of red roses.

The couple were attended by Miss Ethel Rinaldo of Glasco, and Sam Paulucci of this city.

On their wedding trip Mr. and Mrs. Sickler visited northern New York. They are now making their home here.

The bride attended Kingston High School, and is employed at King's Dresses, 519 Broadway. Mr. Sickler is a graduate of Kingston High School and is an employe of Greenwald's, 286 Fair street.

Personal Notes

Mrs. G. R. Zeliff and Miss Margaret Zeliff have just returned from Brunswick, Fla., where they visited Kendall Zeliff and family.

Mr. and Mrs. Joseph Winters and son Joseph of 311 Clifton avenue, accompanied by Mrs. Winters' sister, Miss Delores Longendyke, 567 Albany avenue, her grandmother, Mrs. Laura Delavan and Harry Strubie, 251 Abeel street during the Labor Day weekend toured through Lake George, New England and Niagara Falls.

Miss Gertrude Lucille Eldridge, daughter of Mr. and Mrs. Nash S. Eldridge, 186 Main street, is enrolled in the freshman class at Russell Sage College. She is a graduate of St. Agnes School, Albany.

Miss Elyse Sandra Feldman, daughter of Mr. and Mrs. Harry Feldman, 104 Wall street, will enter Russell Sage College. Troy, with advanced credit. She is a graduate of the Lear School, Miami, Fla., and has attended Bard College, Annandale-on-Hudson.

Bridal Shower Held

High Falls, Sept. 6—Miss Mary VanDemark was honored at a bridal shower Wednesday night, Aug. 29, held at the home of Mrs. Eugene Terwilliger. Decorations were in pink and aqua. Guests attending included the Mmes. Wallace Fulford, Edmond O'Hara, Lawrence Larsen, James VanDemark, Alwin Nicholas, Alan Hudson, Reuben Barrett, Bessie K. Eastman and the Misses Alice Krom, Harriet Boice, and Lillian Larsen. Miss VanDemark has planned a fall wedding.

They wore matching satin Juliet caps trimmed with rhinestones, and carried cascade bouquets of pink asters.

Mary Ann Roach, cousin of the bride, as flower girl, was dressed in a yellow satin gown with a nylon net skirt and a small princess hat. She carried a basket of yellow pompons.

Louis Proper of Selkirk was best man for his brother. Earl Proper of Saugerties and Robert Proper of Port Ewen, both brothers of the groom, ushered. Grant Crum, Jr., of Saugerties, nephew of the bride, was child ringbearer.

A reception for 100 guests followed at Tropical Inn, Port Ewen. On their wedding trip the couple are visiting New York. Mrs. Proper wore a brown tweed suit for traveling, with matching accessories and a yellow rose corsage. Upon their return, the couple will make their temporary home with the bride's mother at 11 West Union street.

Mrs. Proper is an alumna of Kingston High School, and is employed at the Hercules Powder Co., Port Ewen. Her husband attended Saugerties High School and is an employe of Blue Ribbon Cleaners, Saugerties.

Crinoline Returns

Crinoline petticoats will be worn under practically all full-skirted dresses this fall. If you want to make your own, it's easy. Use muslin or batiste for the skirt, and add a crinoline ruffle at the bottom. This avoids bulkiness around the hips, still makes the hemline stand out.

Use Paper Towels

You can cut down on dish-towel laundering by using paper towels for messy tasks such as wiping off the stove or cleaning food spots on the kitchen floor. They're good, too, for washing windows—leave no lint.

Matching Gloves

Gloves to match fall costumes are fashionable this year. Patterns for gloves that you can make from leftover scraps of fabric are available at most pattern counters.

Recent Kingston Bride

Gertrude A. Franz Becomes the Bride Of Robert Sickler

Miss Gertrude Alice Franz, daughter of Mr. and Mrs. Harry Franz, RD 4, this city, became the bride of Robert Edison Sickler, son of Mr. and Mrs. Hiram D. Sickler of 95 Merilina avenue, this city, Saturday, Aug. 25 during a 7 p. m. ceremony at St. John's Church here. The Rev. Robert T. Shellenberger, pastor of that congregation, officiated.

Mr. Franz gave his daughter in marriage. The bride selected a navy blue suit, gray accessories, and a corsage of red roses.

The couple were attended by Miss Ethel Rinaldo of Glasco, and Sam Paulucci of this city.

On their wedding trip Mr. and Mrs. Sickler visited northern New York. They are now making their home here.

The bride attended Kingston High School, and is employed at King's Dresses, 519 Broadway. Mr. Sickler is a graduate of Kingston High School and is an employe of Greenwald's, 286 Fair street.

Personal Notes

Shower Is Held For Maire Monte

A surprise bridal shower was held in honor of Miss Maire Monte August 25 at the home of the bride's mother, Mrs. Leo Kain, 85 Hudson street.

Miss Monte will be married Saturday, Sept. 8, to Pfc. James Johnson of Missouri.

Shower decorations, featuring a wishing well where Miss Monte's gifts were placed, were made by Mrs. John Klonowski. The Misses Shirley Topp and Shirley Van Leuven acted as hostesses.

Attending that night were the Mmes. Anio Salmi, John Klonowski, Louis Christopher, Clayton Stalter, Herbert Williams, Charles Polacco, Clayton Stalter, Jr., Anthony Cecelia, Raymond Topp, Julius Christopher, Robert Cassell and the Misses Nora Klonowski, Ruth Stokes, Mary Mellin and Charlotte Humphrey.

Surprise Party Held For Charles Wells

A surprise party commemorating the 71st birthday of Charles H. Wells, 68 Newkirk avenue, was given in his honor yesterday. Decorations were in yellow and white.

Among those attending were Mrs. Charles H. Wells, two daughters, Mrs. Davis Whittaker and Miss Lucille Wells; one son, Carlton Wells; a son-in-law, David Whittaker; two nieces, the Misses Shirley and Gloria Wells; one nephew, Douglas Post, Mrs. Douglas Post, and Miss Rose Ann Wells, all of this city.

Leaving the Church

Miss Anna Frances Volynskie Is Wed In Church Ceremony to George Proper

Miss Anna Frances Volynskie, daughter of Mrs. Francis Volynskie, 11 West Union street and the late Mr. Volynskie and George W. Proper, son of Mr. and Mrs. Robert Proper, RD 2, Saugerties, were married in St. Mary's Church Sunday at 2:30 p. m. The Rev. Edward I. Farrelly, assistant pastor of that parish, officiated at the double ring ceremony.

Theodore Riccobono of Bloomington as organist played the traditional wedding marches. Miss Barbara Bruck, soloist, sang Ave Maria.

Frank Brockway gave his niece in marriage. Her gown was made with a fitted bodice and nylon net yoke attached to a lace bertha. The skirt was fashioned of lace and satin paneling and ended in a long circular train. Her fingertip veil was trimmed with imported illusion lace, and fastened to a lace headpiece. She carried a cascade bouquet of white roses.

The bride's aunt, Mrs. John Mannello of Connelly, was her honor attendant. She wore a mauve satin gown cut with a scoop neckline, and a bouffant net skirt over satin, and a matching Juliet cap. Her cascade bouquet was of pink asters and blue delphinium.

The bridesmaids were Miss Elsie Proper of Port Ewen, sister of the groom, and Miss Marilyn Brophy of this city, cousin of the bride. They were dressed in strapless blue satin gowns with matching boleros, cut with bouffant net skirts over satin. They wore matching satin Juliet caps trimmed with rhinestones, and carried cascade bouquets of pink asters.

Mary Ann Roach, cousin of the bride, as flower girl, was dressed in a yellow satin gown with a nylon net skirt and a small princess hat. She carried a basket of yellow pompons.

VFW Post Signs Up Spivak and Orchestra For Its Annual Ball

Charlie Spivak

Charlie Spivak and his orchestra has been engaged by Joyce-Schirick Post No. 1386 Veterans of Foreign Wars for their annual ball and entertainment it was announced today by Morgan Ryan, general chairman.

The ball will be held at the Municipal Auditorium Monday Oct. 1.

Spivak, who is billed as "The Man Who Plays the Sweetest Trumpet in the World" heads an orchestra which in eight years has climbed to topflight stature and is now among the leaders in the orchestra world.

They have made personal appearances at the famous Shamrock Hotel in Houston, Texas, the Hotels Commodore and Statler and the Paramount Theater in New York, the Chicago Theater and in scores of other famous hotels, theaters and clubs across the country. In addition the orchestra also appeared in Pin Up Girl a 20th Century film, and Follow the Boys produced by Universal. Featured with the orchestra are, Tommy Lynn, baritone; Lynn Roberts, song stylist; Bobby Rickey, young drummer and Buddy Yannon, "The Gentleman from New Jersey."

"With the current Vogue for sweet music gaining favor each day, Charlie Spivak is sure to prove most popular with our ball patrons," Mr. Ryan said when he announced signing up the orchestra.

Entertainment for the ball will consist of several top flight acts to be announced. Chairman Ed Parmelee of the entertainment committee has had several conferences with a theatrical agent and promises that the entertainment this year will be even better than the unusual high calibre presented by the V.F.W.

Approximately 125 From KHS, St. Ursula To Attend Schools of Higher Education

Approximately 125 students from Kingston High School and the Academy of St. Ursula will leave Kingston and the surrounding community this month for institutions of higher learning. In addition to those who will continue their education beyond the high school level, two will enter the army, 13 the navy, one the marines, another the women's marine corps, six the air force, two the national guard and one the coast guard. At the high school, 15 of this year's class have been married, and 118 employed.

Other approximate breakdowns have been tabulated. Fifty students will enter liberal arts and engineering colleges this fall, and 23 will enter state teachers colleges. Nine have applied and been accepted at technical schools, 19 at nursing schools, three in junior colleges and 11 at business colleges. Seven St. Ursula alumnae will enter senior colleges, and one a junior college. At present an estimate of 26 student applications from the high school are still pending.

New York Schools First

New York state schools and colleges rate highest with the class of '51. Probably the largest Kingston area influx will be at New Paltz State Teachers College where at least 11 freshmen will enter this year. New Paltz Huguenot Society Pleads New Membership Increase

The New Paltz Huguenot, Patriotic, Historical and Monumental Society, incorporated in 1893 "to record the virtues and to prepetuate the memory of the New Paltz Patent" sent out a plea today for increased membership.

"The time has come" one spokesman pointed out, "when the Memorial house is in great need of more members to carry on the work that was so well done for a number of years after the society was founded."

It was explained that only through increased membership could funds be obtained to meet upkeep on the house, and that a publicity campaign is required to bring sufficient guests to the museum.

"Guests are certain to contribute to the fund" the spokesman continued, "if they are acquainted with the fact that it is through their generosity that the building is kept up and improved."

He also reminded the public that the early stone houses on Huguenot street cannot be improved unless they realize improvements are expensive, and should be made "with care and deliberation" in an effort to avoid destroying historical interest.

All members of the society have been urged to obtain at least four new members through personal contact. Descent from the original Patentees is not a prerequisite of membership. Interested persons are requested to contact the society's secretary, Kenneth E. Hasbrouck. A special life membership rate will be available until October 1. It was announced that after that date, while life membership will be open, annual members also will be invited to join at a nominal rate.

YW Women's Club Plans Dessert-Card Party September 13

Mrs. Charles Terwilliger, president of the YWCA Women's Club and her committee, during a meeting yesterday afternoon completed plans for the organization's initial program of the fall season, the perennially popular dessert-card party.

This year's party, to which all members and their friends have been invited by the president, will be held Thursday, Sept. 13 at the YWCA, 209 Clinton avenue. Separate tables will be arranged there for bridge, canasta and pinochle players. Although tallies and prizes will be provided, players at each are requested to bring their own cards. Dessert and coffee will precede the games at 1:30 p. m.

The following members of the executive committee met with Mrs. Terwilliger yesterday: the Mmes. John B. Sterley, Boyd N. Williams, Robert H. Pixley, Raymond E. Craft, William S. Jackson, Edward J. Hillis, George W. Ross, and Raymond H. Woodard.

Child Celebrates Fourth Birthday

The Hurley home of Mr. and Mrs. Vincent Crantz was the scene Sunday afternoon of a party in honor of the fourth birthday of their son, Vincent, Jr.

Party decorations included colored balloons and a large birthday cake. The children played games, and refreshments were served.

Guests were Cynthia, Charles and Allan Stewart, Robert Raymond and Nickie Sparling, all of Flushing, L. I.; Warren, Dennis and Eddie Herwig, Charles Jubie, Judy and Tommy Reinhardt, Donna and Billy Sickler, all of this city; John, Robert and William Reinhardt of Port Ewen and Donald Schiskey of Hurley.

Adult guests were Mrs. Louise Reinhardt, Port Ewen; Mr. and Mrs. John Reinhardt, Mr. and Mrs. Anthony Reinhardt, Mrs. Sarah E. Reinhardt, Fred Reinhardt, Mrs. William Sickler, Mrs. William Dietz, Mr. and Mrs. Charles Jubie, Mr. and Mrs. John McBride, Joseph Crantz, all of this city; Mr. and Mrs. Fred Crantz, Sr., and Fred Crantz, Jr., of Hurley.

FAT FOLKS! Your Dream Has Come True!

HOW TO LOSE UGLY FAT Without Dieting-Hunger!

NO CALORIE COUNTING!
NO DIETS! NO EXERCISES!

If you are a non-glandular overweight man or woman by all means read about this amazing, new, clinically tested medical discovery, that is already creating a sensation all over the country.

Forget all about diets, hunger, calorie counting, massage, drugs, exercise and all other unpleasant, unnecessary things usually associated with reducing.

For a great medical discovery now makes it possible for you to lose pounds of excess fat safely — without dieting, without having a single hungry moment.

Doctors Discover Wafex

Most doctors agree that the best way to lose excess fat is to eat less — to go on a restricted diet. A group of New York doctors, making a special study of obesity, realized however that while dieting was desirable it wasn't as easy or as simple as it sounds for most overweight people.

Hunger—The Fat Person's Enemy!

Dieting for most folks means hunger.

Men: Why not try Wafex, the natural way to take off excess weight that's neither good for you nor good to look at.

WAFEX STOPS HUNGER

This Wafex Wafer has according to scientific calculations, the hunger satisfying capacity of 2 ham sandwiches or 4 eggs or 5 slices of white bread. Yet contains only 5 calories.

And few people can resist hunger. So they appease it by eating between meals, by going off their diets. And back comes the unwanted pounds and inches.

So these New York doctors worked for years searching for a formula that would lick hunger and make people lose fat safely without dieting. They finally announced success in a food adjunct called WAFEX.

Clinical Tests Proved Their Discovery

The doctors clincally tested WAFEX on a large group of normal, healthy overweight men and women.

The group undergoing the tests were instructed by the doctors to chew or suck a tasty WAFEX Wafer half an hour before each meal. but not to go on any special diet, not to cut out any special foods — just sit down at the table and eat until satisfied.

Results Amazing!

Every member of the group lost 8 to 20 pounds in a short period of time; in fact satisfactory weight losses were noticed the very first week. And not a single person said she had a hungry moment.

DOCTORS! Write on your letterhead for professional samples and clinical data.

Wafex as Harmless as A Glass of Water

A Food Adjunct Not A Drug

During the tests the doctors carefully checked the physical condition of each person, took electro-cardiograms and did not find a single case of ill effect. Everyone said, she never felt better.

So at last, the fat person's dream has come true — a way to lose excess fat without dieting, without hunger, without giving up the food he likes.

VFW Post Signs Up Spivak and Orchestra For Its Annual Ball

Charlie Spivak

Charlie Spivak and his orchestra has been engaged by Joyce-Schirick Post No. 1386 Veterans of Foreign Wars for their annual ball and entertainment it was announced today by Morgan Ryan, general chairman.

The ball will be held at the Municipal Auditorium Monday Oct. 1.

Spivak, who is billed as "The Man Who Plays the Sweetest Trumpet in the World" heads an orchestra which in eight years has climbed to topflight stature and is now among the leaders in the orchestra world.

They have made personal appearances at the famous Shamrock Hotel in Houston, Texas, the Hotels Commodore and Statler and the Paramount Theater in New York, the Chicago Theater and in scores of other famous hotels, theaters and clubs across the country. In addition the orchestra also appeared in Pin Up Girl a 20th Century film, and Follow the Boys produced by Universal. Featured with the orchestra are, Tommy Lynn, baritone; Lynn Roberts, song stylist; Bobby Rickey, young drummer and Buddy Yannon, "The Gentleman from New Jersey."

"With the current Vogue for sweet music gaining favor each day, Charlie Spivak is sure to prove most popular with our ball patrons," Mr. Ryan said when he announced signing up the orchestra.

Entertainment for the ball will consist of several top flight acts to be announced. Chairman Ed Parmelee of the entertainment committee has had several conferences with a theatrical agent and promises that the entertainment this year will be even better than the unusual high calibre presented by the V.F.W.

Quick relief usually comes from the first dose of this new formula which acts to relieve congestion. People who formerly suffered with frightening choking, coughing, wheezing asthma attacks speak of welcome relief after using ASMACOL. ASMACOL costs $2.50, but considering the relief you will experience, the $2.50 it costs amounts to only a few pennies per dose. ASMACOL, (caution, use only as directed) is sold with a money back guarantee if not delighted with results. Sold only by

VFW Post Signs Up Spivak and Orchestra For Its Annual Ball

Charlie Spivak

Charlie Spivak and his orchestra has been engaged by Joyce-Schirick Post No. 1386 Veterans of Foreign Wars for their annual ball and entertainment it was announced today by Morgan Ryan, general chairman.

The ball will be held at the Municipal Auditorium Monday Oct. 1.

Spivak, who is billed as "The Man Who Plays the Sweetest Trumpet in the World" heads an orchestra which in eight years has climbed to topflight stature and is now among the leaders in the orchestra world.

They have made personal appearances at the famous Shamrock Hotel in Houston, Texas, the Hotels Commodore and Statler and the Paramount Theater in New York, the Chicago Theater and in scores of other famous hotels, theaters and clubs across the country. In addition the orchestra also appeared in Pin Up Girl a 20th Century film, and Follow the Boys produced by Universal. Featured with the orchestra are, Tommy Lynn, baritone; Lynn Roberts, song stylist; Bobby Rickey, young drummer and Buddy Yannon, "The Gentleman from New Jersey."

"With the current Vogue for sweet music gaining favor each day, Charlie Spivak is sure to prove most popular with our ball patrons," Mr. Ryan said when he announced signing up the orchestra.

Entertainment for the ball will consist of several top flight acts to be announced. Chairman Ed Parmelee of the entertainment committee has had several conferences with a theatrical agent and promises that the entertainment this year will be even better than the unusual high calibre presented by the V.F.W.

Approximately 125 From KHS, St. Ursula To Attend Schools of Higher Education

Approximately 125 students from Kingston High School and the Academy of St. Ursula will leave Kingston and the surrounding community this month for institutions of higher learning. In addition to those who will continue their education beyond the high school level, two will enter the army, 13 the navy, one the marines, another the women's marine corps, six the air force, two the national guard and one the coast guard. At the high school, 15 of this year's class have been married, and 118 employed.

Other approximate breakdowns have been tabulated. Fifty students will enter liberal arts and engineering colleges this fall, and 23 will enter state teachers colleges. Nine have applied and been accepted at technical schools, 19 at nursing schools, three in junior colleges and 11 at business colleges. Seven St. Ursula alumnae will enter senior colleges, and one a junior college. At present an estimate of 26 student applications from the high school are still pending.

New York Schools First

New York state schools and colleges rate highest with the class of '51. Probably the largest Kingston area influx will be at New Paltz State Teachers College where at least 11 freshmen will enter this year. Other New York schools particularly popular with this year's class include Cornell University, Syracuse University, Potsdam State Teachers College, Albany State Teachers College, St. Lawrence University, and the New York State Technical Institutes at Farmingdale and Utica. New Paltz Huguenot Society Pleads New Membership Increase

The New Paltz Huguenot, Patriotic, Historical and Monumental Society, incorporated in 1893 "to record the virtues and to prepetuate the memory of the New Paltz Patent" sent out a plea today for increased membership.

"The time has come" one spokesman pointed out, "when the Memorial house is in great need of more members to carry on the work that was so well done for a number of years after the society was founded."

It was explained that only through increased membership could funds be obtained to meet upkeep on the house, and that a publicity campaign is required to bring sufficient guests to the museum.

"Guests are certain to contribute to the fund" the spokesman continued, "if they are acquainted with the fact that it is through their generosity that the building is kept up and improved."

He also reminded the public that the early stone houses on Huguenot street cannot be improved unless they realize improvements are expensive, and should be made "with care and deliberation" in an effort to avoid destroying historical interest.

All members of the society have been urged to obtain at least four new members through personal contact. Descent from the original Patentees is not a prerequisite of membership. Interested persons are requested to contact the society's secretary, Kenneth E. Hasbrouck. A special life membership rate will be available until October 1. It was announced that after that date, while life membership will be open, annual members also will be invited to join at a nominal rate.

YW Women's Club Plans Dessert-Card Party September 13

Mrs. Charles Terwilliger, president of the YWCA Women's Club and her committee, during a meeting yesterday afternoon completed plans for the organization's initial program of the fall season, the perennially popular dessert-card party.

This year's party, to which all members and their friends have been invited by the president, will be held Thursday, Sept. 13 at the YWCA, 209 Clinton avenue. Separate tables will be arranged there for bridge, canasta and pinochle players. Although tallies and prizes will be provided, players at each are requested to bring their own cards. Dessert and coffee will precede the games at 1:30 p. m.

The following members of the executive committee met with Mrs. Terwilliger yesterday: the Mmes. John B. Sterley, Boyd N. Williams, Robert H. Pixley, Raymond E. Craft, William S. Jackson, Edward J. Hillis, George W. Ross, and Raymond H. Woodard.

Child Celebrates Fourth Birthday

The Hurley home of Mr. and Mrs. Vincent Crantz was the scene Sunday afternoon of a party in honor of the fourth birthday of their son, Vincent, Jr.

Party decorations included colored balloons and a large birthday cake. The children played games, and refreshments were served.

Guests were Cynthia, Charles and Allan Stewart, Robert Raymond and Nickie Sparling, all of Flushing, L. I.; Warren, Dennis and Eddie Herwig, Charles Jubie, Judy and Tommy Reinhardt, Donna and Billy Sickler, all of this city; John, Robert and William Reinhardt of Port Ewen and Donald Schiskey of Hurley.

Adult guests were Mrs. Louise Reinhardt, Port Ewen; Mr. and Mrs. John Reinhardt, Mr. and Mrs. Anthony Reinhardt, Mrs. Sarah E. Reinhardt, Fred Reinhardt, Mrs. William Sickler, Mrs. William Dietz, Mr. and Mrs. Charles Jubie, Mr. and Mrs. John McBride, Joseph Crantz, all of this city; Mr. and Mrs. Fred Crantz, Sr., and Fred Crantz, Jr., of Hurley.

FAT FOLKS! Your Dream Has Come True!

HOW TO LOSE UGLY FAT Without Dieting-Hunger!

NO CALORIE COUNTING! NO DIETS! NO EXERCISES!

If you are a non-glandular overweight man or woman by all means read about this amazing, new, clinically tested medical discovery, that is already creating a sensation all over the country.

Forget all about diets, hunger, calorie counting, massage, drugs, exercise and all other unpleasant, unnecessary things usually associated with reducing.

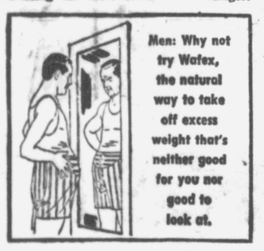
For a great medical discovery now makes it possible for you to lose pounds of excess fat safely — without dieting, without having a single hungry moment.

Doctors Discover Wafex

Most doctors agree that the best way to lose excess fat is to eat less — to go on a restricted diet. A group of New York doctors, making a special study of obesity, realized however that while dieting was desirable it wasn't as easy or as simple as it sounds for most overweight people.

Hunger—The Fat Person's Enemy!

Dieting for most folks means hunger.



Men: Why not try Wafex, the natural way to take off excess weight that's neither good for you nor good to look at.

WAFEX STOPS HUNGER

This Wafex Wafer has according to scientific calculations, the hunger satisfying capacity of 2 ham sandwiches or 4 eggs or 5 slices of white bread. Yet contains only 5 calories.

And few people can resist hunger. So they appease it by eating between meals, by going off their diets. And back comes the unwanted pounds and inches.

So these New York doctors worked for years searching for a formula that would lick hunger and make people lose fat safely without dieting. They finally announced success in a food adjunct called WAFEX.

Clinical Tests Proved Their Discovery

The doctors clincally tested WAFEX on a large group of normal, healthy overweight men and women.

The group undergoing the tests were instructed by the doctors to chew or suck a tasty WAFEX Wafer half an hour before each meal, but not to go on any special diet, not to cut out any special foods — just sit down at the table and eat until satisfied.

Results Amazing!

Every member of the group lost 8 to 20 pounds in a short period of time; in fact satisfactory weight losses were noticed the very first week. And not a single person said she had a hungry moment.

DOCTORS! Write on your letterhead for professional samples and clinical data.

Wafex as Harmless as A Glass of Water

A Food Adjunct Not A Drug

During the tests the doctors carefully checked the physical condition of each person, took electro-cardiograms and did not find a single case of ill effect. Everyone said, she never felt better.

So at last, the fat person's dream has come true — a way to lose excess fat without dieting, without hunger, without giving up the food he likes.

Start slimming down your figure right now. Get WAFEX today. $3.00 for a month's supply. GUARANTEE if you aren't pleased with the weight you lost after using one bottle of WAFEX you get your money back.

NOW TRY... WAFEX THE DIET-FREE WAY TO REDUCE!

Rosen, Easter Hammer Homers To Regain Lead for Cleveland

Giants Cop Pair; Flock Lead Now 5½

By JOE REICHLER
Associated Press Sports Writer

Al Rosen and Luke Easter, Cleveland's classy one-two punch, are using their big bats to deflate the theory that the Indians are a "no hit, good pitch" club.

Rosen and Easter were the big guns last night as the Indians defeated the Detroit Tigers, 5-2, and regained first place in the American League. Each walloped a home run with a man on base to help the tribe rack up its 16th victory in 17 meetings with Detroit.

The Indians wrested the lead from the New York Yankees, who dropped a 4-2 decision to the visiting Boston Red Sox. The triumph moved the third place Sox to within three games of the defending champions and left them four behind Cleveland. Boston trails the tribe by only one in the important "lost" column.

New York's Giants refuse to give up their fight to overhaul the National League leading Brooklyn Dodgers. A sweep of a doubleheader from Boston, 3-2 and 9-1, enabled them to cut Brooklyn's lead to five and a half games. The Dodgers whipped the Philadelphia Phils, 5-2.

Philadelphia's Athletics took two from Washington, 4-1 and 9-7; Cincinnati defeated Pittsburgh, 6-3, and the St. Louis Cardinals and Chicago Cubs split. The Cubs won the opener, 3-2, in 11 innings and the Cards grabbed the nightcap, 6-5.

17th For Wynn

The homers by Rosen and Easter were all Cleveland's Early Wynn needed to register his 17th triumph against 12 losses. The righthander surrendered only four hits. Dick Kryhoksi batted in both Detroit runs with a homer and single.

Hitting homers in the same game has become something of a habit to Rosen and Easter. Yesterday marked the ninth time this year the two sluggers accomplished the trick. The Indians won all nine games.

Brilliant pitching by Leo Kiely and Maurice McDermott, a pair of young southpaws, helped Boston to its 10th victory in 15 meetings with the Yankees.

Kiely, called up from Louisville last July, hurled seven runless innings before weakening. A brilliant rescue job by McDermott helped the 21-year-old from Hoboken, N. J., to his fifth victory in eight decisions.

Billy Goodman's two-run double in the first inning, Ted Williams' 28th homer in the third and Bobby Doerr's single in the fifth, accounted for the Red Sox runs. All came with two out. Vic Raschi lost his ninth decision against 17 victories. Williams now has homered in every park, joining Eddie Robinson of Chicago as the only American Leaguers to accomplish the feat this season.

A grand slam homer by Gil Hodges, the sixth of his career, gave the Dodgers and Ralph Branca their victory. It was Hodges' 37th circuit clout and Branca's 13th triumph.

Maglie Cops 19th

Sal Maglie pitched his first victory over the Braves and Sheldon Jones hurled his first complete game of the year as the Giants made it 23 wins in their last 26 games.

Don Mueller's run-scoring single in the eighth hung the 12th defeat upon Warren Spahn in the opener. Monte Irvin slammed his 18th homer and drove in four runs in the nightcap as Maglie became the first National Leaguer to win 19 games.

Yesterday's Stars
(By The Associated Press)

Batting — Billy Hitchcock and Ferris Fain, Athletics—Hitchcock batted in all the runs with four hits in Philadelphia's 4-1 first game victory over Washington. Fain got five-for-five in the second, won by the A's 9-2.

Pitching — Early Wynn, Cleveland—Beat Detroit, 5-2, on four hits for 17th victory.

Kingston Woman Still Holds Edge In Trout Contest

With the deadline set for next Sunday at midnight, Mrs. Eva Nearon, of Kingston, still holds first place in the first annual trout contest sponsored by the Lake Katrine Rod and Gun Club, it was announced today.

The local woman angler tops all entries to date with her catch of a 23 and three-quarter inch Rainbow beauty.

The first 10 place winners will be notified by mail and will be guests of the club at its first fall meeting scheduled next Tuesday, Sept. 11, at the club house.

Judging from interest shown in the first annual trout contest, efforts may be made to make it an annual affair, a club spokesman pointed out today.

All club members are requested to attend Tuesday's meeting as plans for the fall shooting will be discussed. Reports of several important committees also will be made.

Tops Fair's Card

Syracuse, N. Y., Sept. 6 (AP)—The $5,000 three-year-old trot for the Governor's Cup headlines the harness racing card at the New York State Fair today. Sturdy Frisky turned in the fastest time yesterday. He was clocked in 2:05 4/5 in winning the first heat of the first division in the 23 pace for a $1,500 purse. Sturdy Frisky finished second to Royal King in the second heat. Milo Hanover won both heats of the second division in identical times of 2:06.

By GAYLE TALBOT

Forest Hills, Sept. 6 (AP) — Women's tennis has been on the dreary side since the war, really not worth watching, and followers of the game were beginning to wonder if they ever would see the like of Helen Wills or Alice Marble again.

They can relax. She's here—an apple-cheeked 16-year-old from San Diego named Maureen Connolly who is destined to be one of the game's most glamorous figures here and at Wimbledon and wherever they can get her to play for a lot of years to come.

In defeating Shirley Fry by scores of 6-3, 1-6, 6-4 in yesterday's women's final to become the youngest winner in the history of the championships, Maureen brought a new and genuine interest to the women's division. At midweek, with the holidays just ended and no other match on the program, 2,500 fans paid their way to watch the new phenon perform.

And the wonderful thing was that she didn't disappoint them. She showed she was a very human little girl by losing her wondrous control and dropping her only set of the tournament to Miss Fry. But that appeared almost to have been window dressing as she came back in the third set to outfight and outlast a campaigner who was good enough to win this year's French championship.

Lacks 'Big' Service

All Maureen lacks in her repertoire is what they call a "big" service, but that is something all girl players up to this point have lacked and no real hope is held out that there ever will be a real point-winning delivery in the women's ranks.

Everything else the stocky, smiling youngster has, including an exceptionally winning court personality. She hits a harder, flatter drive off either side than this observer ever saw a woman hit before, and the amazing thing is that she's willing to hit it from anywhere, including the service line.

Starting Saturday, the new champ will play in the Pacific southwest championships at Los Angeles. After that, unless she gets a leave of absence, she is scheduled to report to the city room of the San Diego Union and begin her career as a copy girl, jumping when she hears an editor yell "bo-o-y!"

Say It Isn't So, Clamors West Point, Big Ed Weaver, His Friends et al, and 'Bo' Finally Admits It

A couple of lines penned by Wesley F. "Bo" Gill, the eminent Newburgh News sports authority, following his visit to the Army football team's first major workout, inspired quick and sharp repercussions in several quarters and drew a hasty retraction from the Hill City sports editor.

In his personal column "Stray Boots", Gill wrote that: "Reports at West Point claim that Kingston's Ed Weaver is getting the 'Old Army Silent Treatment.' It is claimed that no Cadet will speak to Big Ed except in the line of duty. What a cold war!"

The article reviewing Army's football prospects since 39 members of the squad were dismissed in the celebrated "cribbing scandal" carried this choice item:

"Big Ed Weaver looms as the star of the year for the Army team. Yet, Big Ed, a Kingston High School product, is reported to be getting his only conversation outside of the line of duty from a recording machine."

The Wires Hummed

The repercussions developed in a hurry.

Cadet Weaver, first string end on the offensive platoon and one of two varsity players left on the squad, took offense at the article and hastily assured his family and followers in Kingston that there was no basis to the charges.

A Kingston friend of Weaver's, who regarded the statement as a direct slap at the former KHS ace, started the wires burning to West Point. Calls were directed to the Public Information Office and the Honor Committee of Cadets.

Some interesting developments followed. The PIO said there was no truth to the report that Big Ed was being cold-shouldered. Joe Cahill, director sports publicity, said everybody at the Point was disturbed by the report and he confirmed earlier assertions that the statement was not in keeping with the facts.

The telephone wires continued to buzz and it was reported that "Bo" would make a further statement on the subject.

A day later, "Bo's" column said:

"UNFOUNDED — Despite rumors to the contrary, Ed Weaver is in the good graces of his fellow Cadets at West Point. He is living the same life as any other Cadet. . . ."

Cahill Irked

In a confidential letter to this department, Joe Cahill was caustic in his criticism of the article, asserting that it was a personal injustice to Ed Weaver.

The rumor must have originated among some of the cadets at the Point and it is quite possible that Gill was given the information by some disgruntled youth. For, as soon as it was published, every person in an official capacity in football at West Point denounced it.

Weaver is expected to be a tower of strength for Coach Earl Blaik's Black Knights of the Hudson this season and it came as a bitter disappointment to his legion of followers in Kingston and mid-Hudson area that his honesty in the cribbing scandal should make him the target of a retribution campaign.

Rosen, Easter Hammer Homers To Regain Lead for Cleveland

Giants Cop Pair; Flock Lead Now 5½

By JOE REICHLER
Associated Press Sports Writer

Al Rosen and Luke Easter, Cleveland's classy one-two punch, are using their big bats to deflate the theory that the Indians are a "no hit, good pitch" club.

Rosen and Easter were the big guns last night as the Indians defeated the Detroit Tigers, 5-2, and regained first place in the American League. Each walloped a home run with a man on base to help the tribe rack up its 16th victory in 17 meetings with Detroit.

The Indians wrested the lead from the New York Yankees, who dropped a 4-2 decision to the visiting Boston Red Sox. The triumph moved the third place Sox to within three games of the defending champions and left them four behind Cleveland. Boston trails the tribe by only one in the important "lost" column.

New York's Giants refuse to give up their fight to overhaul the National League leading Brooklyn Dodgers. A sweep of a doubleheader from Boston, 3-2 and 9-1, enabled them to cut Brooklyn's lead to five and a half games. The Dodgers whipped the Philadelphia Phils, 5-2.

Philadelphia's Athletics took two from Washington, 4-1 and 9-7; Cincinnati defeated Pittsburgh, 6-3, and the St. Louis Cardinals and Chicago Cubs split. The Cubs won the opener, 3-2, in 11 innings and the Cards grabbed the nightcap, 6-5.

17th For Wynn

The homers by Rosen and Easter were all Cleveland's Early Wynn needed to register his 17th triumph against 12 losses. The righthander surrendered only four hits. Dick Kryhoksi batted in both Detroit runs with a homer and single.

Hitting homers in the same game has become something of a habit to Rosen and Easter. Yesterday marked the ninth time this year the two sluggers accomplished the trick. The Indians won all nine games.

Brilliant pitching by Leo Kiely and Maurice McDermott, a pair of young southpaws, helped Boston to its 10th victory in 15 meetings with the Yankees.

Kiely, called up from Louisville last July, hurled seven runless innings before weakening. A brilliant rescue job by McDermott helped the 21-year-old from Hoboken, N. J., to his fifth victory in eight decisions.

Billy Goodman's two-run double in the first inning, Ted Williams' 28th homer in the third and Bobby Doerr's single in the fifth, accounted for the Red Sox runs. All came with two out. Vic Raschi lost his ninth decision against 17 victories. Williams now has homered in every park, joining Eddie Robinson of Chicago as the only American Leaguers to accomplish the feat this season.

A grand slam homer by Gil Hodges, the sixth of his career, gave the Dodgers and Ralph Branca their victory. It was Hodges' 37th circuit clout and Branca's 13th triumph.

Maglie Cops 19th

Sal Maglie pitched his first victory over the Braves and Sheldon Jones hurled his first complete game of the year as the Giants made it 23 wins in their last 26 games.

Don Mueller's run-scoring single in the eighth hung the 12th defeat upon Warren Spahn in the opener. Monte Irvin slammed his 18th homer and drove in four runs in the nightcap as Maglie became the first National Leaguer to win 19 games.

Yesterday's Stars
(By The Associated Press)

Batting — Billy Hitchcock and Ferris Fain, Athletics—Hitchcock batted in all the runs with four hits in Philadelphia's 4-1 first game victory over Washington. Fain got five-for-five in the second, won by the A's 9-2.

Pitching — Early Wynn, Cleveland—Beat Detroit, 5-2, on four hits for 17th victory.

Kingston Woman Still Holds Edge In Trout Contest

With the deadline set for next Sunday at midnight, Mrs. Eva Nearon, of Kingston, still holds first place in the first annual trout contest sponsored by the Lake Katrine Rod and Gun Club, it was announced today.

The local woman angler tops all entries to date with her catch of a 23 and three-quarter inch Rainbow beauty.

The first 10 place winners will be notified by mail and will be guests of the club at its first fall meeting scheduled next Tuesday, Sept. 11, at the club house.

Judging from interest shown in the first annual trout contest, efforts may be made to make it an annual affair, a club spokesman pointed out today.

All club members are requested to attend Tuesday's meeting as plans for the fall shooting will be discussed. Reports of several important committees also will be made.

Tops Fair's Card

Syracuse, N. Y., Sept. 6 (AP)—The $5,000 three-year-old trot for the Governor's Cup headlines the harness racing card at the New York State Fair today. Sturdy Frisky turned in the fastest time yesterday. He was clocked in 2:05 4/5 in winning the first heat of the first division in the 23 pace for a $1,500 purse. Sturdy Frisky finished second to Royal King in the second heat. Milo Hanover won both heats of the second division in identical times of 2:06.

Rosen, Easter Hammer Homers To Regain Lead for Cleveland

Giants Cop Pair; Flock Lead Now 5½

By JOE REICHLER
Associated Press Sports Writer

Al Rosen and Luke Easter, Cleveland's classy one-two punch, are using their big bats to deflate the theory that the Indians are a "no hit, good pitch" club.

Rosen and Easter were the big guns last night as the Indians defeated the Detroit Tigers, 5-2, and regained first place in the American League. Each walloped a home run with a man on base to help the tribe rack up its 16th victory in 17 meetings with Detroit.

The Indians wrested the lead from the New York Yankees, who dropped a 4-2 decision to the visiting Boston Red Sox. The triumph moved the third place Sox to within three games of the defending champions and left them four behind Cleveland. Boston trails the tribe by only one in the important "lost" column.

New York's Giants refuse to give up their fight to overhaul the National League leading Brooklyn Dodgers. A sweep of a doubleheader from Boston, 3-2 and 9-1, enabled them to cut Brooklyn's lead to five and a half games. The Dodgers whipped the Philadelphia Phils, 5-2.

Philadelphia's Athletics took two from Washington, 4-1 and 9-7; Cincinnati defeated Pittsburgh, 6-3, and the St. Louis Cardinals and Chicago Cubs split. The Cubs won the opener 3-2, in 11 innings and the Cards grabbed the nightcap, 6-5.

17th For Wynn

The homers by Rosen and Easter were all Cleveland's Early Wynn needed to register his 17th triumph against 12 losses. The righthander surrendered only four hits. Dick Kryhoksi batted in both Detroit runs with a homer and single.

Hitting homers in the same game has become something of a habit to Rosen and Easter. Yesterday marked the ninth time this year the two sluggers accomplished the trick. The Indians won all nine games.

Brilliant pitching by Leo Kiely and Maurice McDermott, a pair of young southpaws, helped Boston to its 10th victory in 15 meetings with the Yankees.

Kiely, called up from Louisville last July, hurled seven runless innings before weakening. A brilliant rescue job by McDermott helped the 21-year-old from Hoboken, N. J., to his fifth victory in eight decisions.

Billy Goodman's two-run double in the first inning, Ted Williams' 28th homer in the third and Bobby Doerr's single in the fifth, accounted for the Red Sox runs. All came with two out. Vic Raschi lost his ninth decision against 17 victories. Williams now has homered in every park, joining Eddie Robinson of Chicago as the only American Leaguers to accomplish the feat this season.

A grand slam homer by Gil Hodges, the sixth of his career, gave the Dodgers and Ralph Branca their victory. It was Hodges' 37th circuit clout and Branca's 13th triumph.

Maglie Cops 19th

Sal Maglie pitched his first victory over the Braves and Sheldon Jones hurled his first complete game of the year as the Giants made it 23 wins in their last 26 games.

Don Mueller's run-scoring single in the eighth hung the 12th defeat upon Warren Spahn in the opener. Monte Irvin slammed his 18th homer and drove in four runs in the nightcap as Maglie became the first National Leaguer to win 19 games.

Yesterday's Stars
(By The Associated Press)

Batting — Billy Hitchcock and Ferris Fain, Athletics—Hitchcock batted in all the runs with four hits in Philadelphia's 4-1 first game victory over Washington. Fain got five-for-five in the second, won by the A's 9-2.

Pitching — Early Wynn, Cleveland—Beat Detroit, 5-2, on four hits for 17th victory.

Kingston Woman Still Holds Edge In Trout Contest

With the deadline set for next Sunday at midnight, Mrs. Eva Nearon, of Kingston, still holds first place in the first annual trout contest sponsored by the Lake Katrine Rod and Gun Club, it was announced today.

The local woman angler tops all entries to date with her catch of a 23 and three-quarter inch Rainbow beauty.

The first 10 place winners will be notified by mail and will be guests of the club at its first fall meeting scheduled next Tuesday, Sept. 11, at the club house.

Judging from interest shown in the first annual trout contest, efforts may be made to make it an annual affair, a club spokesman pointed out today.

All club members are requested to attend Tuesday's meeting as plans for the fall shooting will be discussed. Reports of several important committees also will be made.

Tops Fair's Card

Syracuse, N. Y., Sept. 6 (AP)—The $5,000 three-year-old trot for the Governor's Cup headlines the harness racing card at the New York State Fair today. Sturdy Frisky turned in the fastest time yesterday. He was clocked in 2:05 4/5 in winning the first heat of the first division in the 23 pace for a $1,500 purse. Sturdy Frisky finished second to Royal King in the second heat. Milo Hanover won both heats of the second division in identical times of 2:06.

West Coast Victor Beats Shirley Fry

By GAYLE TALBOT

Forest Hills, Sept. 6 (AP) — Women's tennis has been on the dreary side since the war, really not worth watching, and followers of the game were beginning to wonder if they ever would see the like of Helen Wills or Alice Marble again.

They can relax. She's here—an apple-cheeked 16-year-old from San Diego named Maureen Connolly who is destined to be one of the game's most glamorous figures here and at Wimbledon and wherever they can get her to play for a lot of years to come.

In defeating Shirley Fry by scores of 6-3, 1-6, 6-4 in yesterday's women's final to become the youngest winner in the history of the championships, Maureen brought a new and genuine interest to the women's division. At midweek, with the holidays just ended and no other match on the program, 2,500 fans paid their way to watch the new phenon perform.

And the wonderful thing was that she didn't disappoint them. She showed she was a very human little girl by losing her wondrous control and dropping her only set of the tournament to Miss Fry. But that appeared almost to have been window dressing as she came back in the third set to outfight and outlast a campaigner who was good enough to win this year's French championship.

Lacks 'Big' Service

All Maureen lacks in her repertoire is what they call a "big" service, but that is something all girl players up to this point have lacked and no real hope is held out that there ever will be a real point-winning delivery in the women's ranks.

Everything else the stocky, smiling youngster has, including an exceptionally winning court personality. She hits a harder, flatter drive off either side than this observer ever saw a woman hit before, and the amazing thing is that she's willing to hit it from anywhere, including the service line.

Starting Saturday, the new champ will play in the Pacific southwest championships at Los Angeles. After that, unless she gets a leave of absence, she is scheduled to report to the city room of the San Diego Union and begin her career as a copy girl, jumping when she hears an editor yell "bo-o-y!"

Say It Isn't So, Clamors West Point, Big Ed Weaver, His Friends et al, and 'Bo' Finally Admits It

A couple of lines penned by Wesley F. "Bo" Gill, the eminent Newburgh News sports authority, following his visit to the Army football team's first major workout, inspired quick and sharp repercussions in several quarters and drew a hasty retraction from the Hill City sports editor.

In his personal column "Stray Boots", Gill wrote that: "Reports at West Point claim that Kingston's Ed Weaver is getting the 'Old Army Silent Treatment.' It is claimed that no Cadet will speak to Big Ed except in the line of duty. What a cold war!"

The article reviewing Army's football prospects since 39 members of the squad were dismissed in the celebrated "cribbing scandal" carried this choice item:

"Big Ed Weaver looms as the star of the year for the Army team. Yet, Big Ed, a Kingston High School product, is reported to be getting his only conversation outside of the line of duty from a recording machine."

The Wires Hummed

The repercussions developed in a hurry.

Cadet Weaver, first string end on the offensive platoon and one of two varsity players left on the squad, took offense at the article and hastily assured his family and followers in Kingston that there was no basis to the charges.

A Kingston friend of Weaver's, who regarded the statement as a direct slap at the former KHS ace, started the wires burning to West Point. Calls were directed to the Public Information Office and the Honor Committee of Cadets.

Some interesting developments followed. The PIO said there was no truth to the report that Big Ed was being cold-shouldered. Joe Cahill, director sports publicity, said everybody at the Point was disturbed by the report and he confirmed earlier assertions that the statement was not in keeping with the facts.

The telephone wires continued to buzz and it was reported that "Bo" would make a further statement on the subject.

A day later, "Bo's" column said:

"UNFOUNDED — Despite rumors to the contrary, Ed Weaver is in the good graces of his fellow Cadets at West Point. He is living the same life as any other Cadet. . . ."

Cahill Irked

In a confidential letter to this department, Joe Cahill was caustic in his criticism of the article, asserting that it was a personal injustice to Ed Weaver.

The rumor must have originated among some of the cadets at the Point and it is quite possible that Gill was given the information by some disgruntled youth. For, as soon as it was published, every person in an official capacity in football at West Point denounced it.

Weaver is expected to be a tower of strength for Coach Earl Blaik's Black Knights of the Hudson this season and it came as a bitter disappointment to his legion of followers in Kingston and mid-Hudson area that his honesty in the cribbing scandal should make him the target of a retribution campaign.

Ruggers, Glovers Cop Opening Decisions in Can-Am Playoffs

SPORTS

By CHARLES J. TIANO
Freeman Sports Editor

Leon Randall's triumph over George Hughes in the city golf finals on Labor Day gave Wiltwyck Golf Club a 5 to 1 edge over Twaalfskill in the annual series. Alvin Boice, a surprise winner over Randall in 1949, is the lone Twaalfskillian to bag a victory.

Twaalfskill's long range hopes are pinned on Boice and Hughes, but Wiltwyck has Randall, Van Aken, Dick Davenport and a flock of up and coming youngsters. This thing could get monotonous.

• Flotsam and Jetsam:

Almost lost in the historic calendar of events in August was a hole-in-one scored by Harold F. King at Twaalfskill a few days ago. King fired the ace with a 3-iron shot off the No. 2. "After 41 years I finally got one," said the old Lion and then proceeded to pick up the tab in the clubhouse. And it was quite weighty. Bob Daley, one of Wiltwyck's best, finished second in the recent Stockbridge tournament with a one-under 71. The inevitable winner was Coach Sig Makofski of Mont Pleasant High, the most professional amateur we have ever seen on a golf course. Daley's showing was quite an accomplishment considering the crack field lined up for the event. Walter Kubica, the Pittsfield simon pure ace, was third. Boyer Gonzales' victory in the Woodstock Country Club finals was a popular one. The Texan had to by-pass the Father Herdegen Memorial Tournament because of illness and rustiness but he promised to be on hand for the 1952 event.

• Gerlak in Empire State Open:

Alex Gerlak of Twaalfskill Golf Club will be among the area pros competing in the Empire State Open starting today at Shaker Ridge Country Club in Albany. Alex led the Northeastern PGA pros in last year's 72-hole event. There will be 18 holes daily on Thursday, Friday, Saturday and Sunday. All of the big time pros including Sam Snead, Jim Ferrier, Jimmy Demaret, Dr. Cary Middlecoff and Lloyd Mangrum will compete. Snead was not in the field last year but Shaker Ridge officials have received assurance from PGA officials that Slammin' Sam will be on hand to thrill the galleries. Gene Sarazen, the Old Master, of Germantown, is an added starter.

The KAA's Little Leaguers visit Yankee Stadium as guests of the Yankee Juniors on Friday. Then comes the big banquet on Saturday, Sept. 29, with Mel Allen as the probable speaker. President Bob Umpleby plans to make this one of the finest functions in KAA history. Floyd Flint has arrangements completed for the big sweepstakes this Sunday and Saturday and Sunday of next week-end. The annual dinner dance preceding the big event is scheduled Saturday night. Wiltwyck swingers are slated for inter-club matches with IBM and Williamstown, Mass., before the annual Pro-Am on Sunday, Sept. 30. The Oneonta Red Sox's winning percentage of .709 was the highest in the history of the Class C circuit. The previous record of .708 was set by the Quebec club last season. Big Ed Weaver was leading the pack in every photo of the Army football squad this season. This is Ed's year to achieve national stardom with the eyes of the United States football world focused on West Point, we don't think he'll muff the big chance.

Many local fans who haven't seen a big time boxing bout in several years will be at the Polo Grounds next Wednesday night for the Randy Turpin-Sugar Ray return. The horseplay that sometimes accompanies wrestling shows is amusing but things got out of hand Saturday night at the municipal auditorium when Ivan "Mad Russian" Gorky aroused a couple of the spectators to wrathful pitch. The two slightly incensed young men on the outside of the ropes weren't kidding when they went after Gorky—one with a chair, the other with his fists. But supposing they hit the wrong guy? What then!

Two Top Finishers Lose First Games

(By The Associated Press)

The two top finishers of the Canadian-American League pennant race return to the post-season playoffs tonight intent on getting even.

The champion Oneonta Red Sox bowed to third-place Amsterdam, 3-1, and the runner-up Pittsfield Electrics dropped a 13-9 verdict to fourth-place Gloversville, in playoff openers last night.

The Red Sox entertain the Ruggers again tonight, and the Glovers play at Pittsfield in the second games of the best of five semi-final series.

Amsterdam's Lou Paz held the Sox to three hits at Oneonta. John Paul Jones, the Ruggers' first baseman, homered with the bases empty in the second inning. The Ruggers picked up two more in the eighth on Bill Posipanka's triple, two singles, a sacrifice and an infield out. George Uhaze was the loser.

Two big innings featured a wild game at Pittsfield. The Electrics, trailing 7-1, scored seven runs in the eighth to shoot ahead, 8-7. The Glovers struck back in the ninth with six runs after two—and seemingly three—were out.

Al Leech, Pittsfield righthander, erased the first two Glovers, walked Pedro Arroyo, and apparently had ended the game when Stan Stampiglio grounded out.

But Umpire D'Ambrosio ruled that Jack Fitzgibbons, Pittsfield catcher, had tipped Stampiglio's bat. Then came three straight walks, forcing in two runs.

Bob Jefferies relieved Leech and Pete Caniglia, Gloversville left fielder, cleaned the loaded bases with a double.

Leech, who came on in the ninth to replace starter George McPhail, was charged with the loss. McPhail was taken out for a pinchhitter.

Pittsfield collected its seven in the eighth on five walks and only three hits, but one was Charlie Ruddock's two-run triple.

Caniglia knocked in six Gloversville runs on two doubles and a single in four official trips. The Glovers used five pitchers. Bob Sise, who faced only two men in the eighth, was the winner.

200 Fans Honor Olive Winners

Nearly 200 persons attended the first annual banquet and prize awarding ceremonies of the Olive Memorial Baseball League on Saturday at Woodland Acres in West Shokan.

William O. Frankel, organizer and president of the league, presented the championship trophies to members of the West Hurley squad. Charles H. Weidner, commander of the Olive Memorial Post of the American Legion, was the master of ceremonies.

Other personalities introduced were the respective coaches and captains of the four teams in the league: Al Nussbaum, Al Blatter, West Hurley; Tom Reilly, Bob Whispell, West Shokan; Harry Brown, Pete Keator, Samsonville; Lee Goldschlag and Al Sarrett, Camp High Point.

President Frankle also extended the thanks of the league to several persons who assisted in the promotion of the league, including Walter Schmoekel, Jack Haggerty, Larry Kelder, Augie Schnitzler, Ed West, Bert Winne and Manny Sonnenreich.

The West Hurley squad won the regular league championship and then defeated an all-star squad picked from within the league in a special post-season feature.

White Plains and Cincy Battle for Legion Berth

Detroit, Sept. 6 (AP)—Undefeated Los Angeles, now in the favorite's position in the American Legion Junior Baseball Tournament here, took a day off today while two once-beaten teams prepared to battle it out for the other spot in the finals.

White Plains, N. Y., and Cincinnati will meet tonight in a game under the lights of Brigg's Stadium. Each has lost once in the double-elimination meet, so the loser will bow out.

The winner will take on Los Angeles tomorrow. If the Californians lose, one more game will be necessary to determine the championship.

In yesterday's game White Plains shut out Jacksonville, Fla., 6-0, to eliminate the southern team, and Los Angeles edged Cincinnati 1-0.

The three-hit pitching of White Plains' Jack Yvars was the big factor in his team's win. Yvars is the brother of Sal Yvars, second-string catcher for the New York Giants.

In the second game three singles and an error with no one out in the ninth sent pinch runner Melvin Goldgers across with the winning run for Los Angeles. John Siegert's liner off the Cincinnati first baseman's shins was the payoff blow.

Bach Leading Driver

Saratoga Springs, N. Y., Sept. 6 (AP)—Fred Bach was the leading driver at Saratoga Raceway's summer meeting. The 29-year-old reinsman from Goshen compiled an average of .306¼ under the Universal driver rating system, it was announced yesterday. Garland Garnsey of Canton, who won the spring meeting crown, finished second in the summer meet that ended Saturday. Garnsey had .298.

Nine Major Grid Games Due for TV In New York Area

New York, Sept. 6 (AP)—There'll be a topflight college football game almost every Saturday this fall for the man who wants to relax in his parlor and enjoy the sport on his television set.

A patchwork 19-game schedule quickly put to rest any fears that the National Collegiate Athletic Association's one-year experimental program would mean a lean home diet of games.

Under the program, in fact, fans will be able to see games on television that otherwise would be denied them. The Big Ten and Pacific Coast, which had banned live television, will participate in the national venture.

The schedule was announced by Westinghouse Electric, which paid approximately $1,250,000 for the right to sponsor the program. The NCAA said Westinghouse did all the arranging.

Up to seven games will be piped to each of 52 stations affiliated with the National Broadcasting Company. Three games will be sent out on a national network.

The television season starts on Sept. 29 and goes through Nov. 24. Special events such as the Army-Navy game and the bowl games do not fall under the NCAA restrictions.

Ralph Furey, athletic director of Columbia University and a member of the NCAA television committee, said the experiment was arranged to test the impact of TV on attendance, to promote interest in college athletics and provide participating colleges with revenue.

The 19 colleges will share about $700,000 of the $1,250,000 paid by Westinghouse.

The following games are slated to be shown in this area:

Sept. 29—Pitt-Duke.
Oct. 6—Illinois-Wisconsin (full network).
Oct. 13 — Notre Dame-SMU (full network).
Oct. 20—Yale-Cornell.
Oct. 27—Harvard-Dartmouth.
Nov. 3—Illinois-Michigan.
Nov. 10—Michigan State-Notre Dame.
Nov. 17—Columbia-Navy.
Nov. 24—Michigan-Ohio State (full network).

Speckled trout have returned in large numbers to many Ontario lakes, according to a report by the Ontario Department of Lands and Forests.

Bowling

The Nocando Bowling League will launch its 1951-52 season tonight at the Bowlatorium at 7 o'clock.

Bowling in the Independent League will get underway next Monday night, Sept. 10, at the Bowlatorium at 7 o'clock sharp. The following teams are paired for the opening night: Vogel's Dairy vs. Callanans, Alleys 1 and 2; Beichert's Studebakers vs. Martin's Market, 3-4; Jump's Market vs. Stone Ridge, 5-6; Sickler's Delivery and Cole's Market, 7-8.

Action in the Booster League began this week at the Bowlodrome with R. Grossbohlin showing the way with a 201 single and 526 series. His other counts were 176 and 149. P. Kowalenko fashioned the only other 500 with his 502 effort.

J. Fabiano rocked 490; A. Hendricks 477; D. Gavis 473; and B. Leach 470.

A familiar name in local bowling circles, Rose Schatzel, topped the distaff Colonial Women's League opener at the Bowlatorium Wednesday night with a string of 182-158-171 for 511, the only 500 put together in the Gold Division.

Trailing closely behind were Phyl Gehringer with 494; Ada Markle 493; Betty Helmbold 466; Betty Bruck 452; Dot Khederian 446.

Helen Bordenstein's 462 string of 172-135-155 topped the Silver Division of the circuit while Amy Mauro placed runnerup with 430.

Top pinfall in the Purple Division of the league went to Helen Buchholtz who fired 148-140-146 for 434. Laura LaMay was the No. 2 keglerette with 424.

D. Joyce and M. Cudney finished in a flat-footed tie for first place honors in the opening matches of the Chalet Pioneer Women's League at the Rosendale lanes with 459 triples respectively.

D. Joyce posted 122-156-181 while M. Cudney hit 167-154-138.

E. Pratt fired 448; J. VanKleeck 443; Helen Suton 428; and Effie Blakely 400.

A three-way tie for top honors in the Pioneer Women's League at the Bowladrome wound up the first night's action in that distaff circuit.

Mickey Amarello, Emma Houghtaling and Shirley Meyers all posted 405 triples. D. Strubel and J. Macchione posted 401 three-timers.

Ruggers, Glovers Cop Opening Decisions in Can-Am Playoffs

SPORTS

By CHARLES J. TIANO
Freeman Sports Editor

Leon Randall's triumph over George Hughes in the city golf finals on Labor Day gave Wiltwyck Golf Club a 5 to 1 edge over Twaalfskill in the annual series. Alvin Boice, a surprise winner over Randall in 1949, is the lone Twaalfskillian to bag a victory.

Twaalfskill's long range hopes are pinned on Boice and Hughes, but Wiltwyck has Randall, Van Aken, Dick Davenport and a flock of up and coming youngsters. This thing could get monotonous.

• Flotsam and Jetsam:

Almost lost in the historic calendar of events in August was a hole-in-one scored by Harold F. King at Twaalfskill a few days ago. King fired the ace with a 3-iron shot off the No. 2. "After 41 years I finally got one," said the old Lion and then proceeded to pick up the tab in the clubhouse. And it was quite weighty. Bob Daley, one of Wiltwyck's best, finished second in the recent Stockbridge tournament with a one-under 71. The inevitable winner was Coach Sig Makofski of Mont Pleasant High, the most professional amateur we have ever seen on a golf course. Daley's showing was quite an accomplishment considering the crack field lined up for the event. Walter Kubica, the Pittsfield simon pure ace, was third. Boyer Gonzales' victory in the Woodstock Country Club finals was a popular one. The Texan had to by-pass the Father Herdegen Memorial Tournament because of illness and rustiness but he promised to be on hand for the 1952 event.

• Gerlak in Empire State Open:

Alex Gerlak of Twaalfskill Golf Club will be among the area pros competing in the Empire State Open starting today at Shaker Ridge Country Club in Albany. Alex led the Northeastern PGA pros in last year's 72-hole event. There will be 18 holes daily on Thursday, Friday, Saturday and Sunday. All of the big time pros including Sam Snead, Jim Ferrier, Jimmy Demaret, Dr. Cary Middlecoff and Lloyd Mangrum will compete. Snead was not in the field last year but Shaker Ridge officials have received assurance from PGA officials that Slammin' Sam will be on hand to thrill the galleries. Gene Sarazen, the Old Master, of Germantown, is an added starter.

The KAA's Little Leaguers visit Yankee Stadium as guests of the Yankee Juniors on Friday. Then comes the big banquet on Saturday, Sept. 29, with Mel Allen as the probable speaker. President Bob Umpleby plans to make this one of the finest functions in KAA history. Floyd Flint has arrangements completed for the big sweepstakes this Sunday and Saturday and Sunday of next week-end. The annual dinner dance preceding the big event is scheduled Saturday night. Wiltwyck swingers are slated for inter-club matches with IBM and Williamstown, Mass., before the annual Pro-Am on Sunday, Sept. 30. The Oneonta Red Sox's winning percentage of .709 was the highest in the history of the Class C circuit. The previous record of .708 was set by the Quebec club last season. Big Ed Weaver was leading the pack in every photo of the Army football squad this season. This is Ed's year to achieve national stardom with the eyes of the United States football world focused on West Point, we don't think he'll muff the big chance.

Many local fans who haven't seen a big time boxing bout in several years will be at the Polo Grounds next Wednesday night for the Randy Turpin-Sugar Ray return. The horseplay that sometimes accompanies wrestling shows is amusing but things got out of hand Saturday night at the municipal auditorium when Ivan "Mad Russian" Gorky aroused a couple of the spectators to wrathful pitch. The two slightly incensed young men oh the outside of the ropes weren't kidding when they went after Gorky—one with a chair, the other with his fists. But supposing they hit the wrong guy? What then!

Two Top Finishers Lose First Games

(By The Associated Press)

The two top finishers of the Canadian-American League pennant race return to the post-season playoffs tonight intent on getting even.

The champion Oneonta Red Sox bowed to third-place Amsterdam, 3-1, and the runner-up Pittsfield Electrics dropped a 13-9 verdict to fourth-place Gloversville, in playoff openers last night.

The Red Sox entertain the Ruggers again tonight, and the Glovers play at Pittsfield in the second games of the best of five semi-final series.

Amsterdam's Lou Paz held the Sox to three hits at Oneonta. John Paul Jones, the Ruggers' first baseman, homered with the bases empty in the second inning. The Ruggers picked up two more in the eighth on Bill Posipanka's triple, two singles, a sacrifice and an infield out. George Uhaze was the loser.

Two big innings featured a wild game at Pittsfield. The Electrics, trailing 7-1, scored seven runs in the eighth to shoot ahead, 8-7. The Glovers struck back in the ninth with six runs after two—and seemingly three—were out.

Al Leech, Pittsfield righthander, erased the first two Glovers, walked Pedro Arroyo, and apparently had ended the game when Stan Stampiglio grounded out.

But Umpire D'Ambrosio ruled that Jack Fitzgibbons, Pittsfield catcher, had tipped Stampiglio's bat. Then came three straight walks, forcing in two runs.

Bob Jefferies relieved Leech and Pete Caniglia, Gloversville left fielder, cleaned the loaded bases with a double.

Leech, who came on in the ninth to replace starter George McPhail, was charged with the loss. McPhail was taken out for a pinchhitter.

Pittsfield collected its seven in the eighth on five walks and only three hits, but one was Charlie Ruddock's two-run triple.

Caniglia knocked in six Gloversville runs on two doubles and a single in four official trips. The Glovers used five pitchers. Bob Sise, who faced only two men in the eighth, was the winner.

200 Fans Honor Olive Winners

Nearly 200 persons attended the first annual banquet and prize awarding ceremonies of the Olive Memorial Baseball League on Saturday at Woodland Acres in West Shokan.

William O. Frankel, organizer and president of the league, presented the championship trophies to members of the West Hurley squad. Charles H. Weidner, commander of the Olive Memorial Post of the American Legion, was the master of ceremonies.

Other personalities introduced were the respective coaches and captains of the four teams in the league: Al Nussbaum, Al Blatter, West Hurley; Tom Reilly, Bob Whispell, West Shokan; Harry Brown, Pete Keator, Samsonville; Lee Goldschlag and Al Sarrett, Camp High Point.

President Frankle also extended the thanks of the league to several persons who assisted in the promotion of the league, including Walter Schmoekel, Jack Haggerty, Larry Kelder, Augie Schnitzler, Ed West, Bert Winne and Manny Sonnenreich.

The West Hurley squad won the regular league championship and then defeated an all-star squad picked from within the league in a special post-season feature.

White Plains and Cincy Battle for Legion Berth

Detroit, Sept. 6 (AP)—Undefeated Los Angeles, now in the favorite's position in the American Legion Junior Baseball Tournament here, took a day off today while two once-beaten teams prepared to battle it out for the other spot in the finals.

White Plains, N. Y., and Cincinnati will meet tonight in a game under the lights of Brigg's Stadium. Each has lost once in the double-elimination meet, so the loser will bow out.

The winner will take on Los Angeles tomorrow. If the Californians lose, one more game will be necessary to determine the championship.

In yesterday's game White Plains shut out Jacksonville, Fla., 6-0, to eliminate the southern team, and Los Angeles edged Cincinnati 1-0.

The three-hit pitching of White Plains' Jack Yvars was the big factor in his team's win. Yvars is the brother of Sal Yvars, second-string catcher for the New York Giants.

In the second game three singles and an error with no one out in the ninth sent pinch runner Melvin Goldgers across with the winning run for Los Angeles. John Siegert's liner off the Cincinnati first baseman's shins was the payoff blow.

Bach Leading Driver

Saratoga Springs, N. Y., Sept. 6 (AP)—Fred Bach was the leading driver at Saratoga Raceway's summer meeting. The 29-year-old reinsman from Goshen compiled an average of .306¼ under the Universal driver rating system, it was announced yesterday. Garland Garnsey of Canton, who won the spring meeting crown, finished second in the summer meet that ended Saturday. Garnsey had .298.

Nine Major Grid Games Due for TV In New York Area

New York, Sept. 6 (AP)—There'll be a topflight college football game almost every Saturday this fall for the man who wants to relax in his parlor and enjoy the sport on his television set.

A patchwork 19-game schedule quickly put to rest any fears that the National Collegiate Athletic Association's one-year experimental program would mean a lean home diet of games.

Under the program, in fact, fans will be able to see games on television that otherwise would be denied them. The Big Ten and Pacific Coast, which had banned live television, will participate in the national venture.

The schedule was announced by Westinghouse Electric, which paid approximately $1,250,000 for the right to sponsor the program. The NCAA said Westinghouse did all the arranging.

Up to seven games will be piped to each of 52 stations affiliated with the National Broadcasting Company. Three games will be sent out on a national network.

The television season starts on Sept. 29 and goes through Nov. 24. Special events such as the Army-Navy game and the bowl games do not fall under the NCAA restrictions.

Ralph Furey, athletic director of Columbia University and a member of the NCAA television committee, said the experiment was arranged to test the impact of TV on attendance, to promote interest in college athletics and provide participating colleges with revenue.

The 19 colleges will share about $700,000 of the $1,250,000 paid by Westinghouse.

The following games are slated to be shown in this area:

Sept. 29—Pitt-Duke.
Oct. 6—Illinois-Wisconsin (full network).
Oct. 13 — Notre Dame-SMU (full network).
Oct. 20—Yale-Cornell.
Oct. 27—Harvard-Dartmouth.
Nov. 3—Illinois-Michigan.
Nov. 10—Michigan State-Notre Dame.
Nov. 17—Columbia-Navy.
Nov. 24—Michigan-Ohio State (full network).

Speckled trout have returned in large numbers to many Ontario lakes, according to a report by the Ontario Department of Lands and Forests.

Bowling

The Nocando Bowling League will launch its 1951-52 season tonight at the Bowlatorium at 7 o'clock sharp.

Bowling in the Independent League will get underway next Monday night, Sept. 10, at the Bowlatorium at 7 o'clock sharp. The following teams are paired for the opening night: Vogel's Dairy vs. Callanans, Alleys 1 and 2; Beichert's Studebakers vs. Martin's Market, 3-4; Jump's Market vs. Stone Ridge, 5-6; Sickler's Delivery and Cole's Market, 7-8.

Action in the Booster League began this week at the Bowlodrome with R. Grossbohlin showing the way with a 201 single and 526 series. His other counts were 176 and 149. P. Kowalenko fashioned the only other 500 with his 502 effort.

J. Fabiano rocked 490; A. Hendricks 477; D. Gavis 473; and B. Leach 470.

A familiar name in local bowling circles, Rose Schatzel, topped the distaff Colonial Women's League opener at the Bowlatorium Wednesday night with a string of 182-158-171 for 511, the only 500 put together in the Gold Division.

Trailing closely behind were Phyl Gehringer with 494; Ada Markle 493; Betty Helmbold 466; Betty Bruck 452; Dot Khederian 446.

Helen Bordenstein's 462 string of 172-135-155 topped the Silver Division of the circuit while Amy Mauro placed runnerup with 430.

Top pinfall in the Purple Division of the league went to Helen Buchholtz who fired 148-140-146 for 434. Laura LaMay was the No. 2 keglerette with 424.

D. Joyce and M. Cudney finished in a flat-footed tie for first place honors in the opening matches of the Chalet Pioneer Women's League at the Rosendale lanes with 459 triples respectively.

D. Joyce posted 122-156-181 while M. Cudney hit 167-154-138.

E. Pratt fired 448; J. VanKleeck 443; Helen Suton 428; and Effie Blakely 400.

A three-way tie for top honors in the Pioneer Women's League at the Bowladrome wound up the first night's action in that distaff circuit.

Mickey Amarello, Emma Houghtaling and Shirley Meyers all posted 405 triples. D. Strubel and J. Macchione posted 401 three-timers.

SPORTS

By CHARLES J. TIANO
Freeman Sports Editor

Leon Randall's triumph over George Hughes in the city golf finals on Labor Day gave Wiltwyck Golf Club a 5 to 1 edge over Twaalfskill in the annual series. Alvin Boice, a surprise winner over Randall in 1949, is the lone Twaalfskillian to bag a victory.

Twaalfskill's long range hopes are pinned on Boice and Hughes, but Wiltwyck has Randall, Van Aken, Dick Davenport and a flock of up and coming youngsters. This thing could get monotonous.

• Flotsam and Jetsam:

Almost lost in the historic calendar of events in August was a hole-in-one scored by Harold F. King at Twaalfskill a few days ago. King fired the ace with a 3-iron shot off the No. 2. "After 41 years I finally got one," said the old Lion and then proceeded to pick up the tab in the clubhouse. And it was quite weighty. Bob Daley, one of Wiltwyck's best, finished second in the recent Stockbridge tournament with a one-under 71. The inevitable winner was Coach Sig Makofski of Mont Pleasant High, the most professional amateur we have ever seen on a golf course. Daley's showing was quite an accomplishment considering the crack field lined up for the event. Walter Kubica, the Pittsfield simon pure ace, was third. Boyer Gonzales' victory in the Woodstock Country Club finals was a popular one. The Texan had to by-pass the Father Herdegen Memorial Tournament because of illness and rustiness but he promised to be on hand for the 1952 event.

• Gerlak in Empire State Open:

Alex Gerlak of Twaalfskill Golf Club will be among the area pros competing in the Empire State Open starting today at Shaker Ridge Country Club in Albany. Alex led the Northeastern PGA pros in last year's 72-hole event. There will be 18 holes daily on Thursday, Friday, Saturday and Sunday. All of the big time pros including Sam Snead, Jim Ferrier, Jimmy Demaret, Dr. Cary Middlecoff and Lloyd Mangrum will compete. Snead was not in the field last year but Shaker Ridge officials have received assurance from PGA officials that Slammin' Sam will be on hand to thrill the galleries. Gene Sarazen, the Old Master, of Germantown, is an added starter.

The KAA's Little Leaguers visit Yankee Stadium as guests of the Yankee Juniors on Friday. Then comes the big banquet on Saturday, Sept. 29, with Mel Allen as the probable speaker. President Bob Umpleby plans to make this one of the finest functions in KAA history. Floyd Flint has arrangements completed for the big sweepstakes this Sunday and Saturday and Sunday of next week-end. The annual dinner dance preceding the big event is scheduled Saturday night. Wiltwyck swingers are slated for inter-club matches with IBM and Williamstown, Mass., before the annual Pro-Am on Sunday, Sept. 30. The Oneonta Red Sox's winning percentage of .709 was the highest in the history of the Class C circuit. The previous record of .708 was set by the Quebec club last season. Big Ed Weaver was leading the pack in every photo of the Army football squad this season. This is Ed's year to achieve national stardom with the eyes of the United States football world focused on West Point, we don't think he'll muff the big chance.

Many local fans who haven't seen a big time boxing bout in several years will be at the Polo Grounds next Wednesday night for the Randy Turpin-Sugar Ray return. The horseplay that sometimes accompanies wrestling shows is amusing but things got out of hand Saturday night at the municipal auditorium when Ivan "Mad Russian" Gorky aroused a couple of the spectators to wrathful pitch. The two slightly incensed young men oh the outside of the ropes weren't kidding when they went after Gorky—one with a chair, the other with his fists. But supposing they hit the wrong guy? What then!

Two Top Finishers Lose First Games

(By The Associated Press)

The two top finishers of the Canadian-American League pennant race return to the post-season playoffs tonight intent on getting even.

The champion Oneonta Red Sox bowed to third-place Amsterdam, 3-1, and the runner-up Pittsfield Electrics dropped a 13-9 verdict to fourth-place Gloversville, in playoff openers last night.

The Red Sox entertain the Ruggers again tonight, and the Glovers play at Pittsfield in the second games of the best of five semi-final series.

Amsterdam's Lou Paz held the Sox to three hits at Oneonta. John Paul Jones, the Ruggers' first baseman, homered with the bases empty in the second inning. The Ruggers picked up two more in the eighth on Bill Posipanka's triple, two singles, a sacrifice and an infield out. George Uhaze was the loser.

Two big innings featured a wild game at Pittsfield. The Electrics, trailing 7-1, scored seven runs in the eighth to shoot ahead, 8-7. The Glovers struck back in the ninth with six runs after two—and seemingly three—were out.

Al Leech, Pittsfield righthander, erased the first two Glovers, walked Pedro Arroyo, and apparently had ended the game when Stan Stampiglio grounded out.

But Umpire D'Ambrosio ruled that Jack Fitzgibbons, Pittsfield catcher, had tipped Stampiglio's bat. Then came three straight walks, forcing in two runs.

Bob Jefferies relieved Leech and Pete Caniglia, Gloversville left fielder, cleaned the loaded bases with a double.

Leech, who came on in the ninth to replace starter George McPhail, was charged with the loss. McPhail was taken out for a pinchhitter.

Pittsfield collected its seven in the eighth on five walks and only three hits, but one was Charlie Ruddock's two-run triple.

Caniglia knocked in six Gloversville runs on two doubles and a single in four official trips. The Glovers used five pitchers. Bob Sise, who faced only two men in the eighth, was the winner.

200 Fans Honor Olive Winners

Nearly 200 persons attended the first annual banquet and prize awarding ceremonies of the Olive Memorial Baseball League on Saturday at Woodland Acres in West Shokan.

William O. Frankel, organizer and president of the league, presented the championship trophies to members of the West Hurley squad. Charles H. Weidner, commander of the Olive Memorial Post of the American Legion, was the master of ceremonies.

Other personalities introduced were the respective coaches and captains of the four teams in the league: Al Nussbaum, Al Blatter, West Hurley; Tom Reilly, Bob Whispell, West Shokan; Harry Brown, Pete Keator, Samsonville; Lee Goldschlag and Al Sarrett, Camp High Point.

President Frankle also extended the thanks of the league to several persons who assisted in the promotion of the league, including Walter Schmoekel, Jack Haggerty, Larry Kelder, Augie Schnitzler, Ed West, Bert Winne and Manny Sonnenreich.

The West Hurley squad won the regular league championship and then defeated an all-star squad picked from within the league in a special post-season feature.

White Plains and Cincy Battle for Legion Berth

Detroit, Sept. 6 (AP)—Undefeated Los Angeles, now in the favorite's position in the American Legion Junior Baseball Tournament here, took a day off today while two once-beaten teams prepared to battle it out for the other spot in the finals.

White Plains, N. Y., and Cincinnati will meet tonight in a game under the lights of Brigg's Stadium. Each has lost once in the double-elimination meet, so the loser will bow out.

The winner will take on Los Angeles tomorrow. If the Californians lose, one more game will be necessary to determine the championship.

In yesterday's game White Plains shut out Jacksonville, Fla., 6-0, to eliminate the southern team, and Los Angeles edged Cincinnati 1-0.

The three-hit pitching of White Plains' Jack Yvars was the big factor in his team's win. Yvars is the brother of Sal Yvars, second-string catcher for the New York Giants.

In the second game three singles and an error with no one out in the ninth sent pinch runner Melvin Goldgers across with the winning run for Los Angeles. John Siegert's liner off the Cincinnati first baseman's shins was the payoff blow.

Bach Leading Driver

Saratoga Springs, N. Y., Sept. 6 (AP)—Fred Bach was the leading driver at Saratoga Raceway's summer meeting. The 29-year-old reinsman from Goshen compiled an average of .306¼ under the Universal driver rating system, it was announced yesterday. Garland Garnsey of Canton, who won the spring meeting crown, finished second in the summer meet that ended Saturday. Garnsey had .298.

Nine Major Grid Games Due for TV In New York Area

New York, Sept. 6 (AP)—There'll be a topflight college football game almost every Saturday this fall for the man who wants to relax in his parlor and enjoy the sport on his television set.

A patchwork 19-game schedule quickly put to rest any fears that the National Collegiate Athletic Association's one-year experimental program would mean a lean home diet of games.

Under the program, in fact, fans will be able to see games on television that otherwise would be denied them. The Big Ten and Pacific Coast, which had banned live television, will participate in the national venture.

The schedule was announced by Westinghouse Electric, which paid approximately $1,250,000 for the right to sponsor the program. The NCAA said Westinghouse did all the arranging.

Up to seven games will be piped to each of 52 stations affiliated with the National Broadcasting Company. Three games will be sent out on a national network.

The television season starts on Sept. 29 and goes through Nov. 24. Special events such as the Army-Navy game and the bowl games do not fall under the NCAA restrictions.

Ralph Furey, athletic director of Columbia University and a member of the NCAA television committee, said the experiment was arranged to test the impact of TV on attendance, to promote interest in college athletics and provide participating colleges with revenue.

The 19 colleges will share about $700,000 of the $1,250,000 paid by Westinghouse.

The following games are slated to be shown in this area:

Sept. 29—Pitt-Duke.
Oct. 6—Illinois-Wisconsin (full network).
Oct. 13 — Notre Dame-SMU (full network).
Oct. 20—Yale-Cornell.
Oct. 27—Harvard-Dartmouth.
Nov. 3—Illinois-Michigan.
Nov. 10—Michigan State-Notre Dame.
Nov. 17—Columbia-Navy.
Nov. 24—Michigan-Ohio State (full network).

Speckled trout have returned in large numbers to many Ontario lakes, according to a report by the Ontario Department of Lands and Forests.

Bowling

The Nocando Bowling League will launch its 1951-52 season tonight at the Bowlatorium at 7 o'clock.

Bowling in the Independent League will get underway next Monday night, Sept. 10, at the Bowlatorium at 7 o'clock sharp. The following teams are paired for the opening night: Vogel's Dairy vs. Callanans, Alleys 1 and 2; Beichert's Studebakers vs. Martin's Market, 3-4; Jump's Market vs. Stone Ridge, 5-6; Sickler's Delivery and Cole's Market, 7-8.

Action in the Booster League began this week at the Bowlodrome with R. Grossbohlin showing the way with a 201 single and 526 series. His other counts were 176 and 149. P. Kowalenko fashioned the only other 500 with his 502 effort.

J. Fabiano rocked 490; A. Hendricks 477; D. Gavis 473; and B. Leach 470.

A familiar name in local bowling circles, Rose Schatzel, topped the distaff Colonial Women's League opener at the Bowlatorium Wednesday night with a string of 182-158-171 for 511, the only 500 put together in the Gold Division.

Trailing closely behind were Phyl Gehringer with 494; Ada Markle 493; Betty Helmbold 466; Betty Bruck 452; Dot Khederian 446.

Helen Bordenstein's 462 string of 172-135-155 topped the Silver Division of the circuit while Amy Mauro placed runnerup with 430.

Top pinfall in the Purple Division of the league went to Helen Buchholtz who fired 148-140-146 for 434. Laura LaMay was the No. 2 keglerette with 424.

D. Joyce and M. Cudney finished in a flat-footed tie for first place honors in the opening matches of the Chalet Pioneer Women's League at the Rosendale lanes with 459 triples respectively.

D. Joyce posted 122-156-181 while M. Cudney hit 167-154-138.

E. Pratt fired 448; J. VanKleeck 443; Helen Suton 428; and Effie Blakely 400.

A three-way tie for top honors in the Pioneer Women's League at the Bowladrome wound up the first night's action in that distaff circuit.

Mickey Amarello, Emma Houghtaling and Shirley Meyers all posted 405 triples. D. Strubel and J. Macchione posted 401 three-timers.

Top Money Winners Open State Golf Play

Albany, N. Y., Sept. 6 (AP)—Professional golf's two leading money winners led a field of 128 into the opening round of the second $15,000 Empire State Open today.

Lloyd Mangrum of Niles, Ill., who has won four tournaments and $22,548 this year, and Jim Ferrier of San Francisco, who has pocketed $20,591, start after the empire's $2,400 first prize.

The tourney at the 6,665-yard Shake Ridge Country Club course will cover four days.

Ferrier, most consistent 1951 winner among the pros, is seeking his sixth tournament crown of the year.

But a scarred tourist with a mended ankle — defending champion Stuart (Skip) Alexander — is the sentimental favorite.

The 33-year-old St. Petersburg, Fla., pro, badly burned in an Indiana plane crash last Sept. 24, returned to the fairways a month ago after five and a half months in a hospital.

The field, which includes 25 amateurs, will be paired to 60 for the last 36 holes.

Top Money Winners Open State Golf Play

Albany, N. Y., Sept. 6 (AP)—Professional golf's two leading money winners led a field of 128 into the opening round of the second $15,000 Empire State Open today.

Lloyd Mangrum of Niles, Ill., who has won four tournaments and $22,548 this year, and Jim Ferrier of San Francisco, who has pocketed $20,591, start after the empire's $2,400 first prize.

The tourney at the 6,665-yard Shake Ridge Country Club course will cover four days.

Ferrier, most consistent 1951 winner among the pros, is seeking his sixth tournament crown of the year.

But a scarred tourist with a mended ankle — defending champion Stuart (Skip) Alexander — is the sentimental favorite.

The 33-year-old St. Petersburg, Fla., pro, badly burned in an Indiana plane crash last Sept. 24, returned to the fairways a month ago after five and a half months in a hospital.

The field, which includes 25 amateurs, will be paired to 60 for the last 36 holes.

Top Money Winners Open State Golf Play

Albany, N. Y., Sept. 6 (AP)—Professional golf's two leading money winners led a field of 128 into the opening round of the second $15,000 Empire State Open today.

Lloyd Mangrum of Niles, Ill., who has won four tournaments and $22,548 this year, and Jim Ferrier of San Francisco, who has pocketed $20,591, start after the empire's $2,400 first prize.

The tourney at the 6,665-yard Shake Ridge Country Club course will cover four days.

Ferrier, most consistent 1951 winner among the pros, is seeking his sixth tournament crown of the year.

But a scarred tourist with a mended ankle — defending champion Stuart (Skip) Alexander — is the sentimental favorite.

The 33-year-old St. Petersburg, Fla., pro, badly burned in an Indiana plane crash last Sept. 24, returned to the fairways a month ago after five and a half months in a hospital.

The field, which includes 25 amateurs, will be paired to 60 for the last 36 holes.

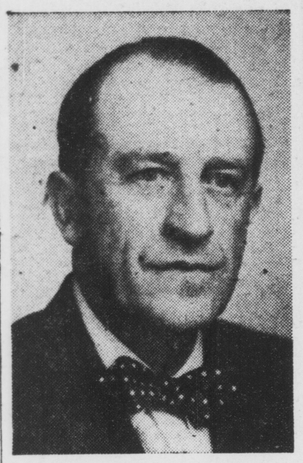
Loughran Chosen Special Gifts Head For Benedictine



Roger H. Loughran of Hurley and prominent Kingston attorney, has been named special gifts chairman of the $600,000 Benedictine Hospital building fund campaign, Senator Arthur H. Wicks and James W. Dwyer, general co-chairmen, announced today.

Loughran, a native of Kingston, is counsel for the Kingston Savings Institution. He has been engaged in the practice of law for a number of years in Kingston at 280 Wall street. Prior to opening law offices here, Loughran was associated with a banking firm in South America.

As special gifts chairman of the Benedictine campaign, Loughran will organize one of the largest and most important divisions. At the present time he is getting together an organization of approximately 200 workers, who will solicit the larger givers in the county.

Senator Wicks and Dwyer expect to have the remainder of their organization completed within a few days with actual solicitation starting near the middle of the month.

News of Our Own Service Folks In Korea

CPL. GORDON SAUNDERS

Cpl. Gordon Saunders, son of Edward E. Saunders, 18 Mill street, recently received a promotion to his present rank while serving with the 7th Infantry Regiment of the 3rd Infantry Division in Korea. He has been serving in Korea since October, 1950. Cpl. Saunders enlisted September, 1949.

Katcher Completes Course

Even though he had no airplane, and had both feet on the ground, Lt. (jg) Martin J. Katcher, USN, son of Mr. and Mrs. Harry Katcher of 55 Washington avenue, Kingston, N. Y., recently participated in a night bombing mission.

This "flight" was part of a night vision course he just completed at the U. S. Naval Air Station, San Diego, Calif., where his unit is now based.

Because of the importance of being able to see distinctly during night flying, the Navy has set up this short informative course for Navy pilots and crewmen.

Recent Enlistments

Names of recent enlistees have been announced by the local army and air force recruiting station. In the air force are Walter L. Chamberlain, 18, New Paltz; Richard G. Mayone, 20, Ulster avenue, Saugerties; two brothers, Robert I. Simpson, 18, and William G. Simpson, 17, of New Paltz and Carmelo P. Spano, 20, of 17 Crane street, Kingston, who is originally from Watertown. In the army were Joseph C. Groppuso, 18, Kiersted Lane, Kingston; Donald L. Irwin, 20, Shandaken and Joseph J. Gardeski, Jr., East Kingston who was enlisted for the specific purpose of attending officer's candidate school at Ft. Belvoir, Va. upon completion of basic training and the leader's course at Ft. Dix.

Financial and Commercial

New York, Sept. 6 (AP)—Leadership shifted from one major group to another today in the stock market with prices generally higher.

The advance carried up to between $1 and $2 a share with even heavier gains shown here and there in the list.

Steels and oils, with some help from copper mining shares, opened the forward movement in the first hour. Steels and coppers lost their momentum later and turned mixed.

Stocks moving up included Santa Fe, Southern Railway, Northern Pacific, Cities Service, Sinclair Oil, Gulf Oil, Bethlehem Steel, American Telephone, American Cyanamid, Dow Chemical, du Pont, General Electric, Consolidated Vultee, Radio Corp., Montgomery Ward, and Sears Roebuck.

Figured in the action of the railroad section was the report of the Association of American Railroads showing net income for Class 1 roads was $272,000,000 in the first seven months of this year as compared with $273,000,000 for the comparable period a year ago.

Higher curb stocks included Calgary & Edmonton, Cosden Petroleum, Dominion Steel & Coal, General Plywood, Hecla Mining, Kaiser-Frazer, New Mexico & Arizona Land, Raytheon Mfg., and St. Lawrence Corp.

Railroad and utilities issues headed a slight gain in the bond market. U. S. Government securities remained steady in the over the counter market.

Quotations by Morgan Davis & Co., members of the New York Stock Exchange, 60 Beaver street, New York city; branch office, 41 John street, R. B. Osterhoudt, manager.

As the U. S. increases its rearmament tempo, production of steel becomes an ever more vital subject. Above Newschart shows the probable steel production for this year—above 100,000,000 tons, depending on the absence of work stoppages and the availability of scrap.

TORNADO OVER KOREA—The only Air Force jet bomber in Korean combat today is the North American RB-45 "Tornado," above. The craft, manned by three airmen, has five camera stations and is designed for long range special missions at high speed and high altitude. It's four jet engines will develop speeds of 550 miles an hour. All other jets in Korea are fighter planes.

Martocci Is Away, Next Step on Pay Raise Uncertain

Attorney Frank Martocci, counsel for local policemen and firemen was out of the city today and not available for a statement as to the next step in efforts to place a proposed pay boost proposition on the ballot in the November election.

Filing of the referendum petition was rejected yesterday by the city clerk, because of the opinion of corporation counsel that under a new section of the City Home Rule Law he had no legal right to accept it.

The next move by the attorney for the police and firemen is expected to be a bid for a Supreme Court order to place the proposal on the ballot. Martocci left the city early today, however, and no statement as to when he will bring the petitioners' case to the Supreme Court was available.

Martocci takes the stand that the petition for the salary increases includes mention of a plan in that it leaves the question of making the money available with the Common Council. The corporation counsel contends that more specific details as to the means of raising the money must be included in the petition.

OPEN AND SHUT CASE—There was plenty of comment on Capitol Hill when eagle-eyed Congressmen discovered the Army Quartermaster had ordered 68,000,000 can openers. The thing blew over when it turned out that this was the can opener—a tiny hinged device made of two small pieces of steel, and costing less than two cents. The Army considers them expendable. (U. S. THE TEN COMMANDMENTS of OUR Business

A Customer	is the most important person in any business.
A Customer	is not dependent on us—we are dependent on him.
A Customer	is not an interruption of our work—he is the purpose of it.
A Customer	does us a favor when he calls—we are not doing him a favor by serving him.
A Customer	is part of our business—he is not an outsider.
A Customer	is not a cold statistic — he is a flesh-and-blood human being with feelings and emotions like our own.
A Customer	is not someone to argue or match wits with.
A Customer	is a person who brings us his wants — it is our job to fill those wants
A Customer	is deserving of the most courteous and attentive treatment we can give him.
A Customer	is the life blood of this and every other business.

You have convinced us that devotion to these ten commandments is good policy. You have given us your confidence and support. This support, in turn, has made possible our outstanding growth during the past 19 years!

KRUMVILLE

Krumville, Sept. 6—Mary Evelyn Hansen celebrated her birthday on Saturday afternoon by entertaining several of her schoolmates.

Mr. and Mrs. Carl Andersen had several guests from Brooklyn over the weekend.

A reunion of the Brown family was held at the home of Mr. and Mrs. Floyd Brown on Monday evening. A buffet supper was served to 16 guests. Among those present were Mr. and Mrs. Ross Brown, Mr. and Mrs. LeRoy Brown, Mr. and Mrs. Raymond Markle, Jeanette Wager, Beatrice and Marie Brown and Burton Dudley, Wilbur Brown and Mr. and Mrs. Floyd Brown.

Mr. and Mrs. Andrew Pedersen entertained the following guests on Labor Day: Mr. and Mrs. Nels Pedersen, Mr. and Mrs. Richard Olsen and daughter Joan, Mr. and Mrs. Theodore Pedersen, Mrs. Harold Jacobsen, Mrs. Mabel Matisori and daughter Myra.

Mr. and Mrs. Harold Davis and son Robert spent Sunday evening with his mother Mrs. Katie Davis.

About the Folks

Mrs. Anna E. DeMott has returned from the hospital to her home at 179 Wall street.

Mrs. Albert Sherman of Stone Ridge is a patient at Kingston Hospital where she underwent an operation today.

Calls for Alliance

Lake Placid, N. Y., Sept. 6 (AP)—The president of the New York State CIO Council called today for an aggressive alliance of labor and farmers to defeat what he termed "reactionary" legislators. Louis Hollander told the 750 delegates to the 12th annual state CIO convention that they should go all out to join farm groups as a new political force. "I'm not making any threat of a third party," he said, "but I'm confident that we'll have the first party, not the third party, if labor and farmers wake up."

Loughran Chosen Special Gifts Head For Benedictine

Roger H. Loughran of Hurley and prominent Kingston attorney, has been named special gifts chairman of the $600,000 Benedictine Hospital building fund campaign, Senator Arthur H. Wicks and James W. Dwyer, general co-chairmen, announced today.

Loughran, a native of Kingston, is counsel for the Kingston Savings Institution. He has been engaged in the practice of law for a number of years in Kingston at 280 Wall street. Prior to opening law offices here, Loughran was associated with a banking firm in South America.

As special gifts chairman of the Benedictine campaign, Loughran will organize one of the largest and most important divisions. At the present time he is getting together an organization of approximately 200 workers, who will solicit the larger givers in the county.

Senator Wicks and Dwyer expect to have the remainder of their organization completed within a few days with actual solicitation starting near the middle of the month.

CPL. GORDON SAUNDERS

Cpl. Gordon Saunders, son of Edward E. Saunders, 18 Mill street, recently received a promotion to his present rank while serving with the 7th Infantry Regiment of the 3rd Infantry Division in Korea. He has been serving in Korea since October, 1950. Cpl. Saunders enlisted September, 1949.

Katcher Completes Course

Even though he had no airplane, and had both feet on the ground, Lt. (jg) Martin J. Katcher, USN, son of Mr. and Mrs. Harry Katcher of 55 Washington avenue, Kingston, N. Y., recently participated in a night bombing mission.

This "flight" was part of a night vision course he just completed at the U. S. Naval Air Station, San Diego, Calif., where his unit is now based.

Because of the importance of being able to see distinctly during night flying, the Navy has set up this short informative course for Navy pilots and crewmen.

Recent Enlistments

Names of recent enlistees have been announced by the local army and air force recruiting station. In the air force are Walter L. Chamberlain, 18, New Paltz; Richard G. Mayone, 20, Ulster avenue, Saugerties; two brothers, Robert I. Simpson, 18, and William G. Simpson, 17, of New Paltz and Carmelo P. Spano, 20, of 17 Crane street, Kingston, who is originally from Watertown. In the army were Joseph C. Groppuso, 18, Kiersted Lane, Kingston; Donald L. Irwin, 20, Shandaken and Joseph J. Gardeski, Jr., East Kingston who was enlisted for the specific purpose of attending officer's candidate school at Ft. Belvoir, Va. upon completion of basic training and the leader's course at Ft. Dix.

New York, Sept. 6 (AP)—Leadership shifted from one major group to another today in the stock market with prices generally higher.

The advance carried up to between $1 and $2 a share with even heavier gains shown here and there in the list.

Steels and oils, with some help from copper mining shares, opened the forward movement in the first hour. Steels and coppers lost their momentum later and turned mixed.

Stocks moving up included Santa Fe, Southern Railway, Northern Pacific, Cities Service, Sinclair Oil, Gulf Oil, Bethlehem Steel, American Telephone, American Cyanamid, Dow Chemical, du Pont, General Electric, Consolidated Vultee, Radio Corp., Montgomery Ward, and Sears Roebuck.

Figured in the action of the railroad section was the report of the Association of American Railroads showing net income for Class 1 roads was $272,000,000 in the first seven months of this year as compared with $273,000,000 for the comparable period a year ago.

Higher curb stocks included Calgary & Edmonton, Cosden Petroleum, Dominion Steel & Coal, General Plywood, Hecla Mining, Kaiser-Frazer, New Mexico & Arizona Land, Raytheon Mfg., and St. Lawrence Corp.

Railroad and utilities issues headed a slight gain in the bond market. U. S. Government securities remained steady in the over the counter market.

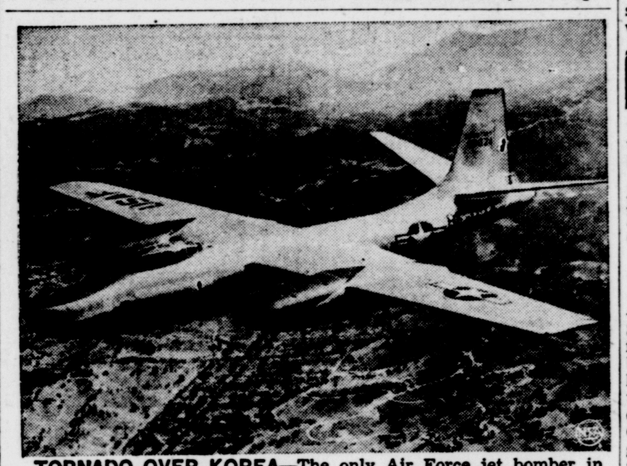
As the U. S. increases its rearmament tempo, production of steel becomes an ever more vital subject. Above Newschart shows the probable steel production for this year—above 100,000,000 tons, depending on the absence of work stoppages and the availability of scrap.



TORNADO OVER KOREA—The only Air Force jet bomber in Korean combat today is the North American RB-45 "Tornado," above. Martocci Is Away, Next Step on Pay Raise Uncertain

Attorney Frank Martocci, counsel for local policemen and firemen was out of the city today and not available for a statement as to the next step in efforts to place a proposed pay boost proposition on the ballot in the November election.

Filing of the referendum petition was rejected yesterday by the city clerk, because of the opinion of corporation counsel that under a new section of the City Home Rule Law he had no legal right to accept it.

The next move by the attorney for the police and firemen is expected to be a bid for a Supreme Court order to place the proposal on the ballot. Martocci left the city early today, however, and no statement as to when he will bring the petitioners' case to the Supreme Court was available.

Martocci takes the stand that the petition for the salary increases includes mention of a plan in that it leaves the question of making the money available with the Common Council. The corporation counsel contends that more specific details as to the means of raising the money must be included in the petition.

OPEN AND SHUT CASE—There was plenty of comment on Capitol Hill when eagle-eyed Congressmen discovered the Army Quartermaster had ordered 68,000,000 can openers. The thing blew over when it turned out that this was the can opener—a tiny hinged device made of two small pieces of steel, and costing less than two cents. The Army considers them expendable. (U. S. THE TEN COMMANDMENTS of OUR Business

A Customer	is the most important person in any business.
A Customer	is not dependent on us—we are dependent on him.
A Customer	is not an interruption of our work—he is the purpose of it.
A Customer	does us a favor when he calls—we are not doing him a favor by serving him.
A Customer	is part of our business—he is not an outsider.
A Customer	is not a cold statistic — he is a flesh-and-blood human being with feelings and emotions like our own.
A Customer	is not someone to argue or match wits with.
A Customer	is a person who brings us his wants — it is our job to fill those wants
A Customer	is deserving of the most courteous and attentive treatment we can give him.
A Customer	is the life blood of this and every other business.

You have convinced us that devotion to these ten commandments is good policy. You have given us your confidence and support. This support, in turn, has made possible our outstanding growth during the past 19 years!

KRUMVILLE

Krumville, Sept. 6—Mary Evelyn Hansen celebrated her birthday on Saturday afternoon by entertaining several of her schoolmates.

Mr. and Mrs. Carl Andersen had several guests from Brooklyn over the weekend.

A reunion of the Brown family was held at the home of Mr. and Mrs. Floyd Brown on Monday evening. A buffet supper was served to 16 guests. Among those present were Mr. and Mrs. Ross Brown, Mr. and Mrs. LeRoy Brown, Mr. and Mrs. Raymond Markle, Jeanette Wager, Beatrice and Marie Brown and Burton Dudley, Wilbur Brown and Mr. and Mrs. Floyd Brown.

Mr. and Mrs. Andrew Pedersen entertained the following guests on Labor Day: Mr. and Mrs. Nels Pedersen, Mr. and Mrs. Richard Olsen and daughter Joan, Mr. and Mrs. Theodore Pedersen, Mrs. Harold Jacobsen, Mrs. Mabel Matisori and daughter Myra.

Mr. and Mrs. Harold Davis and son Robert spent Sunday evening with his mother Mrs. Katie Davis.

About the Folks

Mrs. Anna E. DeMott has returned from the hospital to her home at 179 Wall street.

Mrs. Albert Sherman of Stone Ridge is a patient at Kingston Hospital where she underwent an operation today.

Calls for Alliance

Lake Placid, N. Y., Sept. 6 (AP)—The president of the New York State CIO Council called today for an aggressive alliance of labor and farmers to defeat what he termed "reactionary" legislators. Louis Hollander told the 750 delegates to the 12th annual state CIO convention that they should go all out to join farm groups as a new political force. "I'm not making any threat of a third party," he said, "but I'm confident that we'll have the first party, not the third party, if labor and farmers wake up."

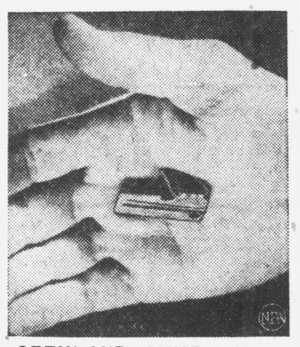
The next move by the attorney for the police and firemen is expected to be a bid for a Supreme Court order to place the proposal on the ballot. Martocci left the city early today, however, and no statement as to when he will bring the petitioners' case to the Supreme Court was available.

Martocci takes the stand that the petition for the salary increases includes mention of a plan in that it leaves the question of making the money available with the Common Council. The corporation counsel contends that more specific details as to the means of raising the money must be included in the petition.



OPEN AND SHUT CASE—There was plenty of comment on Capitol Hill when eagle-eyed Congressmen discovered the Army Quartermaster had ordered 68,000,000 can openers. The thing blew over when it turned out that this was the can opener—a tiny hinged device made of two small pieces of steel, and costing less than two cents. The Army considers them expendable. (U. S. THE TEN COMMANDMENTS of OUR Business

A Customer is the most important person in any business.
A Customer is not dependent on us—we are dependent on him.
A Customer is not an interruption of our work—he is the purpose of it.
A Customer does us a favor when he calls—we are not doing him a favor by serving him.
A Customer is part of our business—he is not an outsider.
A Customer is not a cold statistic — he is a flesh-and-blood human being with feelings and emotions like our own.
A Customer is not someone to argue or match wits with.
A Customer is a person who brings us his wants — it is our job to fill those wants
A Customer is deserving of the most courteous and attentive treatment we can give him.
A Customer is the life blood of this and every other business.

19 Years of Service

You have convinced us that devotion to these ten commandments is good policy. You have given us your confidence and support. This support, in turn, has made possible our outstanding growth during the past 19 years!

Mrs. Albert Sherman of Stone Ridge is a patient at Kingston Hospital where she underwent an operation today.

Calls for Alliance

Lake Placid, N. Y., Sept. 6 (AP)—The president of the New York State CIO Council called today for an aggressive alliance of labor and farmers to defeat what he termed "reactionary" legislators. Louis Hollander told the 750 delegates to the 12th annual state CIO convention that they should go all out to join farm groups as a new political force. "I'm not making any threat of a third party," he said, "but I'm confident that we'll have the first party, not the third party, if labor and farmers wake up."

Cow-tail Holder

The patent office in Washington says there is a patent for a cow-tail holder, a device which is clamped to the animal's leg to keep the tail out of the farmer's face as he milks.

Yacht on Bottom

Westport, Conn., Sept. 6 (AP)—The 85-foot power yaht Charmer, which sank after running a reef off Cockenoe Island in Lond Island Sound here last night, still was on the bottom today. Property of Charles Blount, Jr., of this town, the 40-year-old yaht was expected to be raised, however, although its owner was not immediately available for a statement.
